10. Venue is proper in this judicial district under 28 U.S.C. §§ 1391(b) and (c), and § 1400(b).

FACTS AS TO ALL COUNTS

11. Shire Development LLC owns New Drug Application (“NDA”) No. 204734 for lanthanum carbonate oral powder, which was approved on September 24, 2014. Shire markets this oral powder under the name Fosrenol[®].

12. Fosrenol is indicated to reduce serum phosphate in patients with end stage renal disease.

13. The ’976 patent, entitled “Pharmaceutical Composition Containing Selected Lanthanum Carbonate Hydrates,” was duly and legally issued by the United States Patent and Trademark Office (“USPTO”) on October 19, 1999. Shire International Licensing B.V. owns all rights, title, and interest in the ’976 patent.

14. The ’465 patent, entitled “Pharmaceutical Formulation Comprising Lanthanum Compounds,” was duly and legally issued by the USPTO on December 16, 2008. Shire Canada Inc. owns all rights, title, and interest in the ’465 patent.

15. The ’327 patent, entitled “Capsule and Powder Formulations Containing Lanthanum Compounds,” was duly and legally issued by the USPTO on March 17, 2015. Shire LLC owns all rights, title, and interest in the ’327 patent.

16. The ’397 patent, entitled “Capsule and Powder Formulations Containing Lanthanum Compounds,” was duly and legally issued by the USPTO on May 5, 2015. Shire LLC owns all rights, title, and interest in the ’397 patent.

17. Pursuant to 21 U.S.C. § 355(b)(1), the '976, '465, '327, and '397 patents are listed in the United States Food and Drug Administration's ("FDA") publication titled "Approved Drug Products with Therapeutic Equivalence Evaluations" (commonly known as the "*Orange Book*") as covering Fosrenol oral powder.

18. Alkem prepared, submitted, and filed an Abbreviated New Drug Application ("ANDA") under § 505(j) of the Federal Food, Drug, and Cosmetic Act ("FDCA") (codified at 21 U.S.C. § 355(j)), seeking approval from the FDA to engage in the commercial manufacture, use, sale, offer for sale, and/or importation of Lanthanum Carbonate Oral Powder ("ANDA No. 209163"). Alkem included a "paragraph IV" certification seeking approval to engage in the commercial manufacture, use, sale, offer for sale, and/or importation of Lanthanum Carbonate Oral Powder, 750 mg and 1000 mg (EQ 750 mg and EQ 1000 mg lanthanum base) ("Alkem's ANDA Products") before the expiration of the '976, '465, '327, and '397 patents. And upon information and belief, upon approval of ANDA No. 209163, Alkem will be involved, directly and/or indirectly, in the manufacture, use, sale, offer for sale, and/or importation of Alkem's ANDA Products, including, but not limited to, conducting such activities in Delaware.

19. 21 U.S.C. § 355(j)(2)(B)(iv)(II) requires that a letter notifying a patent holder of the filing of an ANDA containing a paragraph IV certification "include a detailed statement of the factual and legal basis of the opinion of the applicant that the patent is invalid or will not be infringed." Likewise, 21 C.F.R. § 314.95(c)(6) requires that such a letter include "[a] detailed statement of the factual and legal basis of the applicant's opinion that the patent is not valid, unenforceable, or will not be infringed." The detailed statement must include "(i) [f]or each claim of a patent alleged not to be infringed, a full and detailed explanation of why the claim is not infringed" and "(ii) [f]or each claim of a patent alleged to be invalid or unenforceable, a full

and detailed explanation of the grounds supporting the allegation.” 21 C.F.R. § 314.95(c)(6)(i)-(ii).

20. Shire received a letter dated July 11, 2016 that was purportedly sent pursuant to § 505(j)(2)(B)(ii) of the FDCA, 21 U.S.C. § 505(j)(2)(B)(ii), regarding Alkem’s ANDA Products and the ’976, ’465, ’327, and ’397 patents (the “July 11 Notice Letter”).

21. The July 11 Notice Letter included an Offer of Confidential Access (“OCA”) purportedly pursuant to 21 U.S.C. § 355(j)(5)(C). Plaintiffs objected to certain provisions of Alkem’s OCA as unreasonable and in violation of 21 U.S.C. § 355(j)(5)(C)(i)(III). By way of example only, Alkem’s OCA contains a patent-prosecution bar, even though no facts have been provided to show that there is good cause to impose such a bar.

22. Plaintiffs repeat and re-allege each of the foregoing Paragraphs as if fully set forth herein.

23. Upon information and belief, Alkem’s submission of ANDA No. 209163 to the FDA is for the purpose of obtaining FDA approval to engage in the commercial manufacture, use, or sale of Alkem’s ANDA Products—products (1) that are claimed in the ’976 patent and (2) whose use is claimed in the ’976 patent—before the expiration of the ’976 patent.

The submission and filing of ANDA No. 209163 with a paragraph IV certification to the '976 patent for the purpose of obtaining approval to engage in the commercial manufacture, use, or sale of Alkem's ANDA Products before the expiration of the '976 patent is an act of infringement by Alkem—literally and/or under the doctrine of equivalents—of one or more claims of the '976 patent under 35 U.S.C. § 271(e)(2).

27. Upon information and belief, the sale or offer for sale of Alkem's ANDA Products by Alkem would induce and/or contribute to third-party infringement of one or more claims of the '976 patent under 35 U.S.C. § 271.

As of the date of the July 11 Notice Letter, Alkem was aware of the existence of the '976 patent—as well as the statutory provisions and regulations set forth in 21 U.S.C. § 355 and 21 C.F.R. § 314.95—and acted without a reasonable basis for believing that it would not infringe one or more claims of the '976 patent, thus rendering this case “exceptional” under 35 U.S.C. § 285.

34. Upon information and belief, the sale or offer for sale of Alkem's ANDA Products by Alkem would induce and/or contribute to third-party infringement of one or more claims of the '465 patent under 35 U.S.C. § 271.
