THE PATENTS-IN-SUIT

1
2 8. On July 2, 2002, United States Patent No. 6,415,207 (“the ’207 Patent”),
3 entitled, “System and method for automatically providing vehicle status information”
4 was duly and legally issued by the United States Patent and Trademark Office. A true
5 and correct copy of the ’207 Patent is attached as Exhibit A to this complaint.

6 9. On July 13, 2004, United States Patent No. 6,763,299 (“the ’299 Patent”),
7 entitled, “Notification systems and methods with notifications based upon prior stop
8 locations” was duly and legally issued by the United States Patent and Trademark Office.
9 D true and correct copy of the ’299 Patent is attached as Exhibit B to this complaint.

10 10. Plaintiff is the assignee and owner of the right, title and interest in and to the
11 ’207 Patent, and ’299 Patent including the right to assert all causes of action arising
12 under said patents and the right to any remedies for infringement of them.

DEFENDANT’S INFRINGEMENTS

13
14 11. Without license or authorization and in violation of 35 U.S.C. § 271(a),
15 Defendant has infringed and continues to infringe the ’299 and ’207 Patents by making,
16 using, offering for sale and/or selling within this district and elsewhere in the United
17 States a computer based notification system that enables communication with a user that
18 is designed to receive delivery of a package and provides a means for requesting entry by
19 user of a package identification number.

20 12. By way of example, Defendant’s ship notice/manifest, sometimes referred to
21 as the Advanced Shipment Notice (ASN), or the 856 EDI document, is generated when a
22 user at a computer system elects to purchase an item via Defendant’s website and enters
23 an email address as part of the purchase process. Defendant explains by purchasing they
24 will be provided “order confirmation” and more importantly “shipment confirmation” by
25 selecting to purchase from their website. When a user selects a method of shipping when
26 purchasing an item from Defendant’s website, a user necessarily is required to elect a
27 shipping method that allows tracking. Once this election is made, and as the order is
28 processed, shipment confirmations are sent based on a tracking input when the package

1 starts its route (likely pick-up, placed on conveyer belt and/or scanned out to loading
 2 dock/out of warehouse, etc.) to its destination (delivery address). This process is
 3 evidenced on Defendant’s web page:

5 **Your order number is: 1017097_vyoz**

6 **We are happy to inform you that your order with AdoramaPix.com has been received**

COUNT I – INFRINGEMENT OF U.S. PATENT NO. 6,415,207

13. Plaintiff repeats and realleges the allegations of paragraphs 1 through 12 as if fully set forth herein.

14. Defendant has in the past and still is directly infringing, or directly infringing under the doctrine of equivalents, one or more claims of the '207 Patent by making, using, offering for sale and/or selling within this district and elsewhere in the United States a computer based notification system that enables communication with a user that is designed to receive delivery of a package and provides a means for requesting entry by user of a package identification number.

15. The use of a computer based notification system whereby a customer requests and receives an email notification tracking her shipment is material to practicing the methods of the '207 Patent.

16. Defendant has knowledge of the fact that its products and services as administered infringe one or more claims of the '207 Patent, and as direct, firsthand knowledge of the '207 Patent as a result of Plaintiff informing Defendant of the '207 Patent and Defendant's infringement thereof by way of a letter dated January 14, 2016.

17. Thus, Defendant has been on notice of the '207 Patent since at least the date it received Plaintiff's letter dated January 14, 2016.

18. Upon information and belief, Defendant has not altered its infringing conduct after receiving Plaintiff's letter dated January 14, 2016.

19. Upon information and belief, Defendant's continued infringement despite its knowledge of the '207 Patent and the accusations of infringement has been objectively reckless and willful.

20. Plaintiff is therefore entitled to recover from Defendant the damages sustained by Plaintiff as a result of Defendant's infringement of the '207 Patent in an amount subject to proof at trial, which, by law, cannot be less than a reasonable royalty, together with interest and costs as fixed by this Court under 35 U.S.C. § 284.

10 23. The use of a computer based notification system whereby a customer
11 requests and receives an email notification tracking her shipment is material to practicing
12 the methods of the '299 Patent.

13 24. Defendant has knowledge of the fact that its products and services as
14 administered infringe one or more claims of the '299 Patent, and as direct, firsthand
15 knowledge of the '299 Patent as a result of Plaintiff informing Defendant of the '299
16 Patent and Defendant's infringement thereof by way of a letter dated January 14, 2016.

17 25. Thus, Defendant has been on notice of the '299 Patent since at least the date
18 it received Plaintiff's letter dated January 14, 2016.

19 26. Upon information and belief, Defendant has not altered its infringing
20 conduct after receiving Plaintiff's letter dated January 14, 2016.

21 27. Upon information and belief, Defendant's continued infringement despite its
22 knowledge of the '299 Patent and the accusations of infringement has been objectively
23 reckless and willful.

24 28. Plaintiff is therefore entitled to recover from Defendant the damages
25 sustained by Plaintiff as a result of Defendant's infringement of the '299 Patent in an
26 amount subject to proof at trial, which, by law, cannot be less than a reasonable royalty,
27 together with interest and costs as fixed by this Court under 35 U.S.C. § 284.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff requests that this Court enter judgment against Defendant as follows:

A. An adjudication that Defendant has infringed the '207 and '299 Patents;

B. An award of damages to be paid by Defendant adequate to compensate Plaintiff for Defendant's past infringement of the, '207 and '299 Patents and any continuing or future infringement through the date such judgment is entered, including interest, costs, expenses and an accounting of all infringing acts including, but not limited to, those acts not presented at trial;

C. A declaration that this case is exceptional under 35 U.S.C. § 285, and an award of Plaintiff's reasonable attorneys' fees;
