FOR THE WESTERN DISTRICT OF WASHINGTON**

CADDO SYSTEMS, INC. and 511
TECHNOLOGIES, INC.,

Plaintiffs,

v.

LIGHTINTHEBOX HOLDING CO., LTD.,
LIGHTINTHEBOX LIMITED, INC.,

Defendants.

Civil Action No. 2:22-cv-732

DEMAND FOR JURY TRIAL

COMPLAINT FOR PATENT INFRINGEMENT

In this action for patent infringement Plaintiffs Caddo Systems, Inc. and 511 Technologies, Inc. (“Plaintiffs” or “Caddo”) hereby make the following allegations against Defendants LightInTheBox Limited, and LightInTheBox Holding Co., Ltd. (collectively “Defendants” or “LightInTheBox”):

NATURE OF THE ACTION

1. This is an action for patent infringement arising under the Patent Laws of the United States, 35 U.S.C. § 1 *et seq.*

THE PARTIES

2. Plaintiff Caddo Systems, Inc. (“Caddo”) is a Texas corporation with its principal place of business in the 511 Technology Center at 511 N. Washington Avenue, Marshall, Texas 75670.

3. Plaintiff 511 Technologies, Inc. (“511 Tech”) is a Texas corporation with its principal place of business at 511 N. Washington Avenue, Marshall, Texas 75670. Since 2010, 511 Tech has operated the 511 Technology Center, including the provision of invention, patent

and product development support services in diverse fields including color measurement, flash storage devices, communication protocols, electronic circuitry, software development, energy storage and control, cloud-connected industrial and consumer products, medical diagnostic device, and art instruction from its headquarters in the former Coca-Cola bottling plant located in the Ginocchi Historic District in Marshall, Texas.

4. In collaboration with 511 Tech and others working in the 511 Technology Center, Caddo researches, designs, and develops information systems, including systems based on the Asserted Patents. The Caddo and 511 Tech collaboration includes software products based on inventions described and claimed in the Asserted Patents.

5. Caddo is the owner by assignment of 100% interest in the Asserted Patents. 511 Tech has the exclusive license to practice and develop the inventions of the Asserted Patents.

6. On information and belief, Defendant LightInTheBox Limited (“LITB”) is a Hong Kong, corporation with a place of business located at 600 1st Ave, Seattle, WA 98104. Upon information and belief, LITB is authorized to do business in the State of Washington and may be served through its registered agent at Law Debenture Corporate Services Inc., 400 Madison Avenue, 4th Floor, New York, NY 10017.

7. On information and belief, Defendant LightInTheBox Holding Co., Ltd. (“LITBH”) is incorporated and organized under the laws of Cayman Islands. Upon information and belief, LITBH is authorized to do business in the State of Washington and may be served through its registered agent at Law Debenture Corporate Services Inc., 400 Madison Avenue, 4th Floor, New York, NY 10017.

JURISDICTION AND VENUE

8. This action for patent infringement arises under the patent laws of the United States, Title 35 of the United States Code.

9. This Court has subject matter jurisdiction under 28 U.S.C. §§ 1331 and 1338(a).

10. This Court has personal jurisdiction over LightInTheBox because it has sufficient minimum contacts with this forum as a result of business conducted within the State of Washington and in the Western District of Washington. For example, LightInTheBox has a place of business in this District at 600 1st Ave, Seattle, WA 98104. Personal jurisdiction also exists specifically over LightInTheBox because LightInTheBox directly or through subsidiaries or intermediaries, makes, uses, offers for sale, or sells products or services within the State of Washington and in the Western District of Washington through accused instrumentalities that directly or indirectly infringe the Asserted Patents (as discussed further below).

11. On information and belief, Defendant LightInTheBox designs, develops, manufactures, sells, offers to sell, and/or imports products, devices, systems, and/or components of systems through certain Accused Instrumentalities that either infringe or support the infringement of the patents asserted in this action.

12. On information and belief, LightInTheBox sells and offers to sell products and services throughout the United States and in Washington, including in this District, through the accused instrumentalities, through major electronics retailers in the United States, and in concert and partnership with third parties.

