THE PATENT-IN-SUIT

- 8. On July 15, 2008, United States Patent No. 7,400,970 ("the '970 Patent"), entitled, "System and method for an advance notification system for monitoring and reporting proximity of a vehicle" was duly and legally issued by the United States Patent and Trademark Office. A true and correct copy of the '970 Patent is attached as Exhibit A to this complaint.
- 9. Plaintiff is the assignee and owner of the right, title and interest in and to the '970 Patent including the right to assert all causes of action arising under said patents and the right to any remedies for infringement of them.

COUNT I – INFRINGEMENT OF U.S. PATENT NO. 7,400,970

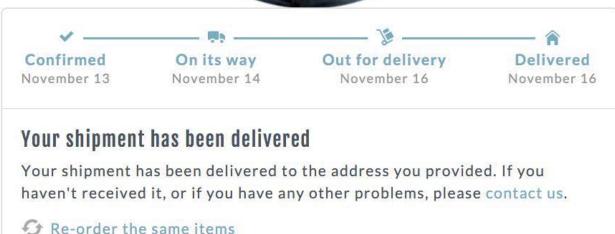

- 10. Plaintiff repeats and realleges the allegations of paragraphs 1 through 9 as if fully set forth herein.
- 11. Without license or authorization and in violation of 35 U.S.C. § 271(a), Defendant has infringed and continues to infringe the '970 Patent by making, using, offering for sale and/or selling within this district and elsewhere in the United States a computer based notification system that enables communication with a user that is designed to receive delivery of a package and provides a means for requesting entry by user of a package identification number.
- 12. Specifically, Defendant's ship notice/manifest, sometimes referred to as the Advanced Shipment Notice (ASN), or the 856 EDI document, is generated when a user at a computer system elects to purchase an item via Defendant's website and enters an email address as part of the purchase process. Defendant explains by purchasing they will be provided "order confirmation" and more importantly "shipment confirmation" by selecting to purchase from their website. When a user selects a method of shipping when purchasing an item from Defendant's website, a user necessarily is required to elect a shipping method that allows tracking. Once this election is made, and as the order is processed, shipment confirmations are sent based on a tracking input when the package starts its route (likely pick-up, placed on conveyer belt and/or scanned out to

loading dock/out of warehouse, etc.) to its destination (delivery address). This process is evidenced on Defendant's order/shipment confirmation notification:

to proof at trial, which, by law, cannot be less than a reasonable royalty, together with interest and costs as fixed by this Court under 35 U.S.C. § 284.

14. Prior to the filing of this Complaint, Plaintiff, by letter dated November 25, 2015, informed Defendant of Defendant's infringement of the '970 Patent.

15. Thus, Defendant has been on notice of the '970 Patent since at least the

date it received Plaintiff's letter dated November 25, 2015.

Plaintiff as a result of Defendant's infringement of the '970 Patent in an amount subject

Plaintiff is entitled to recover from Defendant the damages sustained by

- 16. Upon information and belief, Defendant has not altered its infringing conduct after receiving Plaintiff's letter dated November 25, 2015.
- 17. Upon information and belief, Defendant's continued infringement despite its knowledge of the '970 Patent and the accusations of infringement has been objectively reckless and willful.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff requests that this Court enter judgment against Defendant as follows:

- A. An adjudication that Defendant has infringed the '970 patent;
- B. An award of damages to be paid by Defendant adequate to compensate Plaintiff for Defendant's past infringement of the '970 patents and any continuing or future infringement through the date such judgment is entered, including interest, costs, expenses and an accounting of all infringing acts including, but not limited to, those acts not presented at trial;
- C. A declaration that this case is exceptional under 35 U.S.C. § 285, and an award of Plaintiff's reasonable attorneys' fees;
