1 Plaintiff Thermolife International, LLC (“Plaintiff”) hereby alleges for its  
2 Complaint against Formutech Nutrition (“Defendant”), on personal knowledge as to  
3 its own activities and on information and belief as to the activities of others, as  
4 follows:

5 **I. THE PARTIES**

6 1. Plaintiff is a limited liability company organized and existing under  
7 the laws of Arizona, with a place of business at 1811 Ocean Front Walk in Venice,  
8 California, 90291.

9 2. Plaintiff is and was at all relevant times the exclusive licensee of  
10 United States Patent No. 6,646,006, titled “Enhancement of Vascular Function By  
11 Modulation of Endogenous Nitric Oxide Production or Activity,” referred to herein  
12 as the “patent in suit.”

13 3. The above patent is and was owned by The Board of Trustees of the  
14 Leland Stanford Junior University (“Stanford University”) and Plaintiff exclusively  
15 licenses and licensed the patent from Stanford University.

16 4. Plaintiff has been given the right by Stanford University to institute  
17 suit with respect to infringements of the patent in suit, including this suit against  
18 Defendant.

19 5. Defendant is an entity organized and existing under the laws of Texas  
20 with a principal place of business at 636 W. Front Street, Suite 700 in Hutto, Texas,  
21 78634.

22 **II. JURISDICTION AND VENUE**

23 6. This is an action for patent infringement arising under the patent laws  
24 of the United States, Title 35 of the United States Code. Accordingly, this Court has  
25 subject matter jurisdiction pursuant to 28 U.S.C. §§ 1331, 1338, and 1367.

26 7. Venue is proper in this district pursuant to 28 U.S.C. §§ 1391 and  
27 1400.

1           8. This Court has personal jurisdiction over Defendant. By way of  
2 example and without limitation, Defendant, directly or through intermediaries  
3 (including distributors, retailers, and others), makes, manufactures, ships,  
4 distributes, advertises, markets, offers for sale, and/or sells dietary supplement  
5 products that infringe on one or more claims of the patent in suit (hereinafter the  
6 “accused products”), which include without limitation products sold under the  
7 “Volatile” brand name, in the United States, the State of California, and the  
8 Southern District of California.

9           9. By way of further example and without limitation, Defendant has  
10 purposefully and voluntarily placed the accused products into the stream of  
11 commerce with the expectation that they will be purchased in the Southern District  
12 of California, and the products are actually purchased in the Southern District of  
13 California.

### 14                           **III. THE DEFENDANT’S INFRINGEMENTS**

15           10. Defendant has committed the tort of patent infringement within the  
16 State of California, and more particularly, within the Southern District of  
17 California, by virtue of the fact that Defendant has formulated, made,  
18 manufactured, shipped, distributed, advertised, offered for sale, and/or sold the  
19 accused products in this District, and continues to do so.

#### 20                           **A. DIRECT INFRINGEMENTS**

21           11. Defendant’s employees, agents, representatives and other persons  
22 sponsored by or who endorse Defendant and Defendant’s products in advertising  
23 and marketing activities, have taken, used, and orally administered the accused  
24 products.

25           12. The accused products are formulated, made, manufactured, shipped,  
26 distributed, advertised, offered for sale, and sold by Defendant to include certain  
27 ingredients that, by virtue of their inclusion in the products, infringe one or more  
28 claims of one or more of the patent in suit.

HIDEN, ROTT & OERTLE, LLP

2635 Camino Del Rio South, Suite 306  
San Diego, California 92108  
TEL (619) 296-5884 FAX (619) 296-5171

1 13. The accused products are formulated, made, manufactured, shipped,  
2 distributed, advertised, offered for sale, and sold by Defendant to include specific  
3 ingredients for certain purposes that, by virtue of their inclusion in the products for  
4 such purposes, infringe one or more claims of the patent in suit, and as a result,  
5 when Defendant's employees, agents, representatives and other persons sponsored  
6 by or who endorse Defendant and Defendant's products in advertising and  
7 marketing activities orally administer the accused products, they are practicing and  
8 they practiced the methods disclosed in those claims.

9 14. The purposes for which these ingredients are included in the accused  
10 products are and were, without limitation, to enhance nitric oxide production, to  
11 improve nitric oxide activity, to produce nitric oxide, to boost nitric oxide levels in  
12 the body, and to enhance physical performance.

13 15. Defendant encouraged and/or is aware of the fact that its employees,  
14 agents, representatives and other persons sponsored by Defendant or who endorse  
15 Defendant and Defendant's products in advertising and marketing activities orally  
16 administered and administer the accused products and practice and practiced the  
17 methods disclosed in one or more claims of the patent in suit, and these employees,  
18 agents, representatives and other persons sponsored by Defendant or who endorse  
19 Defendant and Defendant's products in advertising and marketing activities are and  
20 were acting under Defendant's direction and control when practicing those  
21 methods.

22 16. Therefore, Defendant is and was a direct infringer of one or more  
23 claims of the patent in suit, and Defendant practices and practiced the methods as  
24 set forth in one or more claims of the patent in suit.