13. Furthermore, personal jurisdiction over LightInTheBox in this action comports with due process. LightInTheBox has conducted and regularly conducts business within the United States and this District. LightInTheBox has purposefully availed itself of the privileges of conducting business in the United States, and more specifically in the State of Washington and in this District. LightInTheBox has sought protection and benefit from the laws of the State of Washington by making available products and services, including websites and associated web

pages, that infringe the Asserted Patents with the awareness and/or intent that they will be used (or visited) by consumers in this District. Having purposefully availed itself of the privilege of conducting business within this District, LightInTheBox should reasonably and fairly anticipate being brought into court here.

14. Venue is proper in this Court pursuant to 28 U.S.C. §§ 1391 and 1400(b) at least because LightInTheBox is subject to personal jurisdiction in this District and has regularly conducted business in this District, and because certain of the acts complained of herein occurred in this District. On information and belief, LightInTheBox makes, uses, sells, offers to sell, and/or imports, within the State of Washington and in this District, products and services through the accused instrumentalities that infringe the Asserted Patents.

15. Additionally, LightInTheBox —directly or through intermediaries (including distributors, retailers, and others), subsidiaries, alter egos, and/or agents—ships, distributes, offers for sale, and/or sells its products and services in the United States and this District. LightInTheBox has purposefully and voluntarily placed one or more of its products into the stream of commerce through the accused instrumentalities that infringe the Asserted Patents with the awareness and/or intent that they will be purchased by consumers in this District. LightInTheBox knowingly and purposefully ships infringing products into, and within, this District. These infringing products have been, and continue to be, purchased by consumers and businesses in this District.

THE ASSERTED PATENTS

16. On March 13, 2007, the United States Patent and Trademark Office (“USPTO”) duly and legally issued U.S. Patent No. 7,191,411 (“the ’411 Patent”), entitled “Active Path Menu Navigation System.” A copy of the ’411 Patent is attached hereto as Exhibit 1.

17. Plaintiffs own all substantial right, title, and interest in the '411 Patent, and hold the right to sue and recover damages for infringement thereof, including past infringement.

18. On May 8, 2007, the USPTO duly and legally issued U.S. Patent No. 7,216,301 ("the '301 Patent"), entitled "Active Path Menu Navigation System." A copy of the '301 Patent is attached hereto as Exhibit 2.

19. Plaintiffs own all substantial right, title, and interest in the '301 Patent, and hold the right to sue and recover damages for infringement thereof, including past infringement.

20. On December 29, 2009, the USPTO duly and legally issued U.S. Patent No. 7,640,517 ("the '517 Patent"), entitled "Active Path Menu Navigation System." A copy of the '517 Patent is attached hereto as Exhibit 3.

21. Plaintiffs own all substantial right, title, and interest in the '517 Patent, and hold the right to sue and recover damages for infringement thereof, including past infringement.

22. On May 25, 2010, the USPTO duly and legally issued U.S. Patent No. 7,725,836 ("the '836 Patent"), entitled "Active Path Menu Navigation System." A copy of the '836 Patent is attached hereto as Exhibit 4.

23. Plaintiffs own all substantial right, title, and interest in the '836 Patent, and hold the right to sue and recover damages for infringement thereof, including past infringement.

24. On January 8, 2013, the USPTO duly and legally issued U.S. Patent No. 8,352,880 ("the '880 Patent"), entitled "Active Path Menu Navigation System." A copy of the '880 Patent is attached hereto as Exhibit 5.

25. Plaintiffs own all substantial right, title, and interest in the '880 Patent, and hold the right to sue and recover damages for infringement thereof, including past infringement.

26. On July 31, 2018, the USPTO duly and legally issued U.S. Patent No. 10,037,127 (“the ’127 Patent”), entitled “Active Path Menu Navigation System.” A copy of the ’127 Patent is attached hereto as Exhibit 6.

27. Plaintiffs own all substantial right, title, and interest in the ’127 Patent, and hold the right to sue and recover damages for infringement thereof, including past infringement.

28. On November 23, 2021, the USPTO duly and legally issued U.S. Patent No. 11,182,053 (“the ’053 Patent”), entitled “Active Path Menu Navigation System.” A copy of the ’053 Patent is attached hereto as Exhibit 7.

