7. Upon information and belief, Defendant conducts substantial business in this forum, directly or through intermediaries, including: (i) at least a portion of the infringements alleged herein; and (ii) regularly doing or soliciting business, engaging in other persistent courses of conduct and/or deriving substantial revenue from goods and services provided to individuals in this district.

8. Venue is proper in this district pursuant to 28 U.S.C. § 1400(b).

BACKGROUND

9. Tangelo's closely related operating entity is Tangelo, LLC (formerly known as Active8media, LLC), a developer of advanced interactive and shoppable image products. Tangelo's technology already is used by many major publishers to drive sales and connect readers and customers. Tangelo, LLC was awarded a MAX Marketing Award for its interactive image technology. It was also showcased on CNBC's Power Lunch for the implementation of Vogue Magazine's interactive ad images and the resulting highest revenue issue in Vogue's 110-year history.

10. Among other things, Tangelo, LLC operates Tangelo Images, a user interface application for creating interactive brand and user-generated photos. In addition, Tangelo, LLC launched Tangelo Tags within the Facebook app center to allow brand and individual users to create interactive and shoppable photos within Facebook's timeline. Tangelo, LLC has been recognized as a TAG Top 40 - Georgia's Most Innovative Companies.

11. Todd Mannik is a co-founder of Tangelo, LLC. Since at least 1999, Mr. Mannik has dedicated his career to focusing on the interactivity of photo images and the discovery of what's "inside" a photo. Mr. Mannik is the co-inventor of several patents, including the patent-in-suit, which represent pioneering advances in the transformation of images into interactive and

shoppable images online.

THE PATENT-IN-SUIT

12. On April 23, 2013, U.S. Patent No. 8,429,005 (the "'005 patent"), entitled "Method for Determining Effectiveness of Display of Objects in Advertising Images," was duly and lawfully issued by the U.S. Patent and Trademark Office. A true and correct copy of the '090 patent is attached hereto as Exhibit B.

13. Mr. Mannik is the first listed co-inventor on the patent-in-suit, which is U.S. Patent No. 8,429,005 (the "'005 patent"). The '005 patent is a continuation-in-part of U.S. Patent No. 6,535,889, which is a continuation-in-part of U.S. Patent No. 6,557,006. The earliest filing in the priority chain leading up to the '005 patent is U.S. Patent Application No. 09/406,171, filed on Sep. 23, 1999.

14. The technology recited in the claims of the '005 patent provides an inventive concept and does not claim an abstract idea. The inventive concept greatly enhances and facilitates technological methods and apparatuses which comprise providing of electronic and interactive catalogs comprising replications of product images appearing in a corresponding physical catalogs, wherein the electronic and interactive replications include selectable portions corresponding with the image replications, and wherein selection of the selectable portions provides additional product information and enables a user to initiate an online purchase of the product.

15. One inventive component of the '005 patent is improving electronic catalogs in ways that are necessarily rooted in computer technology to overcome problems specifically arising in the realm of computer networks, including the Internet. The claims recite an invention that was not merely a routine or conventional use of the Internet.

16. The technology claimed in the '005 patent does not preempt all types of electronic catalogs or anything else. For example, the prior art cited on the face of the '005 patent remains available for practice by the Defendant, and the '005 patent claims do not preempt practice of those prior art methods.

17. The '005 patent claims cannot be practiced by a human alone and there exists no human analogue to the methods claimed in the '005 patent. The claims are specifically directed to, *inter alia*, the electronic and interactive replication of product images appearing in a corresponding physical publication page, wherein the electronic and interactive replications include selectable portions corresponding with duplications of the appearance of the product, and wherein selection of the selectable portions provides additional product information and enables a user to initiate an online purchase of the product. These things exist only in the context of computers.

18. Tangelo is the assignee and owner of the right, title and interest in and to the '005 patent, including the right to assert all causes of action arising under said patent and the right to any remedies for infringement of it.

COUNT I – INFRINGEMENT OF U.S. PATENT NO. 8,429,005

19. Tangelo repeats and realleges the allegations of paragraphs 1 through 18 as if fully set forth herein.

20. Without license or authorization and in violation of 35 U.S.C. § 271(a), Defendant is liable for infringement of the '005 patent by practicing, making, using, importing, offering for sale, selling and/or hosting methods and computer readable media for methods, apparatuses, and computer readable media, including associated with websites and/or apps, for providing an

electronic and interactive replication of product images appearing in a corresponding physical publication page.

21. More specifically and upon information and belief, Defendant's online catalog system for providing interactive replications of product images appears in a corresponding physical publication page.
