

**IN THE UNITED STATES DISTRICT COURT FOR THE
EASTERN DISTRICT OF WISCONSIN**

MILWAUKEE ELECTRIC TOOL) CORPORATION,) METCO BATTERY TECHNOLOGIES,) LLC, AC (MACAO COMMERCIAL) OFFSHORE) LIMITED and) TECHTRONIC INDUSTRIES CO. LTD.,)) Plaintiffs,)) v.)) CHERVON NORTH AMERICA, INC.,))) Defendant.))	CASE NO _____ PATENT CASE JURY DEMANDED
---	---	---

COMPLAINT FOR PATENT INFRINGEMENT

Milwaukee Electric Tool Corporation, Metco Battery Technologies, LLC, AC (Macao Commercial Offshore) Limited, and Techtronic Industries Co. Ltd. (collectively "Plaintiffs"), for their Complaint against the Defendant, Chervon North America, Inc., ("Defendant"), allege as follows:

THE PARTIES

1. Plaintiff Milwaukee Electric Tool Corporation ("Milwaukee Tool") is a Delaware corporation with its principal place of business located at 13135 West Lisbon Road, Brookfield, Wisconsin 53005.
2. Plaintiff Metco Battery Technologies, LLC ("MBT") is a Delaware company with its principal place of business located at 2711 Centerville Road, Suite 400, Wilmington, Delaware 19808.

3. Plaintiff AC (Macao Commercial Offshore) Limited ("TTi Macao") is a Macao corporation with its principal place of business located at Avenida da Praia Grande, n. 429 - Centro Comercial da Praia Grande, 26. andar "D."

4. Plaintiff Techtronic Industries Co. Ltd. ("TTi Hong Kong") is a Hong Kong corporation with its principal place of business located at 24/F CDW Building, 388 Castle Peak Road, Tsuen Wan, New Territories, Hong Kong.

5. Upon information and belief Defendant Chervon North America, Inc. is a Delaware company having registered address for process service at 900 Monroe Avenue NW, Grand Rapids, MI 49503.

6. Upon information and belief, Defendant is a United States subsidiary of Chervon Ltd. (collectively, with its various direct and indirect subsidiaries, "Chervon"). Defendant manufactures, imports into the United States, offers for sale, or sells products for Chervon under at least the following brand names: Kobalt, Masterforce, and Craftsman, including, without limitation, the products further identified herein.

NATURE, JURISDICTION AND VENUE

7. This is an action for patent infringement founded upon the patent laws of the United States, 35 U.S.C § 100 *et seq.*, including, without limitation, 35 U.S.C. § 271.

8. This Court has subject matter jurisdiction pursuant to 28 U.S.C. § 1338(a).

9. Venue is proper in this District pursuant to 28 U.S.C. §§ 1391 and 1400(b).

10. Upon information and belief, Defendant regularly and systematically transacts business in the State of Wisconsin and in this District by, among other things, the sale and offer for sale of products at distribution and retail locations throughout the

District, including, without limitation, products sold under the Kobalt brand at Lowe's stores in the District, products sold under the Masterforce brand at Menard's stores in the District, and products sold under the Craftsman brand at Sears stores in the District.

THE PATENTS IN SUIT

11. On June 30, 2009, United States Patent No. 7,554,290 (the "'290 patent") was duly and properly issued to Todd W. Johnson et al., for an invention entitled "Lithium-Based Battery Pack for a Hand-Held Power Tool."

12. Milwaukee Tool, TTi Macao, and TTi Hong Kong are the owners by assignment of the '290 patent.

13. MBT has a license to certain exclusive rights under the '290 patent.

14. Together Plaintiffs possess all rights necessary to bring this suit for infringement of the '290 patent.

15. The '290 patent was the subject of *inter partes* reexamination proceeding No. 95/001,848 before the United States Patent and Trademark Office ("PTO"). That proceeding completed with the issuance of a reexamination certificate, confirming the patentability of all claims of the '290 patent without modification.

16. On May 17, 2011, United States Patent No. 7,944,173 (the "'173 patent") was duly and properly issued to Todd W. Johnson et al., for an invention entitled "Lithium-Based Battery Pack for a High Current Draw, Hand Held Power Tool."

