

**IN THE UNITED STATES DISTRICT COURT  
FOR THE EASTERN DISTRICT OF TEXAS  
BEAUMONT DIVISION**

**PANTAURUS LLC,**

Plaintiff,

v.

**SAMSUNG ELECTRONICS AMERICA,  
INC.,**

Defendant.

Case No. 1:14-cv-237

**PATENT CASE**

**JURY TRIAL DEMANDED**

---

**COMPLAINT**

Plaintiff PanTaurus LLC files this Complaint against Samsung Electronics America, Inc., for infringement of United States Patent No. 6,272,533 (the “533 Patent”).

**PARTIES AND JURISDICTION**

1. This is an action for patent infringement under Title 35 of the United States Code. Plaintiff is seeking injunctive relief as well as damages.

2. Jurisdiction is proper in this Court pursuant to 28 U.S.C. §§ 1331 (Federal Question) and 1338(a) (Patents) because this is a civil action for patent infringement arising under the United States patent statutes.

3. Plaintiff PanTaurus LLC (“Plaintiff” or “PanTaurus”) is a Texas limited liability company with its principal office located in the Eastern District of Texas, at 2305 North Street, Suite 205, Beaumont, Texas 77702.

4. Upon information and belief, Defendant Samsung Electronics America, Inc. (“Defendant”) is a New York corporation with a principal office located at 85 Challenger Road, Ridgefield Park, New Jersey 07660. This Court has personal jurisdiction over Defendant because Defendant has committed, and continues to commit, acts of infringement in the state of

Texas, has conducted business in the state of Texas, and/or has engaged in continuous and systematic activities in the state of Texas.

5. On information and belief, Defendant's instrumentalities that are alleged herein to infringe were and/or continue to be made, used, imported, offered for sale, and/or sold in the Eastern District of Texas.

**VENUE**

6. Venue is proper in the Eastern District of Texas pursuant to 28 U.S.C. §§ 1391(c) and 1400(b) because Defendant is deemed to reside in this district. In addition, and in the alternative, Defendant has committed acts of infringement in this district.

**COUNT I**  
**(INFRINGEMENT OF UNITED STATES PATENT NO. 6,272,533)**

7. Plaintiff incorporates paragraphs 1 through 6 herein by reference.

8. This cause of action arises under the patent laws of the United States, and in particular, 35 U.S.C. §§ 271, *et seq.*

9. Plaintiff is the owner by assignment of the '533 Patent with sole rights to enforce the '533 Patent and sue infringers.

10. A copy of the '533 Patent, titled "Secure Computer System And Method Of Providing Secure Access To A Computer System Including A Stand Alone Switch Operable To Inhibit Data Corruption On A Storage Device," is attached hereto as Exhibit A.

11. The '533 Patent is valid and enforceable, and it was duly issued in full compliance with Title 35 of the United States Code.

12. The '533 Patent is a prominent, pioneering patent in the field of computer security. This is evidenced in part by the extent to which the '533 Patent has been forward-cited as prior art in connection with the examination of subsequently-issued U.S. patents. The '533

Patent has been forward-cited in more than 130 subsequently-issued U.S. patents to date, including patents originally assigned to such prominent companies as Intel (93 times), Dot Hill Systems (12 times), IBM, Nikon, Dell, Seagate, Lenovo, McAfee, Hewlett Packard, Lockheed Martin, and STMicroelectronics.

**(Direct Infringement)**

13. Upon information and belief, Defendant has infringed and continues to directly infringe one or more claims of the '533 Patent, including at least claim 29, by making, using, importing, selling and/or offering for sale secure computer systems covered by one or more claims of the '533 Patent, including without limitation (a) Samsung tablets utilizing the Samsung Kernel CryptoAPI cryptographic module (for example, the Samsung Galaxy Tab family of tablets); and (b) Samsung laptop computers using a Windows version that includes BitLocker (standard on the Ultimate and Enterprise editions of Windows Vista and Windows 7, and on the Pro and Enterprise editions of Windows 8) (for example, Samsung Series 9 Ultrabooks using a Windows version that includes BitLocker) (collectively, the "Accused Instrumentalities").

**(Indirect Infringement – Inducement)**

14. Upon information and belief, Defendant has induced infringement and continues to induce infringement of one or more claims of the '533 Patent, including at least claim 29, by end users of the Accused Instrumentalities. Defendant specifically intended for end users of the Accused Instrumentalities to infringe the '533 Patent and knew that the end users' acts constituted infringement. Defendant had knowledge of the '533 Patent or acted with willful blindness to the '533 Patent, and Defendant had the specific intent to cause infringement.

15. At least from the time of service of this Complaint, Defendant has had knowledge of the '533 Patent.

16. Upon information and belief, since Defendant has been on notice of the '533 Patent, Defendant has continued to encourage, instruct, enable, and otherwise cause end users of the Accused Instrumentalities to use the Accused Instrumentalities in a manner that infringes one or more claims of the '533 Patent, including at least claim 29.

17. Defendant's specific intent to cause infringement can be inferred from, without limitation, the facts that Defendant makes, uses, sells, offers for sale and/or imports the Accused Instrumentalities comprising or containing the infringing secure computer system, that Defendant markets certain infringing security and performance features of the Accused Instrumentalities in its promotional materials, and that Defendant differentiates in its promotional materials certain infringing security and performance features of the Accused Instrumentalities from other systems that do not contain such infringing features. Moreover, with respect to the accused Samsung tablets, Defendant has obtained a special FIPS 140-2 security certification, which is a United States government computer security standard, to promote the sale and use of those Accused Instrumentalities. This certification relies on certain infringing security features of those Accused Instrumentalities. In addition, Plaintiff is not aware of any evidence showing any investigation or design around by Defendant, or that Defendant has taken any remedial action with respect to the '533 Patent.

18. In accordance with Fed. R. Civ. P. 11(b)(3), Plaintiff will likely have additional evidentiary support for its claims of induced infringement after a reasonable opportunity for discovery on this issue.

**(Additional Allegations Related to Count One)**

19. Defendant's actions complained of herein are causing irreparable harm and monetary damage to Plaintiff and will continue to do so unless and until Defendant is enjoined and restrained by this Court.

20. Plaintiff is in compliance with 35 U.S.C. § 287.

**DEMAND FOR JURY TRIAL**

Plaintiff, under Rule 38 of the Federal Rules of Civil Procedure, requests a trial by jury of all issues so triable by right.

**PRAYER FOR RELIEF**

WHEREFORE, Plaintiff respectfully requests the Court to:

- a) Enter judgment for Plaintiff on this Complaint on all causes of action asserted herein;
- b) Enjoin Defendant, its agents, officers, servants, employees, attorneys and all persons in active concert or participation with Defendant who receive notice of the order from further infringement of United States Patent No. 6,272,533 (or, in the alternative, awarding Plaintiff a running royalty from the time of judgment going forward);
- c) Award Plaintiff damages resulting from Defendant's infringement in accordance with 35 U.S.C. § 284;
- d) Award Plaintiff pre-judgment and post-judgment interest and costs; and
- e) Award Plaintiff such further relief to which the Court finds Plaintiff entitled under law or equity.

Dated: April 23, 2014

Respectfully submitted,

/s/ Craig Tadlock
