COUNT I
INFRINGEMENT OF U.S. PATENT NO. 7,680,629

7. Plaintiff is the owner by assignment of United States Patent No. 7,680,629 ("the '629 Patent") titled "System and Method for Providing Notes in Measurement Devices." The '629 Patent issued on March 16, 2010. A true and correct copy of the '629 Patent is attached as Exhibit A.

8. Upon information and belief, Defendants have been and are now infringing the '629 Patent in the State of Texas, in this judicial district, and elsewhere in the United States, by, among other things, directly or through intermediaries, making, using, importing, providing, supplying, distributing, selling, and/or offering for sale apparatuses and systems (including, without limitation, Polar H7, Polar H6, Stride Sensor, and the related applications) for providing

a measuring device with the capabilities of note taking, at least one measuring component, a note control component, and a CPU, adapted to link the measuring event to a note. Defendants are directly infringing, literally infringing, and/or infringing the '629 Patent under the doctrine of equivalents. Defendants are thus liable for infringement of the '629 Patent pursuant to 35 U.S.C. § 271.

9. On information and belief, to the extent any marking was required by 35 U.S.C. § 287, all predecessors in interest to the '629 Patent complied with any such requirements.

10. As a result of Defendants' infringement of the '629 Patent, Plaintiff has suffered monetary damages and is entitled to a money judgment in an amount adequate to compensate for Defendants' infringement, but in no event less than a reasonable royalty for the use made of the invention by Defendants, together with interest and costs as fixed by the court, and Plaintiff will continue to suffer damages in the future unless Defendants' infringing activities are enjoined by this Court.

11. Unless a permanent injunction is issued enjoining Defendants and their agents, servants, employees, representatives, affiliates, and all others acting in active concert therewith from infringing the '629 Patent, Plaintiff will be greatly and irreparably harmed.

COUNT II
INFRINGEMENT OF U.S. PATENT NO. 8,078,430

12. Plaintiff is the owner by assignment of United States Patent No. 8,078,430 ("the '430 Patent") titled "System and Method for Providing Notes in Measurement Devices." The '430 Patent issued on December 13, 2011. A true and correct copy of the '430 Patent is attached as Exhibit B.

13. Upon information and belief, Defendants have been and are now infringing the '430 Patent in the State of Texas, in this judicial district, and elsewhere in the United States, by,

among other things, directly or through intermediaries, making, using, importing, providing, supplying, distributing, selling, and/or offering for sale apparatuses and systems (including, without limitation, the Polar H7, Polar H6, Stride Sensor, and the related applications) for providing a method of note taking in an electronic measurement device, by receiving and recording a note corresponding to a measuring event of the electronic measurement device input from a note input device, the note information being information other than measurement of the individual measuring event, and linking the note with the individual measuring event. Defendants are directly infringing, literally infringing, and/or infringing the '430 Patent under the doctrine of equivalents. Defendants are thus liable for infringement of the '430 Patent pursuant to 35 U.S.C. § 271.

14. On information and belief, to the extent any marking was required by 35 U.S.C. § 287, all predecessors in interest to the '430 Patent complied with any such requirements.

15. As a result of Defendants' infringement of the '430 Patent, Plaintiff has suffered monetary damages and is entitled to a money judgment in an amount adequate to compensate for Defendants' infringement, but in no event less than a reasonable royalty for the use made of the invention by Defendants, together with interest and costs as fixed by the court, and Plaintiff will continue to suffer damages in the future unless Defendants' infringing activities are enjoined by this Court.

16. Unless a permanent injunction is issued enjoining Defendants and their agents, servants, employees, representatives, affiliates, and all others acting in active concert therewith from infringing the '430 Patent, Plaintiff will be greatly and irreparably harmed.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff respectfully requests that this Court enter:

1. A judgment in favor of Plaintiff that Defendants have infringed the '629 and '430 Patents;
2. A permanent injunction enjoining Defendants and their officers, directors, agents servants, affiliates, employees, divisions, branches, subsidiaries, parents, and all others acting in active concert therewith from infringement, inducing the infringement of, or contributing to the infringement of the '629 or '430 Patents, or such other equitable relief the Court determines is warranted;
3. A judgment and order requiring Defendants pay to Plaintiff its damages, costs, expenses, and prejudgment and post-judgment interest for Defendants' infringement of the '629 and '430 Patents as provided under 35 U.S.C. § 284, and an accounting of ongoing post-judgment infringement; and
4. Any and all other relief, at law or equity, to which Plaintiff may show itself to be entitled.