17. Milwaukee Tool, TTi Macao, and TTi Hong Kong are the owners by assignment of the '173 patent.

18. MBT has a license to certain exclusive rights under the '173 patent.

19. Together Plaintiffs possess all rights necessary to bring this suit for infringement of the '173 patent.

20. The '173 patent was the subject of *inter partes* reexamination proceeding No. 95/001,847 before the PTO. An Action Closing Prosecution was issued in that proceeding rejecting all proposed grounds for invalidity. The proceeding will therefore shortly end with the issuance of a reexamination certificate, confirming the patentability of all claims of the '173 patent without modification.

21. On August 16, 2011, United States Patent No. 7,999,510 (the "'510 patent") was duly and properly issued to Todd W. Johnson et al., for an invention entitled "Method and System of Charging Multi-Cell Lithium-Based Batteries."

22. Milwaukee Tool, TTi Macao, and TTi Hong Kong are the owners by assignment of the '510 patent.

23. MBT has a license to certain exclusive rights under the '510 patent.

24. Together Plaintiffs possess all rights necessary to bring this suit for infringement of the '510 patent.

25. The '510 patent was the subject of *inter partes* reexamination proceeding No. 95/001,846 before the PTO. That proceeding completed with the issuance of a reexamination certificate, confirming the patentability of all claims of the '510 patent without modification.

26. On January 16, 2007, United States Patent No. 7,164,257 (the "'257 patent") was duly and properly issued to Todd W. Johnson et al., for an invention entitled "Method and System for Protection of a Lithium-Based Multicell Battery Pack Including a Heat Sink."

27. Milwaukee Tool, TTi Macao, and TTi Hong Kong are the owners by assignment of the '257 patent.

28. MBT has a license to certain exclusive rights under the '257 patent.

29. Together Plaintiffs possess all rights necessary to bring this suit for infringement of the '257 patent.

30. The '257 patent was the subject of *ex parte* reexamination proceeding No. 90/012,039 before the PTO. That proceeding completed with the issuance of a reexamination certificate, confirming the patentability of all claims of the '257 patent as amended during the proceeding, and adding additional claims 14-21.

31. On March 24, 2009, United States Patent No. 7,508,167 (the "'167 patent") was duly and properly issued to Gary D. Meyer et al., for an invention entitled "Method and System for Charging Multi-Cell Lithium-Based Batteries."

32. Milwaukee Tool, TTi Macao, and TTi Hong Kong are the owners by assignment of the '167 patent.

33. MBT has a license to certain exclusive rights under the '167 patent.

34. Together Plaintiffs possess all rights necessary to bring this suit for infringement of the '167 patent.

35. The '167 patent was the subject of *ex parte* reexamination proceeding No. 90/012,038 before the PTO. That proceeding completed with the issuance of a reexamination certificate, confirming the patentability of all original claims of the '167 patent without modification and adding additional claims 19-35.

BACKGROUND FACTS

36. Collectively the '290 patent, '173 patent, '510 patent, '257 patent, and '167 patent (hereafter, when used collectively, the "Patents-In-Suit") cover aspects of Milwaukee Tool's pioneering inventions in the area of Lithium-Ion ("Li-Ion") powered handheld cordless power tools and associated technologies related to controlling and charging battery packs for such tools.

37. Prior to Milwaukee Tool's introduction of the first Li-Ion powered handheld cordless power tool in January 2005, most handheld cordless power tools were powered by battery packs utilizing Nickel-Cadmium ("NiCad") batteries.

38. By the late 1990's, NiCad batteries had plateaued in potential performance.

39. Even at their plateau, NiCad batteries could not successfully provide power equivalent to a corded, line-voltage power tool in a format for handheld cordless power tools because NiCad batteries of sufficient power were too heavy and bulky to be commercially viable.

40. Prior to Milwaukee Tool's industry-changing introduction of the first Li-Ion powered tool providing line-voltage performance in a handheld cordless tool, Li-Ion chemistry was generally viewed as being unsuitable for delivering the high-power required for a cordless power tool.

41. Milwaukee Tool revolutionized the cordless handheld power tool industry in 2005 with its introduction of the V28 line of Li-Ion powered tools embodying the inventions of the Patents-In-Suit. The V28 line were the first handheld cordless power

tools to perform equivalently to line-voltage corded tools while remaining as light and compact as earlier lower power cordless tools.