25 **B. INDIRECT INFRINGEMENTS**

26 17. End-users of Defendant's accused products were and are also direct  
27 infringers of one or more claims of the patent in suit.

HIDEN, ROTT & OERTLE, LLP

2635 Camino Del Rio South, Suite 306  
San Diego, California 92108  
TEL (619) 296-5884 FAX (619) 296-5171

1 18. End-users of Defendant's accused products have taken, used, and  
2 orally administered the accused products.

3 19. The accused products are and were formulated, made, manufactured,  
4 shipped, distributed, advertised, offered for sale, and/or sold by Defendant to  
5 include certain ingredients that, by virtue of their inclusion in the products, infringe  
6 and infringed one or more claims of the patent in suit.

7 20. The accused products are and were formulated, made, manufactured,  
8 shipped, distributed, advertised, offered for sale, and/or sold by Defendant to  
9 include specific ingredients for certain purposes that, because of their inclusion in  
10 the products for such purposes, infringe and infringed one or more claims of the  
11 patent in suit, and as a result, when end-users of Defendant's accused products  
12 orally administer and administered the accused products, they are and were  
13 practicing the methods disclosed in those claims.

14 21. Defendant's labels and advertising for the accused products explain  
15 and explained the elements and essential elements of one or more of the methods  
16 disclosed in the patent in suit, and those labels and advertising statements  
17 encourage, urge, and induce the accused products' end-users, and did so in the past,  
18 to purchase and orally ingest the products to practice those methods, and end-users  
19 do and did practice those methods.

20 22. Defendant has therefore specifically intended to cause these end-users  
21 to directly infringe the claimed methods of this patent, and in fact urged them to do  
22 so.

23 23. The accused products are and were not suitable for non-infringing  
24 uses, and none of Defendant's labels or advertisements for the accused products  
25 disclose or disclosed any uses for the products, nor for the compounds disclosed in  
26 the claimed methods of the patent in suit, that do not infringe upon such methods.

27 24. The inclusion of the specific infringing compounds in the products is  
28 and was material to practicing such methods.

1 25. Defendant has and had knowledge that the accused products are and  
2 were especially adapted by end-users of the products for the practicing of such  
3 methods, and, indeed, Defendant encourages, urges, and induces the accused  
4 products' end-users to purchase and orally administer the accused products to  
5 practice such methods, and has done so in the past.

6 26. Defendant intentionally and knowingly induced, encouraged, and  
7 urged end-users of the accused products to purchase and orally administer the  
8 accused products for the purposes of practicing the claimed methods, by having  
9 them orally ingest the compounds disclosed in such claims.

10 27. Defendant has and had knowledge of the fact that the accused  
11 products, particularly as administered, infringe on one or more claims of the patent  
12 in suit.

13 28. Defendant has and had direct, firsthand knowledge of the patent in  
14 suit.

15 29. For example and without limitation, Plaintiff believes Defendant has  
16 had knowledge of the patent in suit since November 2006, when an ongoing  
17 settlement of a patent infringement case relating to the patent suit and other related  
18 patents against Herbalife, a well-known company in Defendant's industry, was  
19 announced in press releases issued in a highly publicized manner. Plaintiff believes  
20 Defendant's employees, agents, and representatives saw the press releases and were  
21 aware of the settlement and thus the patent in suit.

22 30. By way of further example and without limitation, Defendant sold its  
23 products through retailers, including online retailers, and those retailers have sold  
24 other companies' products whose labels and/or advertisements have been  
25 prominently marked with the patent in suit and/or related patents, by patent number,  
26 including without limitation, upon information and belief, the products  
27 manufactured and sold by Herbalife, Daily Wellness, and Vitality Research Labs.  
28 Defendant's employees, agents, and representatives have seen these labels and

1 advertisements and, thus, Defendant has and had direct knowledge of the patent in  
2 suit.

3 31. By way of further example and without limitation, Defendant received  
4 written notice of the patent in suit from Plaintiff in April 2013.

5 32. Defendant brazenly and willfully decided to infringe the patent in suit  
6 despite knowledge of the patent's existence and its knowledge of the accused  
7 products' infringements of the patent.

8 33. At a minimum, and in the alternative, Plaintiff pleads that Defendant  
9 willfully blinded itself to the infringing nature of the accused products' sales.

10 34. Defendant did not cease its own direct infringement, nor its  
11 contributory infringement or inducement of infringement by end-users, despite its  
12 knowledge of the patent in suit and the end-users' infringing activities with respect  
13 to the patent in suit.

#### 14 **IV. FIRST CAUSE OF ACTION**

##### 15 **Infringement of U.S. Patent No. 6,646,006**

16 35. Plaintiff repeats and re-alleges the allegations of the foregoing  
17 paragraphs of this Complaint as if fully set forth herein.

18 36. Defendant has in the past literally and directly infringed or directly  
19 infringed under the doctrine of equivalents one or more claims of United States  
20 Patent No. 6,646,006 by making, using, selling, and offering for sale the accused  
21 products, or any one of those products.