29. Plaintiffs own all substantial right, title, and interest in the ’053 Patent, and hold the right to sue and recover damages for infringement thereof, including past infringement.

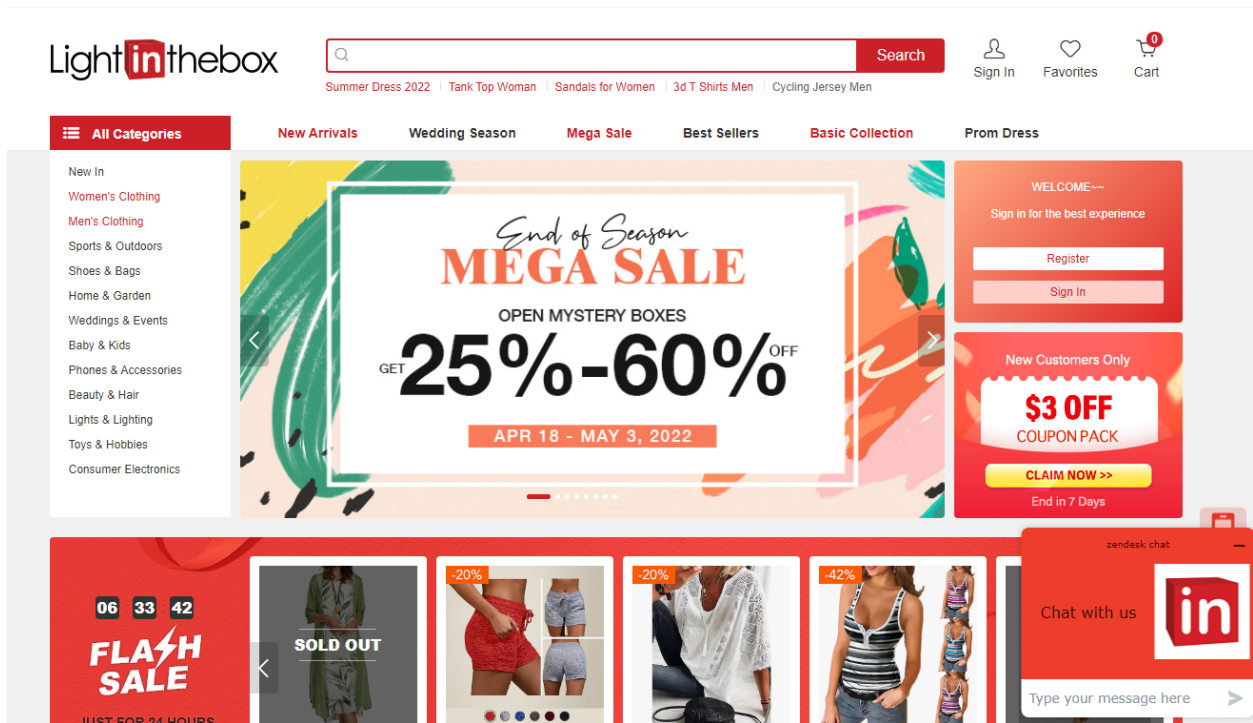

COUNT I - INFRINGEMENT OF U.S. PATENT NO. 7,191,411

30. Plaintiffs incorporate and reallege the preceding paragraphs as if fully set forth herein.

31. The ’411 Patent is directed to systems and methods for navigating within a multi-level hierarchical collapsing menu structure, as described and claimed in the ’411 Patent.

