THE ‘194 PATENT

5. On December 19, 2000, United States Patent No. 6,162,194 (“the ‘194 Patent”) was duly and legally issued for “Surgical Irrigation Apparatus and Method for Use.” A true and correct copy of the ‘194 Patent is attached hereto as Exhibit A and made a part hereof.

6. By way of assignment, Plaintiff is the owner of all right, title, and interest in and to the ‘194 Patent, including all rights to enforce and prosecute actions for infringement and collect damages for all relevant times.

7. As it pertains to this lawsuit, the ‘194 Patent, very generally speaking, relates to a surgical irrigation apparatus used for delivering irrigation fluid to a surgical site.

FIRST CLAIM FOR RELIEF
(Patent Infringement)

8. Plaintiff repeats and realleges every allegation set forth above.

9. Plaintiff is the owner of the ‘194 Patent with the exclusive right to enforce the ‘194 Patent against infringers, and collect damages for all relevant times, including the right to prosecute this action.

10. Upon information and belief, and without authority, consent, right, or license, and in direct infringement of the ‘194 Patent, Defendant manufactures, makes, has made, uses, practices, imports, provides, supplies, distributes, sells, and/or offers for sale products or systems that infringe one or more claims in the ‘194 Patent. Such conduct constitutes, at a minimum, patent infringement under 35 U.S.C. § 271(a).

11. More specifically, Defendants, at a minimum, have directly infringed and continue to directly infringe at least Claim 18 of the ‘194 Patent because it manufactures, makes, has made, uses, practices, imports, provides, supplies, distributes, sells, and/or offers for sale surgical irrigation apparatus, including at

1 least the Aquilex Fluid Control system with pump, inflow and outflow tubing sets,
2 and handle.

3 12. Defendant has had actual notice of the '194 Patent at least as early as
4 the receipt of service of this Complaint.

5 13. Plaintiff has been damaged as a result of Defendant's infringing
6 conduct. Defendant is, thus, liable to Plaintiff in an amount that adequately
7 compensates Plaintiff for their infringement, which, by law, cannot be less than a
8 reasonable royalty, together with interest and costs as fixed by this Court under 35
9 U.S.C. § 284.

10 14. Upon information and belief, Defendant will continue its infringement
11 of the '194 Patent unless enjoined by the Court. Defendant's infringing conduct
12 has caused Plaintiff irreparable harm and will continue to cause such harm without
13 the issuance of an injunction.

14 15. Plaintiff reserves the right to assert additional claims of the '194
15 Patent.

16 **JURY DEMAND**

17 16. Plaintiff hereby requests a trial by jury pursuant to Rule 38 of the
18 Federal Rules of Civil Procedure.

19 **PRAYER FOR RELIEF**

20 Plaintiff requests that the Court find in its favor and against Defendant, and
21 that the Court grant Plaintiff the following relief:

- 22 a. Judgment that one or more claims of the '194 Patent have been
23 infringed, either literally and/or under the doctrine of equivalents, by
24 Defendant;
- 25 b. Judgment that Defendant account for and pay to Plaintiff all damages
26 to and costs incurred by Plaintiff because of its infringing activities

those persons in active concert and participation with any of them, be permanently enjoined from infringement of the '194 Patent. In the alternative, if the Court finds that an injunction is not warranted, Plaintiff requests an award of post judgment royalty to compensate for future infringement;

- d. That Defendant's infringement be found to be willful from the time Defendants became aware of the infringing nature of its services, and that the Court award treble damages for the period of such willful infringement pursuant to 35 U.S.C. § 284.
- e. That Plaintiff be granted pre-judgment and post-judgment interest on the damages caused to it by reason of Defendant's infringing activities and other conduct complained of herein;