42. Industry press at the time of Milwaukee Tool's introduction praised the quantum leap forward represented by Milwaukee Tool's new technology. Many well-respected industry commentators recognized that Milwaukee Tool's invention was an industry first and satisfied the long-felt demand for a convenient cordless handheld tool with power equivalent to a comparable corded tool. The broad acknowledgement of Milwaukee Tool's revolutionary invention culminated with Milwaukee Tool's receipt of many industry awards for innovation, including, for example:

- (a) The 2005 Editors' Choice Grand Award from *Tools of the Trade*;
- (b) A 2005 Handy Innovation Award as one of Nine Groundbreaking New Products;
- (c) The 2005 Breakthrough Award from *Popular Mechanics*;
- (d) The 2005 Most Innovative Product award from *Electrical Contracting Products*;
- (e) A 2006 Top 10 Innovative Tools award from *Workbench*;
- (f) The Most Valuable Product award from *Building Products Magazine*;
- (g) The 2006 Editors' Choice Grand Award (Co-recipient) from *Tools of the Trade*; and
- (h) The 2006 Readers' Choice Award from *Woodshop News*.

43. Soon after Milwaukee Tool's introduction, Li-Ion became the *de facto* industry standard. No other technology could offer the combination of high power, light weight and compact size made possible by Milwaukee Tool's inventions.

44. Every competitor in the handheld cordless power tool industry, including Defendant, soon adopted Milwaukee Tool's inventions and transitioned, at least in part, to the use of Li-Ion powered battery packs in their handheld cordless power tools.

45. As demonstrated by Defendant's infringement of the Patents-In-Suit, handheld cordless power tools utilizing Milwaukee Tool's foundational inventions related to Li-Ion powered battery packs dominate the industry.

COUNT I
(INFRINGEMENT OF THE '290 PATENT)

46. Plaintiffs incorporate and re-allege as if fully set forth herein each and every allegation contained in paragraphs 1-45.

47. Defendant makes, imports, offers for sale, and/or sells several lines of handheld cordless power tools that utilize multi-cell Li-Ion battery packs. These products are sold in various combinations of tools, battery packs, and chargers. Among such lines of tools made, imported, offered for sale, and/or sold by Defendant are the Kobalt 18V drill/driver, Masterforce 20V drill, Masterforce 18V impact wrench, Masterforce 18V cordless hammer drill, Masterforce 12v cordless drill/driver, Craftsman 19.2V drill/driver, and Craftsman 12V drill/driver. Each of these products made, imported, offered for sale, and/or sold by Defendant uses multi-cell Li-Ion battery packs that can produce an average discharge current greater than or equal to approximately 20 amps. Defendant makes, imports, offers for sale, and/or sells these battery packs under the Kobalt, Masterforce, and Craftsman labels, under various part numbers or designations,

including but not limited to the following: K18-LB15A, K18-LB30A, 252-8016, 252-8028, 252-8029, 252-8032, 252-8033, 5166.2, 320.11221, and 320.33170. Defendant also makes, imports, offers for sale, and/or sells these and comparable battery packs as part of various tools and kits under a variety of other designations.

48. Defendant is infringing Plaintiffs' exclusive rights in the '290 patent in violation of 35 U.S.C. § 271 by manufacturing, importing, using, offering for sale, or selling products that embody the inventions of and are within the scope of the claims of the '290 patent, and will continue to do so unless enjoined by this Court. Such products include, but are not limited to, the battery packs identified in paragraph 47 and other comparable multi-cell Li-Ion battery packs capable of producing an average discharge current greater than or equal to approximately 20 amps as set forth in the '290 patent, whether sold alone or together with other packs, tools, and/or chargers.

49. Upon information and belief, Defendant was on notice and aware of the '290 patent prior to the filing of this Complaint and as early as June 30, 2009. Nevertheless, Defendant has continued to infringe, despite an objectively high likelihood that its actions constitute infringement of the '290 Patent. Accordingly, Defendant's infringement has been and continues to be willful.

50. At least as early as October 31, 2011, Milwaukee Tool sent correspondence to Defendant notifying it of Milwaukee Tool's patent rights in the area of Li-Ion technology. In addition, Milwaukee Tool's inventions related to Li-Ion technology in handheld cordless power tools have been the subject to extensive industry press coverage and Milwaukee Tool consistently marked its products with the applicable Patents-In-Suit.