22 37. In addition to the fact that Defendant makes, uses, sells, and offers for  
23 sale the accused products, and did so in the past, further examples of Defendant's  
24 direct infringements include, without limitation, the fact that Defendant encouraged  
25 and/or is aware of the fact that its employees, agents, representatives and other  
26 persons sponsored by or who endorse Defendant and Defendant's products in  
27 advertising and marketing activities orally administer the accused products and  
28 practice the methods disclosed in one or more claims of United States Patent No.

1 6,646,006, and these employees, agents, representatives and other persons  
2 sponsored by or who endorse Defendant and Defendant's products in advertising  
3 and marketing activities acted under Defendant's direction and control when  
4 practicing those methods.

5 38. Defendant encouraged and was aware of these persons' oral  
6 administration of the accused products for these purposes, these persons are acting  
7 under Defendant's direction and control, and therefore Defendant directly practiced  
8 the methods disclosed in United States Patent No. 6,646,006.

9 39. End-users of Defendant's accused products were also direct infringers  
10 of one or more claims of United States Patent No. 6,646,006.

11 40. End-users of Defendant's accused products have taken, used, and  
12 orally administered the accused products.

13 41. The accused products were formulated, made, manufactured, shipped,  
14 distributed, advertised, offered for sale, and sold by Defendant to include certain  
15 ingredients that, by virtue of their inclusion in the products, infringed one or more  
16 claims of United States Patent No. 6,646,006.

17 42. The accused products were formulated, made, manufactured, shipped,  
18 distributed, advertised, offered for sale, and sold by Defendant to include specific  
19 ingredients for purposes that, by their inclusion in the products for such purposes,  
20 infringed one or more claims of United States Patent No. 6,646,006, and as a result,  
21 when end-users of Defendant's accused products orally administered the accused  
22 products, they were practicing the methods disclosed in one or more claims of that  
23 patent.

24 43. Defendant's labels and advertising for the accused products explained  
25 the elements and essential elements of the methods disclosed in United States  
26 Patent No. 6,646,006, and those labels and advertising statements encouraged,  
27 urged, and induced the accused products' end-users to purchase and orally ingest  
28 the products to practice those methods, and end-users did practice those methods.

1 44. Defendant therefore specifically intended to cause these end-users to  
2 directly infringe the claimed methods of United States Patent No. 6,646,006, and  
3 had in fact urged them to do so.

4 45. The accused products were not suitable for non-infringing uses, and  
5 none of Defendant's labels or advertisements for the accused products disclosed  
6 any uses for the products, nor for the compounds disclosed in the claimed methods,  
7 that did not infringe upon such methods.

8 46. The inclusion of these specific infringing compounds in the products  
9 was material to practicing such methods.

10 47. Defendant had knowledge that the accused products were especially  
11 adapted by end-users of the products for the practicing of such methods, and,  
12 indeed, Defendant encouraged, urged, and induced the accused products' end-users  
13 to purchase and orally administer the accused products to practice such methods.

14 48. Defendant intentionally and knowingly induced, encouraged, and  
15 urged end-users of the accused products to purchase and orally administer the  
16 accused products for the purposes disclosed in one or more claims of United States  
17 Patent No. 6,646,006, by having them orally ingest the compounds disclosed in  
18 such claims.

19 49. Defendant had knowledge of the fact that the accused products,  
20 particularly as administered, infringed on one or more claims of United States  
21 Patent No. 6,646,006.

22 50. Defendant also had direct, firsthand knowledge of United States Patent  
23 No. 6,646,006 itself.

24 51. Defendant's activities were without express or implied license by  
25 Plaintiff.

26 52. As a result of Defendant's acts of infringement, Plaintiff suffered and  
27 will continue to suffer damages in an amount to be proved at trial.

28 ///

1 53. Defendant's past infringements and/or continuing infringements have  
2 been deliberate and willful, and this case is therefore an exceptional case, which  
3 warrants an award of treble damages and attorneys' fees in accordance with 35  
4 U.S.C. § 285.

5 **V. PRAYER FOR RELIEF**

6 WHEREFORE, Plaintiff prays for entry of judgment against Defendant as  
7 follows:

8 1. A declaration that Defendant has infringed the patent in suit, under 35  
9 U.S.C. §§ 271 *et seq.*;

10 2. That Defendant be required to provide to Plaintiff an accounting of all  
11 gains, profits, and advantages derived by Defendant's infringement of the patent in  
12 suit, and that Plaintiff be awarded damages adequate to compensate Plaintiff for the  
13 wrongful infringing acts by Defendant, in accordance with 35 U.S.C. § 284;

14 3. That the damages awarded to Plaintiff with regard to the patent in suit  
15 be increased up to three times, in view of Defendant's willful infringement, in  
16 accordance with 35 U.S.C. § 284;

17 4. That this case be declared to be exceptional in favor of Plaintiff under  
18 35 U.S.C. § 285, and that Plaintiff be awarded its reasonable attorneys' fees and  
19 other expenses incurred in connection with this action;

20 5. That Plaintiff be awarded its interest and costs of suit incurred in this  
21 action;

22 6. Compensatory damages;

23 7. Punitive damages; and

24 8. That Plaintiff be awarded such other and further relief as this Court  
25 may deem just and proper.