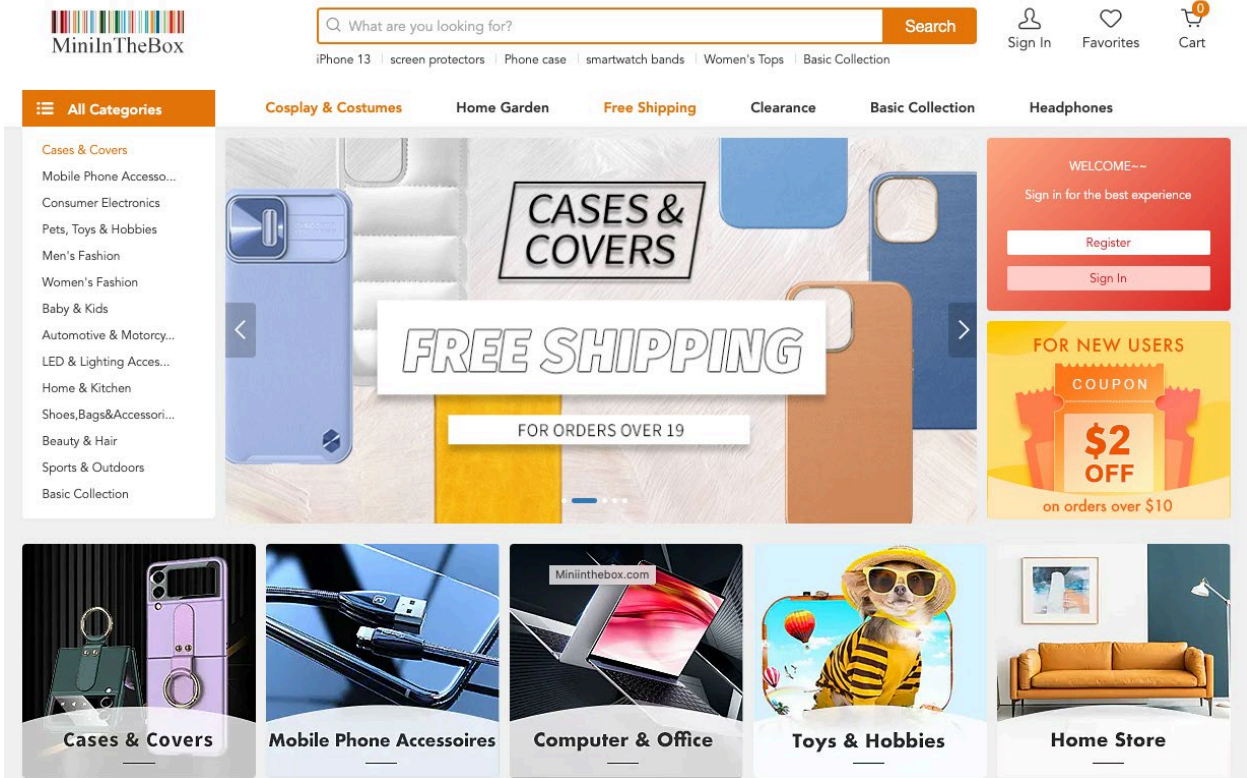

32. Defendants have and continue to directly infringe at least Claim 1 of the ’411 Patent, in this judicial District and elsewhere in the United States, pursuant to 35 U.S.C. § 271(a), literally or under the doctrine of equivalents, by, among other things, by making, using, selling, offering to sell, and/or importing in or into the United States, without authority: (i) web pages and content to be interactively presented in browsers, including, without limitation, the web pages and content accessible via <https://www.lightinthebox.com/> and <https://www.miniinthebox.com> (and all sub-web pages) and maintained on servers located in and/or accessible from the United States under the control of Defendants; (ii) software,

including, without limitation, software that allows content to be interactively presented in and/or served to browsers; (iii) computer equipment including, without limitation, computer equipment that stores, serves, and/or runs any of the foregoing or that allows navigating within a multi-level hierarchical collapsing menu structure, where each level in the menu structure contains plural items, each item being at least one of a function, a pointer to a location, and a pointer to another level (hereinafter, the “411 Accused Instrumentalities”) as shown below:

