The DRL ANDA

31. DRL filed an ANDA under 21 U.S.C. § 355(j) seeking FDA approval to manufacture, use, offer for sale, sell in and import into the United States glatiramer acetate injection, 40 mg/mL, purported to be generic to Teva's COPAXONE® ("DRL's Glatiramer Acetate Product"), prior to the expiration of the '250 and '413 patents.

COUNT I FOR INFRINGEMENT OF U.S. PATENT NO. 8,232,250 BY DRL

38. The allegations of the proceeding paragraphs 1–37 are realleged and incorporated herein by reference.

39. The use of DRL's Glatiramer Acetate Product is covered by one or more claims of the '250 patent.

40. The commercial manufacture, use, offer for sale, sale, marketing, distribution and/or importation of DRL's Glatiramer Acetate Product would infringe one or more claims of the '250 patent.

41. Under 35 U.S.C. § 271(e)(2)(A), DRL's submission to FDA of DRL's ANDA to obtain approval for DRL's Glatiramer Acetate Product with a Paragraph IV Certification related thereto before the expiration of the '250 patent constitutes an act of infringement, and if approved, the commercial manufacture, use, offer to sell, sale, or importation of DRL's Glatiramer Acetate Product containing glatiramer acetate, would infringe one or more claims of the '250 patent.

42. DRL was aware of the '250 patent when engaging in these knowing and purposeful activities and was aware that filing DRL's ANDA with DRL's Paragraph IV Certifications with respect to the '250 patent constituted an act of infringement of the '250 patent.

43. Upon information and belief, DRL seeks approval from the FDA to manufacture, use, offer for sale, sell in and import into the United States DRL's Glatiramer Acetate Product indicated for the treatment of patients with relapsing forms of multiple sclerosis. Further, upon information and belief, DRL seeks approval from the FDA to manufacture, use, offer for sale, sell in and import into the United States DRL's Glatiramer Acetate Product, which will be indicated for administration three times per week with at least 48 hours between every injection.

Upon information and belief, DRL, under 35 U.S.C. § 271(c), plans and intends to, and will, contribute to the infringement of the ’250 patent immediately and imminently upon approval of the DRL’s ANDA.

49. The foregoing actions by DRL constitute and/or would constitute infringement of the ’250 patent, active inducement of infringement of the ’250 patent and/or contribution to the infringement by others of the ’250 patent.

50. Upon information and belief, DRL acted without a reasonable basis for believing that it would not be liable for infringing the ’250 patent, actively inducing infringement of the ’250 patent and/or contributing to the infringement by others of the ’250 patent.

51. Teva will be substantially and irreparably harmed by DRL's infringing activities unless the Court enjoins those activities. Teva will have no adequate remedy at law if DRL is not enjoined from the commercial manufacture, use, offer to sell, sale in and importation into the United States of DRL's Glatiramer Acetate Product.

55. Such conduct will constitute direct infringement of one or more claims on the '250 patent under 35 U.S.C. § 271(a), inducement of infringement of the '250 patent under 35 U.S.C. § 271(b), and contributory infringement of the '250 patent under 35 U.S.C. § 271(c).

56. DRL's infringing patent activity complained of herein is imminent and will begin following FDA approval of DRL's ANDA.

57. As a result of the foregoing facts, there is a real, substantial, and continuing justiciable controversy between Teva and DRL as to liability for the infringement of the '250 patent. DRL's actions have created in Teva a reasonable apprehension of irreparable harm and loss resulting from DRL's threatened imminent actions.

58. Upon information and belief, DRL will knowingly and willfully infringe the '250 patent.

59. Teva will be irreparably harmed if DRL is not enjoined from infringing the ’250 patent.
