AMENDED COMPLAINT FOR PATENT INFRINGEMENT

Plaintiff Alex is the Best, LLC. (“AITB”), by and through its undersigned counsel, brings this action against T-Mobile US, Inc. f/k/a MetroPCS Communications, Inc., and T-Mobile USA, Inc. f/k/a MetroPCS Wireless, Inc. (collectively, “T-Mobile” and “Defendants”). In support of this Complaint, AITB alleges as follows:

NATURE OF THE SUIT

1. This is an action for patent infringement under the Patent Laws of the United States of America, 35 U.S.C. § 1 *et seq.*, including 35 U.S.C. § 271.

THE PARTIES

2. Plaintiff AITB is a limited liability company organized under the laws of the state of New York with its principal place of business at 75 82nd St., Brooklyn, New York 11209.

3. On information and belief, T-Mobile US, Inc. f/k/a MetroPCS Communications, Inc., is a Delaware corporation with its principal place of business at 12920 SE 38th St., Bellevue, WA, 98006. This Defendant may be served with process in Delaware through its

registered agent, Corporation Service Company, 2711 Centerville Road, Suite 400, Wilmington, Delaware 19808.

4. On information and belief, Defendant T-Mobile USA, Inc. f/k/a MetroPCS Wireless, Inc., a wholly-owned subsidiary of T-Mobile US, Inc., is a Delaware corporation with its principal place of business at 12920 SE 38th St., Bellevue, WA, 98006. This Defendant may be served with process in Delaware through its registered agent, Corporation Service Company, 2711 Centerville Road, Suite 400, Wilmington, Delaware 19808.

5. Defendants are in the business of using, selling, offering to sell and/or importing network-enabled image capturing devices.

JURISDICTION AND VENUE

6. This Court has subject matter jurisdiction over this action pursuant to 28 U.S.C. §§ 1331 and 1338(a) because the action arises under the patent laws of the United States, 35 U.S.C. §§ 1 *et seq.*

7. This Court has personal jurisdiction over Defendants by virtue of their systematic and continuous contacts with this jurisdiction, as well as because of the injury to AITB and the cause of action AITB has raised, as alleged herein.

8. Defendants are subject to this Court's specific and general personal jurisdiction pursuant to due process and/or the Delaware Long-Arm Statute, due to at least their substantial business in this forum, including: (i) at least a portion of the infringement alleged herein; and (ii) regularly doing or soliciting business, engaging in other persistent courses of conduct, and/or deriving substantial revenue from goods and services provided to individuals in this District.

9. Defendants have conducted and do conduct business within this District, directly or through intermediaries, resellers, agents, by offering to sell, sell, and/or advertise (including the use of interactive web pages with promotional material) products in this District that infringe the Asserted Patents.

10. In addition to Defendants continuously and systematically conducting business in this District, the causes of action against Defendants are connected (but not limited) to Defendants' purposeful acts committed in this District, including Defendants' using, importing, offering to sell, or selling products which include features that fall within the scope of at least one claim of the Asserted Patents.

11. Venue lies in this District under 28 U.S.C. §§ 1391 and 1400(b) because, among other reasons, Defendants are subject to personal jurisdiction in this District, and have committed and continue to commit acts of patent infringement in this District. For example, Defendants have used, sold, offered to sell, and/or imported infringing products in this District.

JOINDER

12. Defendants are properly joined under 35 U.S.C. § 299(a)(1) because a right to relief is asserted against the parties jointly, severally, and in the alternative with respect to the same transactions, occurrences, or series of transactions or occurrences relating to the using, importing into the United States, offering to sell, and/or selling the same accused products. Specifically, as alleged in detail below, Defendants are alleged to infringe the Asserted Patents with respect to the same mobile phones including, but not limited to T-Mobile Sony Xperia Z.

13. Defendants are properly joined under 35 U.S.C. § 299(a)(2). Questions of fact will arise that are common to both defendants, including for example, whether Defendants' products have features that meet the features of one or more claims of the Asserted Patents, and

what reasonable royalty will be adequate to compensate the owner of the Asserted Patents for its infringement.

14. Defendants use, make, sell, offer to sell and/or import mobile devices that, when used, infringe on the Asserted Patents.

15. At least one right to relief is asserted against these parties jointly, severally, or in the alternative with respect to or arising out of the same transaction, occurrence, or series of transactions or occurrences relating to the using, importing into the United States, offering to sell, or selling of the same accused product and/or process.

THE PATENTS-IN-SUIT

16. There are three patents at issue in this action: United States Patent Nos. 8,134,600 (the “’600 Patent”); 8,477,197 (the “’197 Patent”); 8,581,991 (the “’991 Patent”) (collectively, the “Asserted Patents”).

The ’600 Patent

17. On March 13, 2012 the USPTO duly and legally issued the ’600 Patent, entitled “Internet Direct Device” after a full and fair examination to inventors Frank Clemente and Ted Feaser. AITB is presently the owner by assignment of the ’600 Patent, having received all rights, title, and interest in and to the ’600 Patent. AITB possesses all rights of recovery under the ’600 Patent, including the exclusive right to recover for past infringement. A true and correct copy of the ’600 Patent is attached to this Complaint as Exhibit A.

The ’197 Patent

18. On July 2, 2013 the USPTO duly and legally issued the ’197 patent, entitled “Internet Direct Device” after a full and fair examination to inventors Frank Clemente and Ted Feaser. AITB is presently the owner by assignment of the ’197 Patent, having received all

rights, title, and interest in and to the '197 Patent. AITB possesses all rights of recovery under the '197 Patent, including the exclusive right to recover for past infringement. A true and correct copy of the '197 Patent is attached to this Complaint as Exhibit B.

The '991 Patent

19. On November 12, 2013 the USPTO duly and legally issued the '991 Patent, entitled "Integrated Internet Camera System and Method" after a full and fair examination to inventor Frank Clemente. AITB is presently the owner by assignment of the '991 Patent, having received all rights, title, and interest in and to the '991 Patent. AITB possesses all rights of recovery under the '991 Patent, including the exclusive right to recover for past infringement. A true and correct copy of the '991 Patent is attached to this Complaint as Exhibit C.

DESCRIPTION OF THE ACCUSED INSTRUMENTALITIES

20. Defendants' network-enabled image-capturing devices (hereinafter, "Image-capturing Devices"), including but not limited to the T-Mobile Sony Xperia Z, are configured to take still and video images. Defendants' Image-capturing Devices are configured to transmit and receive still and video images to and from other Image-capturing Devices, as well as a website application, on which still and video images captured by the Image-capturing Devices can be stored and managed. Defendants' Image-capturing Devices also are used to perform the method of transmitting and receiving still or video images associated with a user over a communications network.

21. For example, one such website application that allows users to store and manage still and video images captured by Image-capturing Devices is Google+, which comes pre-installed in the T-Mobile Sony Xperia Z.

22. In addition, Defendants' Image-capturing Devices are configured to connect to the Internet through a variety of connections. For example, the T-Mobile Sony Xperia Z comes preloaded with one or more applications that allows users to transmit and receive still or video images over various communications networks, including but not limited to Wi-Fi and various cellular networks, such as 3G and 4G. Thus, the T-Mobile Sony Xperia Z is an Internet direct device with an imaging system to capture still or video images.
