**I. THE PARTIES**

1. Plaintiff DatRec is a Texas Limited Liability Company with its principal place of business located in Harris County, Texas.

2. On information and belief, Intuit, Inc (“Intuit”) is a corporation organized and existing under the laws of Delaware, with a principal place of business located at 5601 Headquarters Dr. Plano, TX 75024. Intuit is incorporated in Delaware. On information and belief, Intuit sells and offers to sell products and services throughout Delaware, including in this judicial district, and introduces products and services that perform infringing methods or processes into the stream of commerce knowing that they would be sold in Delaware and this judicial district. ## **II. JURISDICTION AND VENUE**

3. This Court has original subject-matter jurisdiction over the entire action pursuant to 28 U.S.C. §§ 1331 and 1338(a) because Plaintiff's claim arises under an Act of Congress relating to patents, namely, 35 U.S.C. § 271.

4. This Court has personal jurisdiction over Defendant because: (i) Defendant is present within or has minimum contacts within the State of Delaware and this judicial district; (ii) Defendant has purposefully availed itself of the privileges of conducting business in the State of Delaware and in this judicial district; and (iii) Plaintiff's cause of action arises directly from Defendant's business contacts and other activities in the State of Delaware and in this judicial district.

5. Venue is proper in this district under 28 U.S.C. §§ 1391(b) and 1400(b). Defendant has committed acts of infringement and has a regular and established place of business in this District. ## **III. INFRINGEMENT**

### **A. Infringement of the '309 Patent**

6. On February 9, 2013, U.S. Patent No. 8,381,309 ("the '309 patent", attached as Exhibit B) entitled "Method and System for Ecure Communication Over a Public Network" was duly and legally issued by the U.S. Patent and Trademark Office. DatRec, LLC owns the '309 patent by assignment.

7. The '309 patent relates to a novel and improved system for secure communication over a public network.

8. Intuit maintains, operates, and administers electronic time records through its website at www.Intuit.com, and other sources or websites, that infringe one or more claims of the '309 patent, including one or more of claims 1-17, literally or under the doctrine of equivalents. Defendant put the inventions claimed by the '309 Patent into service (i.e., used them); but for Defendant's actions, the claimed-inventions embodiments involving Defendant's products and services would never have been put into service. Defendant's acts complained of herein caused those claimed-invention embodiments as a whole to perform, and Defendant's procurement of monetary and commercial benefit from it.

9. Support for the allegations of infringement may be found in the following preliminary table:
