

**IN THE UNITED STATES DISTRICT COURT  
FOR THE EASTERN DISTRICT OF TEXAS  
MARSHALL DIVISION**

NONEND INVENTIONS, N.V.,

Plaintiff,

v.

SONIM TECHNOLOGIES, INC.,

Defendant.

CIVIL ACTION NO. 2:15-cv-620

COMPLAINT FOR PATENT  
INFRINGEMENT

**JURY TRIAL DEMANDED**

Plaintiff Nonend Inventions, N.V., (“Nonend”) files this complaint against the above-named defendant alleging, based on its own knowledge as to itself and its own actions, and based on information and belief as to all other matters, as follows:

**PARTIES**

1. Nonend is a limited liability company formed under the laws of the Netherlands with a principal place of business in Bilthoven, the Netherlands.

2. Defendant Sonim Technologies, Inc. (“Sonim”) is a corporation organized under the laws of Delaware with a principal place of business in San Mateo, CA. It can be served through its resident agent for service of process: The Corporation Trust Company, Corporation Trust Center, 1209 Orange Street, Wilmington, DE 19801 USA.

**JURISDICTION AND VENUE**

3. This is an action for infringement of a United States patent arising under 35 U.S.C. §§ 271, 281, and 284–85, among others. This Court has subject matter jurisdiction of the action under 28 U.S.C. § 1331 and § 1338(a).

4. Venue is proper in this district under 28 U.S.C. §§ 1391 and 1400(b). Upon information and belief, Sonim has transacted business in this district and has committed acts of patent infringement in this district.

5. Sonim is subject to this Court’s specific and general personal jurisdiction under due process and/or the Texas Long Arm Statute due at least to defendant’s substantial business in this forum, including: (i) at least a portion of the infringements alleged herein; and (ii) regularly doing or soliciting business, engaging in other persistent courses of conduct, and/or deriving substantial revenue from goods and services provided to individuals in Texas and in this district.

**COUNT I: INFRINGEMENT OF U.S. PATENT NO. 8,090,862**

6. On January 3, 2012, United States Patent No. 8,090,862 (“the 862 patent”) was duly and legally issued by the United States Patent and Trademark Office for an invention titled “Initiating An Alternative Channel For Receiving Streaming Content.”

7. Nonend is the owner of the 862 patent with all substantive rights in and to that patent, including the sole and exclusive right to prosecute this action

and enforce the 862 patent against infringers, and to collect damages for all relevant times.

8. Sonim made, had made, used, imported, provided, supplied, distributed, sold, and/or offered for sale products having the ability to receiving streaming content using both cellular and Wi-Fi functionality (including at least the XP7, XP6, Enduro, and its line of smartphone products) (the “accused products”). By doing so, Sonim has directly infringed (literally and/or under the Doctrine of Equivalents) the 862 Patent. Sonim’s infringement in this regard is ongoing.

9. Sonim has also indirectly infringed the 862 Patent by inducing others to directly infringe the 862 Patent. Sonim has induced the end-users to directly infringe (literally and/or under the Doctrine of Equivalents) the 862 Patent by using the accused products. Sonim took active steps, directly and/or through contractual relationships with others, with the specific intent to cause them to use the accused products in a manner that infringes the 862 patent. Such steps by Sonim included, among other things, advising or directing customers and end-users to use the accused products in an infringing manner; advertising and promoting the use of the accused products in an infringing manner; and/or distributing instructions that guide users to use the accused products in an infringing manner. This induces end-users to use the accused products in a manner that infringes the 862 Patent. Sonim’s inducement is ongoing.

10. Sonim has also indirectly infringed by contributing to the infringement of the 862 Patent. Sonim has contributed to the direct infringement of the 862 Patent by the end-user of the accused products. The accused products have special features that are specially designed to be used in an infringing way and that have no substantial uses other than ones that infringe the 862 Patent. The special features include the ability to switch between Wi-Fi and cellular data connections while receiving streamed content in a manner that infringes the 862 Patent. The special features constitute a material part of the invention of one or more of the claims of the 862 patent and are not staple articles of commerce suitable for substantial non-infringing use. Sonim's contributory infringement is ongoing.

11. Sonim has knowledge of the 862 Patent at least as of the date when it was notified of the filing of this action. Furthermore, on information and belief, Sonim has a policy or practice of not reviewing the patents of others (including instructing its employees to not review the patents of others), and has thus remained willfully ignorant of Nonend's patent rights. Sonim's direct and indirect infringement of the 862 Patent has thus been with knowledge (or willful ignorance) of the 862 Patent, making Sonim liable both for indirect infringement and willful infringement.

12. Nonend has been damaged as a result of the infringing conduct by defendant alleged above. Thus, Sonim is liable to Nonend in an amount that adequately compensates it for such infringements, which, by law, cannot be less than a reasonable royalty, together with interest and costs as fixed by this Court under 35 U.S.C. § 284.

13. Nonend and/or its predecessors-in-interest have satisfied all statutory obligations required to collect pre-filing damages for the full period allowed by law.

**JURY DEMAND**

Nonend hereby requests a trial by jury on all issues so triable by right.

**PRAYER FOR RELIEF**

Nonend requests that the Court find in its favor and against Sonim and that the Court grant Nonend the following relief:

- a. Judgment that one or more claims of the 862 patent have been infringed, either literally and/or under the Doctrine of Equivalents, by Sonim;
- b. Judgment that Sonim account for and pay to Nonend all damages to and costs incurred by Nonend because of Sonim's infringing activities and other conduct complained of herein;

c. That Sonim's infringement be found to be willful, and that the Court award treble damages for the period of such willful infringement under 35 U.S.C. § 284;

d. A permanent injunction enjoining Sonim and its respective officers, directors, agents, servants, affiliates, employees, divisions, branches, subsidiaries, parents, and all others acting in active concert therewith from infringement of the 862 Patent;

e. Pre-judgment and post-judgment interest on the damages caused by Sonim's infringing activities and other conduct complained of herein;

f. A declaration by the Court that this an exceptional case and an award to Nonend its reasonable attorneys' fees and costs in accordance with 35 U.S.C. § 285; and

g. Other and further relief as the Court may deem just and proper under the circumstances.

Dated: May 1, 2015

Respectfully submitted,
