COUNT I
INFRINGEMENT OF U.S. PATENT NO. 7,580,864

6. Plaintiff is the owner by assignment of United States Patent No. 7,580,864 ("the '864 Patent") titled "Method for Circulating an Electronic Gift Certificate in Online and Offline System." The '864 Patent issued on August 25, 2009. A true and correct copy of the '864 Patent is attached as Exhibit A.

7. Upon information and belief, Defendant has been and is now infringing the '864 Patent in the State of Texas, in this judicial district, and elsewhere in the United States, by, among other things, directly or through intermediaries, making, using, importing, providing, supplying, distributing, selling, and/or offering for sale apparatuses and systems (including, without limitation, Starbucks eGift Card and/or Card eGifts) that is a gift certificate service system for managing sales, gifting, and usage of electronic gift certificates according to a request by a user's communication terminal through a wired network, wireless network, or both, comprising: a gift certificate service server for managing purchase, gifting, and usage operations on the electronic gift certificates from the communication terminal; a gift certificate database,

accessed by the gift certificate service server, for storing electronic gift certificate information prior to transferring the gift certificate to a transferee, and processing a reply to an inquiry of electronic gift certificate usage from the gift certificate service server; and a network server, accessed by the gift certificate service server and accessed by the user's communication terminal through the wired network, wireless network, or both, for performing a client interface function with the purchase, gifting, and usage of the electronic gift certificates, and transmitting the user's gift certificate purchase particulars and gift certificate information for usage of the corresponding gift certificate to the communication terminal, wherein the electronic gift certificate is a multimedia message including barcode data, wherein the network server is responsive to use of the electronic gift certificate occasioned by displaying the barcode data on the communication terminal, and wherein the electronic gift certificate information stored by the gift certificate database includes at least one of a gifting history of the gift certificates or a usage history of the gift certificates, covered by one or more claims of the '864 Patent to the injury of Coqui. Defendant is directly infringing, literally infringing, and/or infringing the '864 Patent under the doctrine of equivalents. Defendant is thus liable for infringement of the '864 Patent pursuant to 35 U.S.C. § 271.

8. On information and belief, to the extent any marking was required by 35 U.S.C. § 287, all predecessors in interest to the '864 Patent complied with any such requirements.

9. As a result of Defendant's infringement of the '864 Patent, Plaintiff has suffered monetary damages and is entitled to a money judgment in an amount adequate to compensate for Defendant's infringement, but in no event less than a reasonable royalty for the use made of the invention by Defendant, together with interest and costs as fixed by the court, and Plaintiff will

continue to suffer damages in the future unless Defendant's infringing activities are enjoined by this Court.

10. Unless a permanent injunction is issued enjoining Defendant and its agents, servants, employees, representatives, affiliates, and all others acting on in active concert therewith from infringing the '864 Patent, Plaintiff will be greatly and irreparably harmed.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff respectfully requests that this Court enter:

1. A judgment in favor of Plaintiff that Defendant has infringed the '864 Patent;
2. A permanent injunction enjoining Defendant and its officers, directors, agents servants, affiliates, employees, divisions, branches, subsidiaries, parents, and all others acting in active concert therewith from infringement, inducing the infringement of, or contributing to the infringement of the '864 Patent, or such other equitable relief the Court determines is warranted;