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022); see also

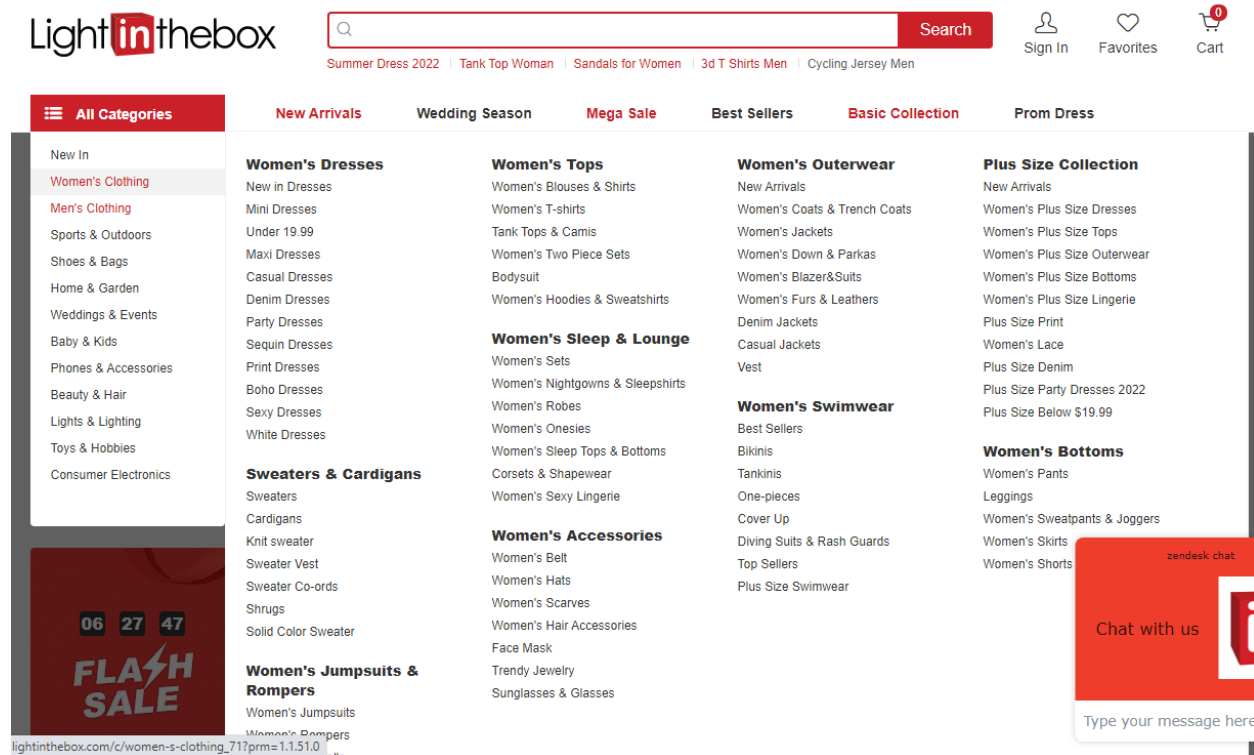

<https://www.miniinthebox.com> (last visited May 2, 2022):

33. Because the accused instrumentalities (<https://www.lightinthebox.com/> and <https://www.miniinthebox.com>) operate the same way in the context of the accused functionalities, Plaintiffs will provide the following examples from www.lightinthebox.com to demonstrate how both Defendants' accused instrumentalities infringe the '411 Patent.

34. By way of example, the '411 Accused Instrumentalities provide a method for navigating within a multi-level hierarchical collapsing menu structure where each level in the menu contains plural items, each said item being at least one of a function, a pointer to a location, and a pointer to another level (e.g., the '411 Accused Instrumentalities provide a method for navigating a multi-level hierarchical collapsing menu structure that includes a multi-level hierarchy where each level in the menu contains plural items, each said item being at least one of a function, a pointer to a location, and a pointer to another level (e.g., "All Categories" for