COUNT II
(INFRINGEMENT OF THE '173 PATENT)

51. Plaintiffs incorporate and re-allege as if fully set forth herein each and every allegation contained in paragraphs 1-50.

52. Defendant makes, imports, offers for sale, and/or sells several lines of handheld cordless power tools that utilize multi-cell Li-Ion battery packs. These products are sold in various combinations of tools, battery packs, and chargers. Among such lines of tools made, imported, offered for sale, and/or sold by Defendants are the Kobalt 18V drill/driver, Masterforce 20V drill, Masterforce 18V impact wrench, Masterforce 18V cordless hammer drill, Masterforce 12v cordless drill/driver, Craftsman 19.2V drill/driver, and Craftsman 12V drill/driver. Each of these products made, imported, offered for sale, and/or sold by Defendant uses multi-cell Li-Ion battery packs that can produce an average discharge current greater than or equal to approximately 20 amps, incorporate at least one terminal through which the battery pack discharge current flows to a corresponding terminal on the tool, and include a locking assembly to lock the pack to the tool. Defendant makes, imports, offers for sale, and/or sells these battery packs under at least the Kobalt, Masterforce and Craftsman labels, under various part numbers or designations, including but not limited to the following: K18-LB15A, K18-LB30A, 252-8016, 252-8028, 252-8029, 252-8032, 252-8033, 5166.2, 320.11221, and 320.33170. Defendant also makes, imports, offers for sale, and/or sells these and comparable battery packs as part of various tools and kits under a variety of other designations.

53. Defendant is infringing Plaintiffs' exclusive rights in the '173 patent in violation of 35 U.S.C. § 271 by manufacturing, importing, using, offering for sale, or selling products that embody the inventions of and are within the scope of the claims of

the '173 patent, and will continue to do so unless enjoined by this Court. Such products include, but are not limited to, the battery packs identified in paragraph 52 and other comparable multi-cell Li-Ion battery packs capable of producing an average discharge current greater than or equal to approximately 20 amps, that incorporate at least one terminal through which the battery pack discharge current flows to a corresponding terminal on the tool, and include a locking assembly to lock the pack to the tool as set forth in the '173 patent, whether such packs are sold alone or together with other packs, tools, and/or chargers.

54. Upon information and belief, Defendant was on notice and aware of the '173 patent prior to the filing of this Complaint and as early as May 17, 2011. Nevertheless, Defendant has continued to infringe, despite an objectively high likelihood that its actions constitute infringement of the '173 Patent. Accordingly, Defendant's infringement has been and continues to be willful.

55. At least as early as October 31, 2011, Milwaukee Tool sent correspondence to Defendant notifying it of Milwaukee Tool's patent rights in the area of Li-Ion technology. In addition, Milwaukee Tool's inventions related to Li-Ion technology in handheld cordless power tools have been the subject to extensive industry press coverage and Milwaukee Tool consistently marked its products with the applicable Patents-In-Suit.

COUNT III
(INFRINGEMENT OF THE '510 PATENT)

56. Plaintiffs incorporate and re-allege as if fully set forth herein each and every allegation contained in paragraphs 1-55.

57. Defendant makes, imports, offers for sale, and/or sells several lines of handheld cordless power tools that utilize multi-cell Li-Ion battery packs. These products are sold in various combinations of tools, battery packs, and chargers. Among such lines of tools made, imported, offered for sale, and/or sold by Defendant are the Kobalt 18V drill/driver, Masterforce 20V drill, Masterforce 18V impact wrench, Masterforce 18V cordless hammer drill, Masterforce 12v cordless drill/driver, Craftsman 19.2V drill/driver, and Craftsman 12V drill/driver. Each of these products made, imported, offered for sale, and/or sold by Defendant uses multi-cell Li-Ion battery packs that can produce an average discharge current greater than or equal to approximately 20 amps and have a nominal pack voltage of at least approximately 12, 18, or 20 volts, respectively. Defendant makes, imports, offers for sale, and/or sells these battery packs under at least the Kobalt, Masterforce and Craftsman labels, under various part numbers or designations, including but not limited to the following: K18-LB15A, K18-LB30A, 252-8016, 252-8028, 252-8029, 252-8032, 252-8033, 5166.2, 320.11221, and 320.33170. Defendant also makes, imports, offers for sale, and/or sells these and comparable battery packs as part of various tools and kits under a variety of other designations.

