UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF NEW YORK

PRIME BOILERS, INC., and  
UNILUX BOILER CORP.,

Plaintiffs,

v.

UNIVERSAL BOILER WORKS, INC., and  
PRECISION BOILERS, INC.,

Defendants.

1:03-cv-588

Civil Action No. 03-cv-588

JURY TRIAL DEMANDED

AMENDED COMPLAINT

Plaintiffs, Prime Boilers, Inc. ("Prime") and Unilux Boiler Corp. ("Unilux"), for their complaint allege:

1. This is an action under 35 U.S.C. § 281 for patent infringement. This Court has jurisdiction under 28 U.S.C. § 1331 and 1338(a).

2. Since October 17, 2002, Prime has been the owner by assignment of United States Patent No. 5,050,542 ("the '542 patent"), and of all rights to sue for past damages for infringement of that patent.

3. Prime has given an exclusive license under the '542 patent to Unilux.

4. Defendant Universal Boiler Works, Inc. ("Universal") had a license under the '542 patent, but on October 3, 2002 Universal's license was terminated for nonpayment of royalties.

5. After that termination, Universal made, used, and sold selling products that infringed the '542 patent.

6. Defendant Precision Boilers, Inc. ("Precision") has purchased certain assets of Universal, and has used those assets to make, use, offer for sale, and sell products that infringe the '542 patent.

7. The infringement by Defendants was willful.

8. Unless enjoined by this Court, Universal and Precision will continue to infringe and the resulting damage to Prime and Unilux shall be substantial and irreparable.

FOR THE ABOVE REASONS, Prime and Unilux request that judgment be entered that Universal and Precision be enjoined from further acts of infringement, that damages be awarded in an amount adequate to compensate Prime and Unilux for the infringement, that damages be trebled, and that Prime and Unilux be awarded their costs of this action, including reasonable attorneys fees, and be awarded such further relief as this Court feels warranted.
