COMPLAINT

Plaintiff, Hawk Technology Systems, LLC (“Hawk”), hereby sues The Dress Barn, Inc., (“Dress Barn”) and alleges:

NATURE OF THE ACTION

1. Dress Barn infringed Claim 12 (“Claim 12”) of United States Patent No. RE43,462 (‘462 Patent), or one or more of Claim 12’s dependent claims. The ‘462 Patent is a reissue of United States Patent No. 5,625,410 (the ‘410 Patent). The independent claims in the reissued ‘462 Patent are substantially identical to the corresponding claims in the original ‘410 Patent.

2. The abstract for the ‘462 Patent states:

A PC-based system for monitoring and storing representative images from video cameras which may be utilized for security or other monitoring applications. Camera inputs from digital or analog sources are individually and independently digitized and displayed at a first set of image sizes, sampling rates, and frame rates, and may be stored in digital form on various recording media at a second set of image sizes, sampling rates, and frame rates, and these two sets of sizes and rates

may or may not be identical. Provisions are included for adding detection or alarm systems which will automatically alter image size, sampling rate and/or frame rate of an individual input source, or activate other physical responses. In addition to security system monitoring, further applications of the invention are disclosed for process monitoring in manufacturing environments and also for applications in videoconferencing.
