4. This Court has exclusive subject matter jurisdiction under 28 U.S.C. §§ 1331 and 1338(a).

5. This Court has personal jurisdiction over Defendant because it has engaged in systematic and continuous business activities in this District, and is incorporated in this District's state. As described below, Defendant has committed acts of patent infringement giving rise to this action within this District.

In addition, Inventergy has suffered harm in this district.

PATENT-IN-SUIT

7. Inventergy is the assignee of all right, title and interest in United States Patent No. 8,760,286 (the "'286 Patent"); (the "Patent-in-Suit"); including all rights to enforce and prosecute actions for infringement and to collect damages for all relevant times against infringers of the Patent-in-Suit. Accordingly, Inventergy possesses the exclusive right and standing to prosecute the present action for infringement of the Patent-in-Suit by Defendant.

The '286 Patent

8. The '286 Patent is entitled "System and method for communication with a tracking device," and issued 6/24/2014. The application leading to the '286 Patent was filed on 4/10/2012, which ultimately claims priority from provisional application number 61/065,116, filed on 2/8/2008. A true and correct copy of the '286 Patent is attached hereto as Exhibit 1 and incorporated herein by reference.

9. The '286 Patent is valid and enforceable.

COUNT 1: INFRINGEMENT OF THE '286 PATENT

10. Inventergy incorporates the above paragraphs herein by reference.

11. **Direct Infringement.** Defendant has been and continues to directly infringe one or more claims of the '286 Patent in at least this District by making, using, offering to sell, selling and/or importing, without limitation, at least Spot's GEN3 GPS Tracker (the "Exemplary Spot Products") that infringe at least exemplary claims 1 of the '286 Patent (the "Exemplary '286 Patent Claims") literally or by the doctrine of equivalence. On information and belief, numerous other devices that infringe the claims of the '286 Patent have been made, used, sold, imported, and offered for sale by Defendant and/or its customers.

12. The filing of this Complaint constitutes notice and actual knowledge in accordance with 35 U.S.C. § 287.

13. Despite such actual knowledge, Defendant continues to make, use, test, sell, offer for sale, market, and/or import into the United States, products that infringe the '286 Patent. On information and belief, Defendant has also continued to sell the Exemplary Spot Products and distribute product literature and website materials inducing end users and others to use its products in the customary and intended manner that infringes the '286 Patent. Thus, on information and belief, Defendant is contributing to and/or inducing the infringement of the '286 Patent.

14. **Induced Infringement.** Defendant actively, knowingly, and intentionally has been and continues to induce infringement of the '286 Patent, literally or by the doctrine of equivalence, by selling Exemplary Spot Products to their customers for use in end-user products in a manner that infringes one or more claims of the '286 Patent.

15. **Contributory Infringement.** Defendant actively, knowingly, and intentionally has been and continues materially contribute to their own customers' infringement of the '286 Patent, literally or by the doctrine of equivalence, by selling Exemplary Spot Products to their customers for use in end-user products in a manner that infringes one or more claims of the '286 Patent.

16. Exhibit 2 includes charts comparing the Exemplary '286 Patent Claims to the Exemplary Spot Products. As set forth in these charts, the Exemplary Spot Products practice the technology claimed by the '286 Patent. Accordingly, the Exemplary Spot Products incorporated in these charts satisfy all elements of the Exemplary '286 Patent Claims.

17. Inventergy therefore incorporates by reference in its allegations herein the claim charts of Exhibit 2.

18. Inventergy is entitled to recover damages adequate to compensate for Defendant's infringement.
