3. This is an action for patent infringement arising under the patent laws of the United States, Title 35 of the United States Code.

4. This Court has exclusive subject matter jurisdiction under 28 U.S.C. §§ 1331 and 1338(a).

5. This Court has personal jurisdiction over Defendant because it has engaged in systematic and continuous business activities in this District, and is incorporated in this District's state. As described below, Defendant has committed acts of patent infringement giving rise to this action within this District.

#### **VENUE**

6. Venue is proper in this District under 28 U.S.C. § 1400(b) because Defendant has committed acts of patent infringement in this District, has an established place of business in this District, and is incorporated in this District's state. In addition, Mentone has suffered harm in this district.

#### **PATENT-IN-SUIT**

7. Mentone is the assignee of all right, title and interest in United States Patent No. 6,952,413 (the "'413 Patent"); (the "Patent-in-Suit"); including all rights to enforce and prosecute actions for infringement and to collect damages for all relevant times against infringers of the Patent-in-Suit. Accordingly, Mentone possesses the exclusive right and standing to prosecute the present action for infringement of the Patent-in-Suit by Defendant.

#### **The '413 Patent**

8. The '413 Patent is entitled "Extended dynamic resource allocation in packet data transfer," and issued 10/4/2005. The application leading to the '413 Patent was filed on 2/27/2004. A true and correct copy of the '413 Patent is attached hereto as Exhibit 1 and incorporated herein by reference.

9. The '413 Patent is valid and enforceable.

#### **COUNT 1: INFRINGEMENT OF THE '413 PATENT**

10. Mentone incorporates the above paragraphs herein by reference.

11. **Direct Infringement.** Defendant has been and continues to directly infringe one or more claims of the '413 Patent in at least this District by making, using, offering to sell, selling and/or importing, without limitation, at least JLT's MT1007A (the "Exemplary JLT Products") that infringe at least exemplary claims 5 of the '413 Patent (the "Exemplary '413 Patent Claims") literally or by the doctrine of equivalence. On information and belief, numerous other devices that infringe the claims of the '413 Patent have been made, used, sold, imported, and offered for sale by Defendant and/or its customers.

12. The filing of this Complaint constitutes notice and actual knowledge in accordance with 35 U.S.C. § 287.

13. Despite such actual knowledge, Defendant continues to make, use, test, sell, offer for sale, market, and/or import into the United States, products that infringe the '413 Patent. On information and belief, Defendant has also continued to sell the Exemplary JLT Products and distribute product literature and website materials inducing end users and others to use its products in the customary and intended manner that infringes the '413 Patent. Thus, on information and belief, Defendant is contributing to and/or inducing the infringement of the '413 Patent.

14. **Induced Infringement.** Defendant actively, knowingly, and intentionally has been and continues to induce infringement of the '413 Patent, literally or by the doctrine of equivalence, by selling Exemplary JLT Products to their customers for use in end-user products in a manner that infringes one or more claims of the '413 Patent.

15. **Contributory Infringement.** Defendant actively, knowingly, and intentionally has been and continues materially contribute to their own customers' infringement of the '413 Patent, literally or by the doctrine of equivalence, by selling Exemplary JLT Products to their

customers for use in end-user products in a manner that infringes one or more claims of the '413 Patent.

16. Exhibit 2 includes charts comparing the Exemplary '413 Patent Claims to the Exemplary JLT Products. As set forth in these charts, the Exemplary JLT Products practice the technology claimed by the '413 Patent. Accordingly, the Exemplary JLT Products incorporated in these charts satisfy all elements of the Exemplary '413 Patent Claims.

17. Mentone therefore incorporates by reference in its allegations herein the claim charts of Exhibit 2.

18. Mentone is entitled to recover damages adequate to compensate for Defendant's infringement.

#### **JURY DEMAND**
