JURISDICTION AND VENUE

6. This action arises under the patent laws of the United States, Title 35 of the United States Code. This Court has subject matter jurisdiction pursuant to 28 U.S.C. §§ 1331 and 1338(a).

7. Venue is proper in this district under 28 U.S.C. §§ 1391(c) and 1400(b). On information and belief, Defendant has transacted business in this district, and has committed and/or induced acts of patent infringement in this district.

COUNT I
INFRINGEMENT OF U.S. PATENT NO. 6,825,780

9. Plaintiff is the owner of United States Patent No. 6,825,780 ("the '780 patent") entitled "Multiple codec-imager system and method." The '780 Patent issued on November 30, 2004. A true and correct copy of the '780 Patent is attached as Exhibit A.

10. Defendants own, use, operate, advertise, control, sell, and otherwise provide products and/or services that infringe the '780 patent. The '780 patent provides, among other things, "[a] system and method are provided for compressing data utilizing multiple encoders on a single integrated circuit. Initially, data is received in a single integrated circuit. The data is then encoded utilizing a plurality of encoders incorporated on the single integrated circuit. Another single module system and method are provided for compressing data. In use, photons are received utilizing a single module. Thereafter, compressed data representative of the photons is outputted utilizing the single module."

11. Defendants, directly and/or through intermediaries, made, have made, used, imported, provided, supplied, distributed, sold, and/or offered for sale products and/or services that infringed one or more claims of the '780 patent, including at least Claim 9, in this district and elsewhere in the United States. By making, using, importing, offering for sale, and/or selling such products and services, and all like products and services, Defendants have injured Plaintiff and is thus liable for infringement of the '780 patent pursuant to 35 U.S.C. § 271.

12. Claim 9 reads, "[a] single integrated circuit for compressing data, comprising: a first encoder embodied on the single integrated circuit including circuitry for electronically

encoding a first Set of data; and a second encoder embodied on the same single integrated circuit as the first encoder for electronically encoding a second set of data; wherein the data is compressed utilizing the encoders.”

13. Based on present information and belief, by way of an illustrative example, the Polaroid S7 7-inch Dual-Core Tablet utilizes a System-on-a-chip (“SOC”), which is an integrated circuit.

14. Based on present information and belief, the Polaroid S7 7-inch Dual-Core Tablet’s SOC has multiple encoders capable of encoding at least video data.

15. Based on present information and belief, the Polaroid S7 7-inch Dual-Core Tablet’s SOC has multiple encoders capable of encoding at least image data.

16. Based on information and belief, the Polaroid S7 7-inch Dual-Core Tablet’s SOC employs the video HW codecs for video data and JPEG HW codec for image data. The data is necessarily compressed through the respective encoders.

17. Based on present information and belief, Defendant directly and/or through intermediaries, made, has made, used, imported, provided, supplied, distributed, sold, and/or offered for sale other infringing devices, including but not limited to, tablets and other mobile devices utilizing the “Polaroid” brand name. In the alternative, because the manner of use by Defendant differs in no substantial way from the language of the claims, if Defendant is not found to literally infringe, Defendant infringes under the doctrine of equivalents.

18. Defendant’s aforesaid activities have been without authority and/or license from Plaintiff.

19. Plaintiff is entitled to recover from Defendant the damages sustained by Plaintiff as a result of the Defendant’s wrongful acts in an amount subject to proof at trial, which, by law, cannot be less than a reasonable royalty, together with interest and costs as fixed by this Court under 35 U.S.C. § 284.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff respectfully requests that this Court enter:

1. A judgment in favor of Plaintiff that Defendant has infringed the ‘780 Patent;
2. A judgment and order requiring Defendant to pay Plaintiff its damages, costs, expenses, and prejudgment and post-judgment interest for Defendant’s infringement of the ‘780 Patent as provided under 35 U.S.C. § 284;

3. An award to Plaintiff for enhanced damages resulting from the knowing, deliberate, and willful nature of Defendant's prohibited conduct with notice being made at least as early as the date of the filing of this Complaint, as provided under 35 U.S.C. § 284;

4. A judgment and order finding that this is an exceptional case within the meaning of 35 U.S.C. § 285 and awarding to Plaintiff its reasonable attorneys' fees; and

5. Any and all other relief to which Plaintiff may show itself to be entitled.

DEMAND FOR JURY TRIAL

Plaintiff, under Rule 38 of the Federal Rules of Civil Procedure, requests a trial by jury of any issues so triable by right.

Respectfully Submitted,