58. Defendant is infringing Plaintiffs' exclusive rights in the '510 patent in violation of 35 U.S.C. § 271 by manufacturing, importing, using, offering for sale, or selling products that embody the inventions of and are within the scope of the claims of the '510 patent, and will continue to do so unless enjoined by this Court. Such products include, but are not limited to, the battery packs identified in paragraph 57 and other comparable multi-cell Li-Ion battery packs capable of producing an average discharge current greater than or equal to approximately 20 amps, and have a nominal pack voltage

of at least approximately 12, 18, or 20 volts, respectively as set forth in the '510 patent, whether such packs are sold alone or together with other packs, tools, and/or chargers.

59. Upon information and belief, Defendant was on notice and aware of the '510 patent prior to the filing of this Complaint and as early as August 16, 2011.

Nevertheless, Defendant has continued to infringe, despite an objectively high likelihood that its actions constitute infringement of the '510 Patent. Accordingly, Defendant's infringement has been and continues to be willful.

60. At least as early as October 31, 2011, Milwaukee Tool sent correspondence to Defendant notifying it of Milwaukee Tool's patent rights in the area of Li-Ion technology. In addition, Milwaukee Tool's inventions related to Li-Ion technology in handheld cordless power tools have been the subject to extensive industry press coverage and Milwaukee Tool consistently marked its products with the applicable Patents-In-Suit.

COUNT IV
(INFRINGEMENT OF THE '257 PATENT)

61. Plaintiffs incorporate and re-allege as if fully set forth herein each and every allegation contained in paragraphs 1-60.

62. Defendant makes, imports, offers for sale, and/or sells several lines of handheld cordless power tools that utilize multi-cell Li-Ion battery packs. These products are sold in various combinations of tools, battery packs, and chargers. Among such lines of tools made, imported, offered for sale, and/or sold by Defendant are the Kobalt 18V drill/driver, Masterforce 20V drill, Masterforce 18V impact wrench, and Masterforce 18V cordless hammer drill. Each of these products made, imported, offered for sale, and/or sold by Defendant uses multi-cell, multi-terminal Li-Ion battery packs that can

produce an average discharge current greater than or equal to approximately 20 amps, which packs include a control circuit capable of identifying certain characteristics of the battery packs and/or cells and controlling functions of the battery packs and/or cells. Defendant makes, imports, offers for sale, and/or sells these battery packs under at least the Kobalt and Masterforce labels, under various part numbers or designations, including but not limited to the following: K18-LB15A, K18-LB30A, 252-8028, 252-8029, 252-8032, and 252-8033. Defendant also makes, imports, offers for sale, and/or sells these and comparable battery packs as part of various tools and kits under a variety of other designations.

63. Defendant is infringing Plaintiffs' exclusive rights in the '257 patent in violation of 35 U.S.C. § 271 by manufacturing, importing, using, offering for sale, or selling products that embody the inventions of and are within the scope of the claims of the '257 patent, and will continue to do so unless enjoined by this Court. Such products include, but are not limited to, the battery packs identified in paragraph 62 and other comparable multi-cell, multi-terminal Li-Ion battery packs capable of producing an average discharge current greater than or equal to approximately 20 amps, which packs include a control circuit capable of identifying certain characteristics of the battery packs and/or cells and controlling functions of the battery packs and/or cells as set forth in the '257 patent, whether such packs are sold alone or together with other packs, tools, and/or chargers.

64. Upon information and belief, Defendant was on notice and aware of the '257 patent prior to the filing of this Complaint and as early as January 16, 2007. Nevertheless, Defendant has continued to infringe, despite an objectively high likelihood

that its actions constitute infringement of the '257 Patent. Accordingly, Defendant's infringement has been and continues to be willful.

65. At least as early as October 31, 2011, Milwaukee Tool sent correspondence to Defendant notifying it of Milwaukee Tool's patent rights in the area of Li-Ion technology. In addition, Milwaukee Tool's inventions related to Li-Ion technology in handheld cordless power tools have been the subject to extensive industry press coverage and Milwaukee Tool consistently marked its products with the applicable Patents-In-Suit.

