following:

3. This is an action for patent infringement arising under the patent laws of the United States, Title 35 of the United States Code.

4. This Court has exclusive subject matter jurisdiction under 28 U.S.C. §§ 1331 and 1338(a).

5. This Court has personal jurisdiction over Defendant because it has engaged in systematic and continuous business activities in this District, and is incorporated in this District's state. As described below, Defendant has committed acts of patent infringement giving rise to this action within this District.

VENUE

6. Venue is proper in this District under 28 U.S.C. § 1400(b) because Defendant has committed acts of patent infringement in this District, has an established place of business in this District, and is incorporated in this District's state. In addition, Boracho has suffered harm in this district.

PATENT-IN-SUIT

7. Boracho is the assignee of all right, title and interest in United States Patent No. 6,580,251 (the "251 Patent"); (the "Patent-in-Suit"); including all rights to enforce and prosecute actions for infringement and to collect damages for all

relevant times against infringers of the Patent-in-Suit. Accordingly, Boracho possesses the exclusive right and standing to prosecute the present action for infringement of the Patent-in-Suit by Defendant.

The '251 Patent

8. The '251 Patent is entitled "Power charging device using multiple energy sources," and issued 6/17/2003. The application leading to the '251 Patent was filed on 4/19/2002. A true and correct copy of the '251 Patent is attached hereto as Exhibit 1 and incorporated herein by reference.

9. The '251 Patent is valid and enforceable.

COUNT 1: INFRINGEMENT OF THE '251 PATENT

10. Boracho incorporates the above paragraphs herein by reference.

11. **Direct Infringement.** Defendant has been and continues to directly infringe one or more claims of the '251 Patent in at least this District by making, using, offering to sell, selling and/or importing, without limitation, at least Outback's GS8048A Radian Series Inverter/Charger (among the "Exemplary Outback Products") that infringe at least exemplary claims 1 of the '251 Patent (the "Exemplary '251 Patent Claims") literally or by the doctrine of equivalence. On information and belief, numerous other devices that infringe the claims of the '251 Patent have been made, used, sold, imported, and offered for sale by Defendant and/or its customers.

12. Defendant also has and continues to directly infringe, literally or
1 under the doctrine of equivalents, the Exemplary '251 Patent Claims, by having its
2 employees internally test and use these Exemplary Products.
3

4 13. The service of this Complaint upon Defendant constitutes actual
5 knowledge of infringement as alleged here.
6

7 14. Despite such actual knowledge, Defendant continues to make, use,
8 test, sell, offer for sale, market, and/or import into the United States, products that
9 infringe the '251 Patent. On information and belief, Defendant has also continued
10 to sell the Exemplary Outback Products and distribute product literature and
11 website materials inducing end users and others to use its products in the
12 customary and intended manner that infringes the '251 Patent. Thus, on
13 information and belief, Defendant is contributing to and/or inducing the
14 infringement of the '251 Patent.
15
16

17 15. **Induced Infringement.** Defendant actively, knowingly, and
18 intentionally has been and continues to induce infringement of the '251 Patent,
19 literally or by the doctrine of equivalence, by selling Exemplary Outback Products
20 to their customers for use in end-user products in a manner that infringes one or
21 more claims of the '251 Patent.
22
23

24 16. **Contributory Infringement.** Defendant actively, knowingly, and
25 intentionally has been and continues materially contribute to their own customers'
26
27

1 infringement of the '251 Patent, literally or by the doctrine of equivalence, by
2 selling Exemplary Outback Products to their customers for use in end-user
3 products in a manner that infringes one or more claims of the '251 Patent.

4 17. Exhibit 2 includes charts comparing the Exemplary '251 Patent
5 Claims to the Exemplary Outback Products. As set forth in these charts, the
6 Exemplary Outback Products practice the technology claimed by the '251 Patent.
7 Accordingly, the Exemplary Outback Products incorporated in these charts satisfy
8 all elements of the Exemplary '251 Patent Claims.

9
10 18. Boracho therefore incorporates by reference in its allegations herein
11 the claim charts of Exhibit 2.

12
13 19. Boracho is entitled to recover damages adequate to compensate for
14 Defendant's infringement.

15
16 **JURY DEMAND**

17 20. Under Rule 38(b) of the Federal Rules of Civil Procedure, Boracho
18 respectfully requests a trial by jury on all issues so triable.

19 **PRAYER FOR RELIEF**

20 WHEREFORE, Boracho respectfully requests the following relief:

- 21
22 A. A judgment that the '251 Patent is valid and enforceable;
23 B. A judgment that Defendant has infringed, contributorily infringed, and/
