COMPLAINT FOR PATENT INFRINGEMENT

Plaintiff Cedar Lane Technologies Inc. (“Plaintiff”), through its attorneys, complains of Enplug, Inc. (“Defendant”), and alleges the following:

PARTIES

1. Plaintiff Cedar Lane Technologies Inc. is a corporation organized and existing under the laws of Canada that maintains its principal place of business at 560 Baker Street, Suite 1, Nelson, BC V1L 4H9.

2. Defendant Enplug, Inc. is a corporation organized and existing under the laws of Delaware that maintains an established place of business at 6029 Bristol Parkway, Suite 10 Culver City, CA 90230 and has a Delaware registered agent, The Corporation Trust Company, located at Corporation Trust Center, 1209 Orange Street, Wilmington, DE 19801.

JURISDICTION

3. This is an action for patent infringement arising under the patent laws of the United States, Title 35 of the United States Code.

4. This Court has exclusive subject matter jurisdiction under 28 U.S.C. §§ 1331 and 1338(a).

5. This Court has personal jurisdiction over Defendant because it has engaged in systematic and continuous business activities in this District, and is incorporated in this District's state. As described below, Defendant has committed acts of patent infringement giving rise to this action within this District.

VENUE

6. Venue is proper in this District under 28 U.S.C. § 1400(b) because Defendant has committed acts of patent infringement in this District, has an established place of business in this District, and is incorporated in this District's state. In addition, Plaintiff has suffered harm in this district.

PATENT-IN-SUIT

7. Plaintiff is the assignee of all right, title and interest in United States Patent No. 7,890,884 (the "'884 Patent"); (the "Patent-in-Suit"); including all rights to enforce and prosecute actions for infringement and to collect damages for all relevant times against infringers of the Patent-in-Suit. Accordingly, Plaintiff possesses the exclusive right and standing to prosecute the present action for infringement of the Patent-in-Suit by Defendant.

The '884 Patent

8. The '884 Patent is entitled "Exclusive use display surface areas and persistently visible display of contents including advertisements," and issued 2/15/2011. The application leading to the '884 Patent was filed on 11/1/2006. A true and correct copy of the '884 Patent is attached hereto as Exhibit 1 and incorporated herein by reference.

9. The '884 Patent is valid and enforceable.

COUNT 1: INFRINGEMENT OF THE '884 PATENT

10. Plaintiff incorporates the above paragraphs herein by reference.

11. **Direct Infringement.** Defendant has been and continues to directly infringe one or more claims of the '884 Patent in at least this District by making, using, offering to sell, selling and/or importing, without limitation, at least the Defendant products identified in the charts incorporated into this Count below (among the "Exemplary Defendant Products") that infringe at least the exemplary claims of the '884 Patent also identified in the charts incorporated into this Count below (the "Exemplary '884 Patent Claims") literally or by the doctrine of equivalents. On information and belief, numerous other devices that infringe the claims of the '884 Patent have been made, used, sold, imported, and offered for sale by Defendant and/or its customers.

12. Defendant also has and continues to directly infringe, literally or under the doctrine of equivalents, the Exemplary '884 Patent Claims, by having its employees internally test and use these Exemplary Products.

13. The service of this Complaint upon Defendant constitutes actual knowledge of infringement as alleged here.

14. Despite such actual knowledge, Defendant continues to make, use, test, sell, offer for sale, market, and/or import into the United States, products that infringe the '884 Patent. On information and belief, Defendant has also continued to sell the Exemplary Defendant Products and distribute product literature and website materials inducing end users and others to use its products in the customary and intended manner that infringes the '884 Patent. Thus, on information and belief, Defendant is contributing to and/or inducing the infringement of the '884 Patent.

15. **Induced Infringement.** Defendant actively, knowingly, and intentionally has been and continues to induce infringement of the '884 Patent, literally or by the doctrine of

equivalents, by selling Exemplary Defendant Products to their customers for use in end-user products in a manner that infringes one or more claims of the '884 Patent.

16. **Contributory Infringement.** Defendant actively, knowingly, and intentionally has been and continues materially contribute to their own customers' infringement of the '884 Patent, literally or by the doctrine of equivalents, by selling Exemplary Defendant Products to their customers for use in end-user products in a manner that infringes one or more claims of the '884 Patent. Moreover, the Exemplary Defendant Products are not a staple article of commerce suitable for substantial noninfringing use.

17. Exhibit 2 includes charts comparing the Exemplary '884 Patent Claims to the Exemplary Defendant Products. As set forth in these charts, the Exemplary Defendant Products practice the technology claimed by the '884 Patent. Accordingly, the Exemplary Defendant Products incorporated in these charts satisfy all elements of the Exemplary '884 Patent Claims.

18. Plaintiff therefore incorporates by reference in its allegations herein the claim charts of Exhibit 2.

19. Plaintiff is entitled to recover damages adequate to compensate for Defendant's infringement.

JURY DEMAND

20. Under Rule 38(b) of the Federal Rules of Civil Procedure, Plaintiff respectfully requests a trial by jury on all issues so triable.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff respectfully requests the following relief:

- A. A judgment that the '884 Patent is valid and enforceable;

- B. A judgment that Defendant has infringed, contributorily infringed, and/or induced infringement of one or more claims of the '884 Patent;
- C. An accounting of all damages not presented at trial;
- D. A judgment that awards Plaintiff all appropriate damages under 35 U.S.C. § 284 for Defendant's past infringement and, with respect to the '884 patent, any continuing or future infringement, up until the date such judgment is entered including pre- or post-judgment interest, costs, and disbursements as justified under 35 U.S.C. § 284;
- E. And, if necessary, to adequately compensate Plaintiff for Defendant's infringement, an accounting:
 - i. that this case be declared exceptional within the meaning of 35 U.S.C. § 285 and that Plaintiff be awarded its reasonable attorneys' fees against Defendant that it incurs in prosecuting this action;
 - ii. that Plaintiff be awarded costs, and expenses that it incurs in prosecuting this action; and
 - iii. that Plaintiff be awarded such further relief at law or in equity as the Court deems just and proper.

Dated: May 11, 2020

Respectfully submitted,
