Civil Action No. 2:15-cv-01618

JURY TRIAL DEMANDED

ORIGINAL COMPLAINT

Sockeye Licensing TX LLC (“Sockeye” or “Plaintiff”), by and through its attorneys, for its Complaint against Actiontec Electronics, Inc. (“Actiontec” or “Defendant”), and demanding trial by jury, hereby alleges as follows:

I. NATURE OF ACTION

1. This is a patent infringement action to end Defendant’s unauthorized and infringing manufacture, use, sale, offering for sale, and/or importation of methods and products incorporating Plaintiff’s patented inventions, U.S. Patent Nos. 8,135,342 (the “’342 Patent”) and 8,879,987 (the “’987 Patent”). True and correct copies of the ’342 and ’987 Patents are attached hereto as Exhibits 1 and 2.

II. THE PARTIES

2. Plaintiff Sockeye Licensing TX LLC is a limited liability company organized and existing under the laws of the State of Texas.

3. Upon information and belief, Actiontec Electronics, Inc. is a corporation organized and existing under the laws of the State of California, with a place of business located

at 760 N Mary Ave., Sunnyvale, CA 94085. Defendant can be served with process by serving its registered agent for service of process in the State of Texas, CT Corporation System, 1999 Bryan St., Suite 900, Dallas, TX 75201-3136 USA.

III. JURISDICTION AND VENUE

4. This is an action for patent infringement which arises under the Patent Laws of the United States, in particular, 35 U.S.C. §§271, 281, 283, 284, and 285. This Court has jurisdiction over the subject matter of this action under 28 U.S.C. §§1331 and 1338(a).

5. This Court has personal jurisdiction over Defendant, and venue is proper in this Court pursuant to 28 U.S.C. §§1391(b), (c), and 1400.

IV. THE PATENTS

6. The named inventor of the '342 and '987 Patents, Mr. Michael D. Harold, conceived of the inventions disclosed therein and has worked to commercialize them for several years. Among his goals (and later those of his company, Zamboola) was to provide hardware and software solutions for the mobile market to allow the interfacing of user information between devices in an enhanced way. He accordingly prototyped hardware solutions in the fall of 2009, initially developing on an Openmoko Neo, a Linux-based touch screen smartphone.

7. In early 2010, Zamboola was formed to commercialize the inventions. Living in the Shreveport-Bossier area, Mr. Harold filed the Articles of Incorporation for Zamboola as a Louisiana LLC on February, 2010, and worked to develop branding and IP collateral necessary to raise venture capital. He and his partner brought on personnel to advance Zamboola's objectives.

8. Zamboola believes that in terms of security, identity, mobility and performance, the smartphone remains a strong platform for current and future personal and enterprise

computing. Given the continued advances in mobile hardware and wireless broadband, an opportunity has arisen for the commercial implementation of container-based virtualization on smartphones, allowing distributed services and applications to run in concert with cloud computing services as an on-demand distributed computing environment using any combination of operating systems.

9. The '342 and '987 Patents disclose a system, method and apparatus which permits the use of a wireless cell phone or other communications device as a connection, communications and control device able to connect a full-sized desktop monitor or other digital display device, keyboard, mouse, speakers, printer and other external devices to a wireless cell phone device using any combination of wireline or wireless connections from the desktop devices to the wireless cell phone device. The wireless cell phone device is used to create an Internet or other network connection capable of accessing any browser-based web site or browser-based software application commonly accessible to a standard desktop computer having an Internet connection.

10. In accordance with the '342 and '987 Patents, once the connections between the desktop monitor, key board, mouse, speakers, printer and other components are established with the wireless cell phone device and the Internet connection is established with the wireless cell phone device, the user may access any browser-based web site or software application using the desktop monitor, keyboard, mouse, speakers, printer and other components. Access to Internet software, services and media includes all forms of browser-based desktop software, as well as digital movies, music and streaming video. '342 Patent, Abstract.

11. Sockeye has obtained all substantial rights and interest to the '342 and '987 Patents, including all rights to recover for all past and future infringements thereof.

