hereto as Exhibit 1.

10. The '474 Patent is called "Pressure Activated Recharging Cooling Platform" and relates to cooling platforms for a variety of uses, including for pets. The inventor of the '474 Patent is Gerard E. Prendergast. The '474 Patent is a continuation of the '218 Patent and was filed on March 26, 2014. On January 5, 2016, the United States Patent and Trademark Office issued the 474 Patent.

discovery).

14. The Accused Product is covered by at least claims 15, 16, 18 and 19 of the '218 Patent and by at least claims 1, 4, 5, 11, and 16-21 of the '474 Patent.

E. Prior Litigation

18. Green Pet Shop has already litigated to judgment a patent infringement lawsuit against a seller of cooling pads for pets called Maze Innovations, Inc. (Case No. 15-cv-1138) in the Northern District of Illinois.

19. During that lawsuit, Maze petitioned for an inter partes review based on the allegation that the Green Pet Shop Patents were invalid. The United States

Patent and Trademark office rejected that petition and did not institute a review of the Green Pet Shop Patents.

20. Also during that lawsuit, Maze argued a claim construction that that it believed would allow it to avoid a finding of infringement. The judge presiding over that case issued a claim construction decision that rejected Maze's attempted construction and adopted Green Pet Shop's proposed construction.

21. After the rejection of its inter partes review petition and its proposed claim constructions, Maze settled that lawsuit and admitted that the Green Shop Patents were valid and infringed.

22. Before it filed this Complaint, Green Pet Shop informed Grand Innovations about the Maze lawsuit, including the information set forth in Paragraphs 18-21 above.