COUNT V
(INFRINGEMENT OF THE '167 PATENT)

66. Plaintiffs incorporate and re-allege as if fully set forth herein each and every allegation contained in paragraphs 1-65.

67. Defendant makes, imports, offers for sale, and/or sells several lines of handheld cordless power tools that utilize multi-cell Li-Ion battery packs. These products are sold in various combinations of tools, battery packs, and chargers. Among such lines of tools made, imported, offered for sale, and/or sold by Defendant are the Kobalt 18V drill/driver, Masterforce 20V drill, Masterforce 18V impact wrench, and Masterforce 18V cordless hammer drill. Each of these products made, imported, offered for sale, and/or sold by Defendants uses multi-cell Li-Ion battery packs. Defendant makes, imports, offers for sale, and/or sells these battery packs under at least the Kobalt and Masterforce labels, under various part numbers or designations, including but not limited to the following: K18-LB15A, K18-LB30A, 252-8028, 252-8029, 252-8032, and 252-8033. Defendant also makes, imports, offers for sale, and/or sells these and comparable battery packs as part of various tools and kits under a variety of other designations.

68. As part of the product lines described in paragraph 67, Defendant also makes, imports, offers for sale, and/or sells various battery chargers for charging its Li-Ion battery packs, which chargers include a controller and are capable of monitoring the state of charge of individual cells in the battery packs and charging the battery packs based, at least in part, on the state of charge of individual cells, including without limitation, chargers sold and offered for sale under the following designations: K18-MC45A, 252-8036, and 252-8037, together with these and comparable chargers sold or offered for sale together with various tools and packs or as part of various kits under a variety of other designations.

69. Defendant is infringing Plaintiffs' exclusive rights in the '167 patent in violation of 35 U.S.C. § 271 by manufacturing, importing, using, offering for sale, or selling products that embody the inventions of and are within the scope of the claims of the '167 patent, and will continue to do so unless enjoined by this Court. Such products include, but are not limited to, the battery chargers identified in paragraph 68 and other comparable chargers for charging Li-Ion battery packs, which chargers include a controller and are capable of monitoring the state of charge of individual cells in the battery packs and charging the battery packs based, at least in part, on the state of charge of individual cells as set forth in the '257 patent, whether such chargers are sold alone or together with other packs, tools, and/or chargers.

70. Upon information and belief, Defendant was on notice and aware of the '167 patent prior to the filing of this Complaint and as early as March 24, 2009. Nevertheless, Defendant has continued to infringe, despite an objectively high likelihood

that its actions constitute infringement of the '167 Patent. Accordingly, Defendant's infringement has been and continues to be willful.

71. At least as early as October 31, 2011, Milwaukee Tool sent correspondence to Defendant notifying it of Milwaukee Tool's patent rights in the area of Li-Ion technology. In addition, Milwaukee Tool's inventions related to Li-Ion technology in handheld cordless power tools have been the subject to extensive industry press coverage and Milwaukee Tool consistently marked its products with the applicable Patents-In-Suit.

PRAYER FOR RELIEF

WHEREFORE, Plaintiffs pray that this Court enter judgment in their favor and against Defendant, jointly and severally, as follows:

- A. Finding that Defendant has infringed, respectively, each of the '290 patent, the '173 patent, the '510 patent, the '257 patent, and the '167 patent;
- B. Awarding damages to Plaintiffs under 35 U.S.C. § 284, along with interest and costs for Defendant's infringement, respectively, of each of the '290 patent, the '173 patent, the '510 patent, the '257 patent, and the '167 patent;
- C. Finding that this case is an exceptional case under 35 U.S.C. § 285, and awarding Plaintiffs their attorneys' fees and costs;
- D. Finding that Defendant's infringement was willful, and trebling any damages found or assessed;
- E. Entering a permanent injunction under 35 U.S.C. § 283 enjoining Defendant, its officers, partners, employees, agents, parents, subsidiaries, attorneys, and anyone acting or participating with Defendant, from

manufacturing, making, selling, offering for sale, importing, or using the infringing products identified herein or any comparable product that infringes any of the '290 patent, the '173 patent, the '510 patent, the '257 patent, or the '167 patent; and

- F. Awarding to Plaintiffs such other and further relief as the Court may deem just and equitable.

JURY TRIAL DEMAND

Plaintiffs demand a trial by jury on all matters and issues triable by a jury.

Dated: October 16, 2014
