Plaintiff Bally Gaming, Inc. d/b/a/ Bally Technologies ("Bally"), by and
 through its counsel, submits this Complaint against Defendant Adam Chartrand
 ("Chartrand") and Defendant TCPW Holdings LLC d/b/a TCPW Gaming ("TCPW")
 (collectively "Defendants") and alleges as follows:

THE PARTIES

Bally is a Nevada Corporation with its principal place of business at
 6601 S. Bermuda Rd., Las Vegas, Nevada 89119.

8 2. On information and belief, Defendant Chartrand is an individual and a
9 managing member of Defendant TCPW with a principal place of business at 72
10 Rocky Top Road, Mayflower, AR 72106.

Bally is unaware of the true names and capacities of Defendants sued
 hereunder as DOES 1 through 10 inclusive, and therefore sues these Defendants by
 such fictitious names. Bally is informed and believes and thereon alleges that each of
 the fictitiously named Defendants is responsible in some manner for the occurrences
 herein alleged, and that Bally's damages as herein alleged were proximately caused
 by their conduct. Bally will amend this Complaint to allege the true names and
 capacities of the Defendants DOES 1 through 10 when ascertained.

JURISDICTION AND VENUE

4. This Complaint arises under the laws of the United States, specifically
 the patent laws of the United States, 35 U.S.C. § 271, *et seq.*. This Court has subject
 matter jurisdiction pursuant to 28 U.S.C. §§ 1331 and 1338.

5. Personal jurisdiction and venue are proper in this District under 28
U.S.C. § 1391 and 1400(b). On information and belief, Defendants offered or
continue to offer table games, including without limitation, "Three Card War,"
("Infringing Games") that infringe Bally's intellectual property directed at residents
of California and this District, have conducted and/or solicited business in California
and this District, have provided infringing products or services to the residents of
California and this District, and/or have committed, contributed to, and/or induced

Glaser Weil

acts of infringement in California and this District. Defendants purposefully directed
 their activities toward California and this District when they willfully infringed
 Bally's intellectual property rights, specifically targeted consumers here, and a
 substantial part of the harm was felt in California and this District.

5

BALLY'S PROPRIETARY GAMES AND INTELLECTUAL PROPERTY

6 6. For decades, Bally has been a leading global supplier of innovative
7 products and technologies for the gaming industry. Among other assets, Bally owns a
8 substantial portfolio of proprietary casino table games, electronic table systems,
9 electronic gaming machines, and website games, which feature online versions of
10 Bally's table games as well as online play-for-fun games, and associated intellectual
11 property rights.

7. Bally created and/or acquired through purchase the rights in the casino
 games entitled Three Card Poker and its side bet, Pair Plus ("Three Card Poker
 Game").

8. Through its marketing and promotional efforts, Bally popularized the
Three Card Poker Game.

9. Bally has developed and continues to develop table games, including the
 Three Card Poker Game, for use in connection with casinos, online casinos, social
 gaming sites, and mobile applications.

20 10. Bally licenses the Three Card Poker Game to casino operators located in
21 California and nationwide.

11. In particular, Bally extensively licenses its intellectual property,
including the Three Card Poker Game, to Indian Gaming Casinos throughout
Southern California and this District.

12. California has the largest Indian gaming casino market in the country
with 60 operating Indian casinos that took in approximately \$7.0 billion in revenues
in 2013, nearly 25% of the total Indian casino revenues nationwide and the most of
any state. Twenty-one of those casinos are located in Southern California and thirteen

1 are located within this District.

13. Moreover, Southern California is the single largest source of visitors to
Las Vegas, accounting for 27% of the 41 million total visitors (or approximately 11
million visitors) in 2013, according to a survey by the Las Vegas Convention and
Visitors Authority. Thus, Southern California contains the single largest pool of
gamblers in the nation that would be interested in learning or practicing Bally Games
before trying their luck on Bally's tables in Las Vegas.

8 14. On information and belief, Defendants actually or constructively knew
9 that California's Indian Gaming Casino market is the largest in the country.

15. Bally earns a substantial portion of its business revenue through
 licensing Three Card Poker Game and associated intellectual property rights to third
 parties worldwide.

13 16. Bally is registered to do business in California through the California
14 Secretary of State.

15 17. Further, Bally's casino products and related services in California and
this District are subject to stringent regulation and approval procedures by the
California Gambling Control Commission ("CGCC"). Accordingly, Bally has several
licenses from the CGCC, including Manufacturer & Distributor of Gambling
Equipment – Vendor and Gaming Vendor Provider and Bally is included on the
CGCC's list of Gaming Resource Suppliers (Vendors) Found Suitable by the CGCC.

18. Bally is the exclusive owner of all rights to United States Patent No.
6,698,759, entitled "Player Banked Three Card Poker and Associated Games" (the
"759 Patent"), including but not limited to the right to sue for past and present
damages. The '759 Patent was duly issued by the United States Patent and Trademark
Office on March 2, 2004.

26

DEFENDANTS' WRONGFUL AND INFRINGING ACTIVITIES

27 19. On information and belief, Defendants develop casino table games.
28 Without authorization or permission from Bally, Defendants develop, design,

3 COMPLAINT manufacture, market, distribute, use, and/or sell the Infringing Games.

2 20. On information and belief, Defendants have been and are directly
3 infringing, inducing others to infringe, and/or contributorily infringing, literally,
4 under the doctrine of equivalents, and/or jointly, one or more claims of the '759
5 Patent in California and in this District, and elsewhere in the United States by, among
6 other things, making, using, selling, and/or offering to sell systems and methods that
7 implement, utilize or otherwise embody the patented invention, including but not
8 limited to the Infringing Games.

INFRINGEMENT OF UNITED STATES PATENT NO. 6,698,759

21. Bally realleges and incorporates by reference each and every allegation contained in the above paragraphs as if fully set forth herein.

22. On information and belief, Defendants have been and are directly 13 infringing, inducing others to infringe, and/or contributorily infringing, literally, 14 under the doctrine of equivalents, and/or jointly, one or more claims of the '759 15 Patent in the State of California, in this District, and elsewhere in the United States 16 by, among other things, making, using, selling, and/or offering to sell systems and 17 methods that implement, utilize or otherwise embody the patented invention, 18 including by way of example the Infringing Games. Therefore, Defendants are liable 19 for infringement of the '759 Patent. 20

21 23. Defendants have been and are inducing and/or contributing to the direct infringement of the '759 Patent by at least, but not limited to, customers and end-22 users of Defendants' products, including but not limited to the Infringing Games, 23 which have no substantial non-infringing uses, by at least the following affirmative 24 acts: (1) advertising in public and marketing the features, benefits, and availability of 25 the accused systems, products, and services; (2) promoting the adoption and 26 installation of the accused systems, products, and services; and (3) providing 27 instructions on how to use the accused systems, products, and services. 28

24. Defendants have knowledge of the '759 Patent and have had the specific
 knowledge that their Infringing Games described above infringe the '759 Patent, since
 at least August 2012.

25. Bally has been and is irreparably harmed by Defendants' infringement of
the '759 Patent, and monetary damages are insufficient to remedy the harm resulting
from the infringement. Bally has incurred and will continue to incur substantial
damages, including monetary damages, unless Defendants are enjoined from further
acts of infringement.