V. DEFENDANT'S ACTS

12. Defendant manufactures, provides, sells, offers to sell, and/or distributes infringing systems and methods. Defendant's infringing products, include, but are not limited to, MyWirelessTV. As set forth on Defendant's website:

With MyWirelessTV, you're free to put your HD television in any room in the house, regardless of whether or not it's wired for HDTV. This easy-to-use Wireless HD Video kit wirelessly transmits live HDTV throughout the home, so you can watch TV wherever you want. Go ahead, hang a flat panel in the bedroom and forget about having to dangle an HDMI cable. Put your HDTV in the second floor family room. Even move a big screen TV out to the patio for the big game. With Actiontec's wireless simplicity, you're limited only by your imagination.

...

With MyWirelessTV, you'll be up and running in minutes – and rest assured, everything you need to wirelessly transmit HDTV is included. Each MyWirelessTV kit comes with a transmitter and receiver. Simply connect the transmitter to any settop box, gaming console, DVD player, or other device and connect the receiver to any HD display in the home. And that's it. You can instantly distribute high fidelity 1080p60 video up to 150 feet away. There isn't an easier or more affordable solution for distributing HD content.

...

MyWirelessTV gives you HDTV without the wires. Now it's possible to connect your television to your set top box without having to use an obtrusive cable. You get the flexibility to network your home exactly how you want to, without having to invest in an expensive wiring project, or string wires throughout your hallways. And you can add a new television to any room, even temporarily move an existing HDTV, without worrying about where the cable hook-ups are.

https://www.actiontec.com/products/datasheets/AEI%20MyWirelessTV_datasheet.pdf.

13. For example, Defendant commercializes the MyWirelessTV. *See id.* Defendant employs infringing technology in its accused instrumentalities, including, but not limited to, MyWirelessTV.

14. Defendant has had knowledge of the '342 and '987 Patents at least being served with this Complaint. With knowledge of the '342 and '987 Patents, Defendant intends infringing acts in accordance with the foregoing technology. It provides specifications and instructions for the installation and infringing operation of such systems to its customers, who directly infringe.

15. Furthermore, with knowledge of the '342 and '987 Patents, Defendant provides related services, specifications, and instructions for the installation and infringing operation of such systems to the customers of its products, who directly infringe through the operation of those products.

16. With knowledge of the '342 and '987 Patents, Defendant has purposefully and voluntarily placed infringing products in the stream of commerce with the expectation that its products will be purchased by customers in the Eastern District of Texas, and advertised those products.

17. Through its actions, Defendant has infringed the '342 and '987 Patents, and Defendant has and actively induced others to infringe the '342 and '987 Patents throughout the United States, including within the Eastern District of Texas.

18. Sockeye has been and will continue to suffer damages as a result of Defendant's infringing acts unless and until enjoined.

COUNT ONE

PATENT INFRINGEMENT—U.S. PATENT NO. 8,135,342

19. Plaintiff Sockeye realleges and incorporates herein paragraphs 1–18.
20. Defendant has infringed the '342 Patent.
21. Defendant has indirectly infringed the '342 Patent by inducing the infringement of the '342 Patent.
22. Defendant's aforementioned acts have caused damage to Sockeye and will continue to do so unless and until enjoined.

COUNT TWO

PATENT INFRINGEMENT—U.S. PATENT NO. 8,879,987

23. Plaintiff Sockeye realleges and incorporates herein paragraphs 1–18.
24. Defendant has infringed the '987 Patent.
25. Defendant has indirectly infringed the '987 Patent by inducing the infringement of the '987 Patent.
26. Defendant's aforementioned acts have caused damage to Sockeye and will continue to do so unless and until enjoined.

VI. JURY DEMAND

Plaintiff Sockeye hereby demands a jury on all issues so triable.

VII. REQUEST FOR RELIEF

WHEREFORE, Plaintiff Sockeye respectfully requests that the Court:

- A. Enter judgment that Defendant infringes one or more claims of the '342 Patent literally and/or under the doctrine of equivalents;
- B. Enter judgment that Defendant infringes one or more claims of the '987 Patent literally and/or under the doctrine of equivalents;
- C. Award Plaintiff Sockeye past and future damages together with

prejudgment and post-judgment interest to compensate for the infringement by Defendant of the '342 Patent and/or the '987 Patent in accordance with 35 U.S.C. §284; and

- D. Award Plaintiff Sockeye such further and additional relief as is deemed appropriate by this Court.

Respectfully submitted,

Dated: October 6, 2015
