As set forth in these charts, the Exemplary Singlewire Products practice the technology claimed by the '734 Patent. Accordingly, the Exemplary Singlewire Products incorporated in these charts satisfy all elements of the Exemplary '734 Patent Claims.

On information and belief, numerous other devices that infringe the claims of the '089 Patent have been made, used, sold, imported, and offered for sale by Defendant and/or its customers.

24. Defendant also has and continues to directly infringe, literally or under the doctrine of equivalents, the Exemplary '089 Patent Claims, by having its employees internally test and use these Exemplary Products.

Thus, on information and belief, Defendant is contributing to and/or inducing the infringement of the '089 Patent.

27. **Induced Infringement.** Defendant actively, knowingly, and intentionally has been and continues to induce infringement of the '089 Patent, literally or by the doctrine of equivalence, by selling Exemplary Singlewire Products to their customers for use in end-user products in a manner that infringes one or more claims of the '089 Patent.
