**COUNT 1: INFRINGEMENT OF THE '739 PATENT**

14. Pebble Tide incorporates the above paragraphs herein by reference.

15. **Direct Infringement.** Defendant has been and continues to directly infringe one or more claims of the '739 Patent in at least this District by making, using, offering to sell, selling and/or importing, without limitation, at least the Progressive products identified in Exhibit 3 (among the "Exemplary Progressive Products") that infringe at least the exemplary claims of the '739 Patent identified in Exhibit 3 (the "Exemplary '739 Patent Claims") literally or by the doctrine of equivalence. On information and belief, numerous other devices that infringe the claims of the '739 Patent have been made, used, sold, imported, and offered for sale by Defendant and/or its customers.

16. Defendant also has and continues to directly infringe, literally or under the doctrine of equivalents, the Exemplary '739 Patent Claims, by having its employees internally test and use these Exemplary Products.

17. The filing of this Complaint constitutes notice and actual knowledge of infringement as alleged here.

18. **Willful Infringement.** Despite such actual knowledge, Defendant continues to make, use, test, sell, offer for sale, market, and/or import into the United States, products that infringe the '739 Patent. On information and belief, Defendant has also continued to sell the Exemplary Progressive Products and distribute product literature and website materials inducing end users and others to use its products in the customary and intended manner that infringes the '739 Patent. Thus, on information and belief, Defendant is contributing to and/or inducing the infringement of the '739 Patent.

19. **Induced Infringement.** Defendant actively, knowingly, and intentionally has been and continues to induce infringement of the '739 Patent, literally or by the doctrine of equivalence, by selling Exemplary Progressive Products to their customers for use in end-user products in a manner that infringes one or more claims of the '739 Patent.

20. **Contributory Infringement.** Defendant actively, knowingly, and intentionally has been and continues materially contribute to their own customers' infringement of the '739 Patent, literally or by the doctrine of equivalence, by selling Exemplary Progressive Products to their customers for use in end-user products in a manner that infringes one or more claims of the '739 Patent. Moreover, the Exemplary Progressive Products are not a staple article of commerce suitable for substantial noninfringing use.

21. Exhibit 3 includes charts comparing the Exemplary '739 Patent Claims to the Exemplary Progressive Products. As set forth in these charts, the Exemplary Progressive Products practice the technology claimed by the '739 Patent. Accordingly, the Exemplary Progressive Products incorporated in these charts satisfy all elements of the Exemplary '739 Patent Claims.

22. Pebble Tide therefore incorporates by reference in its allegations herein the claim charts of Exhibit 3.

23. Pebble Tide is entitled to recover damages adequate to compensate for Defendant's infringement.

On information and belief, numerous other devices that infringe the claims of the '411 Patent have been made, used, sold, imported, and offered for sale by Defendant and/or its customers.

26. Defendant also has and continues to directly infringe, literally or under the doctrine of equivalents, the Exemplary '411 Patent Claims, by having its employees internally test and use these Exemplary Products.

27. The filing of this Complaint constitutes notice and actual knowledge of infringement as alleged here.

28. **Willful Infringement.** Despite such actual knowledge, Defendant continues to make, use, test, sell, offer for sale, market, and/or import into the United States, products that infringe the '411 Patent. On information and belief, Defendant has also continued to sell the Exemplary Progressive Products and distribute product literature and website materials inducing end users and others to use its products in the customary and intended manner that infringes the '411 Patent. Thus, on information and belief, Defendant is contributing to and/or inducing the infringement of the '411 Patent.

29. **Induced Infringement.** Defendant actively, knowingly, and intentionally has been and continues to induce infringement of the '411 Patent, literally or by the doctrine of equivalence, by selling Exemplary Progressive Products to their customers for use in end-user products in a manner that infringes one or more claims of the '411 Patent.

30. **Contributory Infringement.** Defendant actively, knowingly, and intentionally has been and continues materially contribute to their own customers' infringement of the '411 Patent, literally or by the doctrine of equivalence, by selling Exemplary Progressive Products to their customers for use in end-user products in a manner that infringes one or more claims of the '411 Patent. Moreover, the Exemplary Progressive Products are not a staple article of commerce suitable for substantial noninfringing use.

31. Exhibit 4 includes charts comparing the Exemplary '411 Patent Claims to the Exemplary Progressive Products.
