PATENT-IN-SUIT

7. Aristors is the assignee of all right, title and interest in United States Patent No. 8,013,734 (the "'734 Patent"); (the "Patent-in-Suit"); including all rights to enforce and prosecute actions for infringement and to collect damages for all relevant times against infringers of the Patent-in-Suit. Accordingly, Aristors possesses the exclusive right and standing to prosecute the present action for infringement of the Patent-in-Suit by Defendant.

THE '734 PATENT

8. The '734 Patent is entitled "Personal safety mobile notification system," and issued September 6, 2011. The application leading to the '734 Patent was filed on January 28, 2008, which ultimately claims priority from provisional application number 60/930,093, filed on May 14, 2007. A true and correct copy of the '734 Patent is attached hereto as Exhibit 1 and incorporated herein by reference.

9. The '734 Patent is valid and enforceable.

COUNT 1: INFRINGEMENT OF THE '734 PATENT

10. Aristors incorporates the above paragraphs herein by reference.

11. **Direct Infringement.** Defendant has been and continues to directly infringe one or more claims of the '734 Patent in at least this District by making, using, offering to sell, selling and/or importing, without limitation, at least Status Solutions's SARA (Situational Awareness and Response Assistant) (among the "Exemplary Status Solutions Products") that infringe at least exemplary claims 1 of the '734 Patent (the "Exemplary '734 Patent Claims") literally or by the doctrine of equivalence. On information and belief, numerous other devices that infringe the claims of the '734 Patent have been made, used, sold, imported, and offered for sale by Defendant and/or its customers.

12. Defendant also has and continues to directly infringe, literally or under the doctrine of equivalents, the Exemplary '734 Patent Claims, by having its employees internally test and use these Exemplary Products.

13. The service of this Complaint upon Defendant constitutes actual knowledge of infringement as alleged here.

14. Despite such actual knowledge, Defendant continues to make, use, test, sell, offer for sale, market, and/or import into the United States, products that infringe the '734 Patent. On information and belief, Defendant has also continued to sell the Exemplary Status Solutions Products and distribute product literature and website materials inducing end users and others to use its products in the customary and intended manner that infringes the '734 Patent. Thus, on information and belief, Defendant is contributing to and/or inducing the infringement of the '734 Patent.

15. **Induced Infringement.** Defendant actively, knowingly, and intentionally has been and continues to induce infringement of the '734 Patent, literally or by the doctrine of equivalence, by selling Exemplary Status Solutions Products to their customers for use in end-user products in a manner that infringes one or more claims of the '734 Patent.

16. **Contributory Infringement.** Defendant actively, knowingly, and intentionally has been and continues materially contribute to their own customers' infringement of the '734 Patent, literally or by the doctrine of equivalence, by selling Exemplary Status Solutions Products to their customers for use in end-user products in a manner that infringes one or more claims of the '734 Patent.

17. Exhibit 2 includes charts comparing the Exemplary '734 Patent Claims to the Exemplary Status Solutions Products. As set forth in these charts, the Exemplary Status Solutions Products practice the technology claimed by the '734 Patent. Accordingly, the Exemplary Status Solutions Products incorporated in these charts satisfy all elements of the Exemplary '734 Patent Claims.

18. Aristors therefore incorporates by reference in its allegations herein the claim charts of Exhibit 2.

19. Aristors is entitled to recover damages adequate to compensate for Defendant's infringement.
