25. **Induced Infringement.** Hitron actively, knowingly, and intentionally has been and continues to induce infringement of the '183 Patent, literally or by the doctrine of equivalence, by selling the Alleged Instrumentality to their customers for use in end-user products in a manner that infringes one or more claims of the '183 Patent.

26. **Contributory Infringement.** Hitron actively, knowingly, and intentionally has been and continues materially contribute to their own customers' infringement of the '183 Patent, literally or by the doctrine of equivalence, by selling the Alleged Instrumentality to their customers for use in end-user products in a manner that infringes one or more claims of the '183 Patent.

27. The filing of this Complaint constitutes notice in accordance with 35 U.S.C. § 287.

28. Despite such notice, Hitron continues to make, use, test, sell, offer for sale, market, and/or import into the United States, products that infringe the '183 Patent. On information and

belief, Hitron has also continued to sell the Alleged Instrumentality and distribute product literature and website materials inducing end users and others to use its products in the customary and intended manner that infringes the '183 Patent. Thus, on information and belief, Hitron is contributing to and/or inducing the infringement of the '183 Patent.