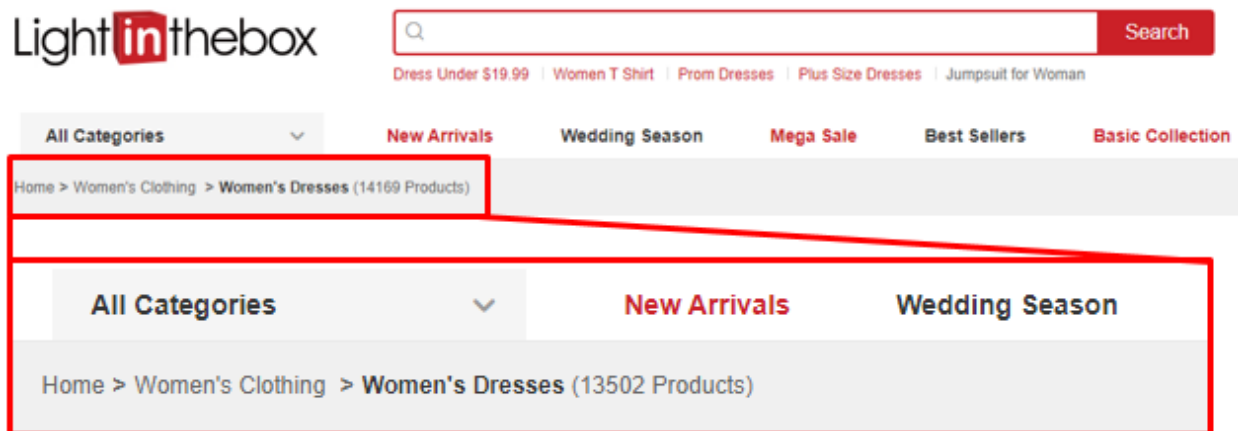

example includes “Women’s Clothing,” which includes “Women’s Dresses,” “Sweaters & Cardigans,” and “Women’s Jumpsuits & Rompers”) as shown below:

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022).

35. More specifically, the ’411 Accused Instrumentalities provide a graphical user menu system displaying the items of a given level and enabling selection thereof (e.g., “All Categories” displays and enables selection of items of a given level, such as “Women’s Clothing” and items within that same level), wherein access of said given level requires sequential access of each of the levels preceding said given level in the hierarchy (e.g., to access “Women’s Clothing,” “All Categories” is accessed first; similarly, to access “Women’s Dresses,” “All Categories” is accessed first, followed by accessing “Women’s Clothing”); automatically constructing an Active Path as a sequence of hierarchical active links as items are selected using the graphical user menu system without the need for any additional interaction

with the graphical user system (e.g., the '411 Accused Instrumentalities automatically construct an active path (e.g., “Home—Women’s Clothing—Women’s Dresses”) as a sequence of hierarchical active links as items are selected (e.g., as “Women’s Clothing” and “Women’s Dresses” are selected)), with one said active link corresponding to each of the items selected (e.g., the '411 Accused Instrumentalities’ active path “Women’s Clothing—Women’s Dresses” corresponds to each of the items selected, including “Women’s Clothing” and “Women’s Dresses”) as shown below:

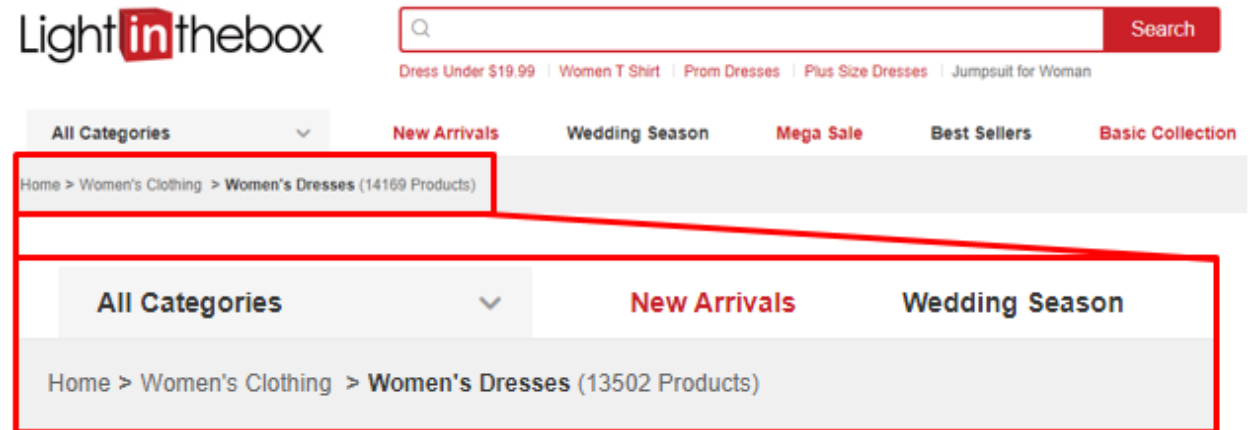

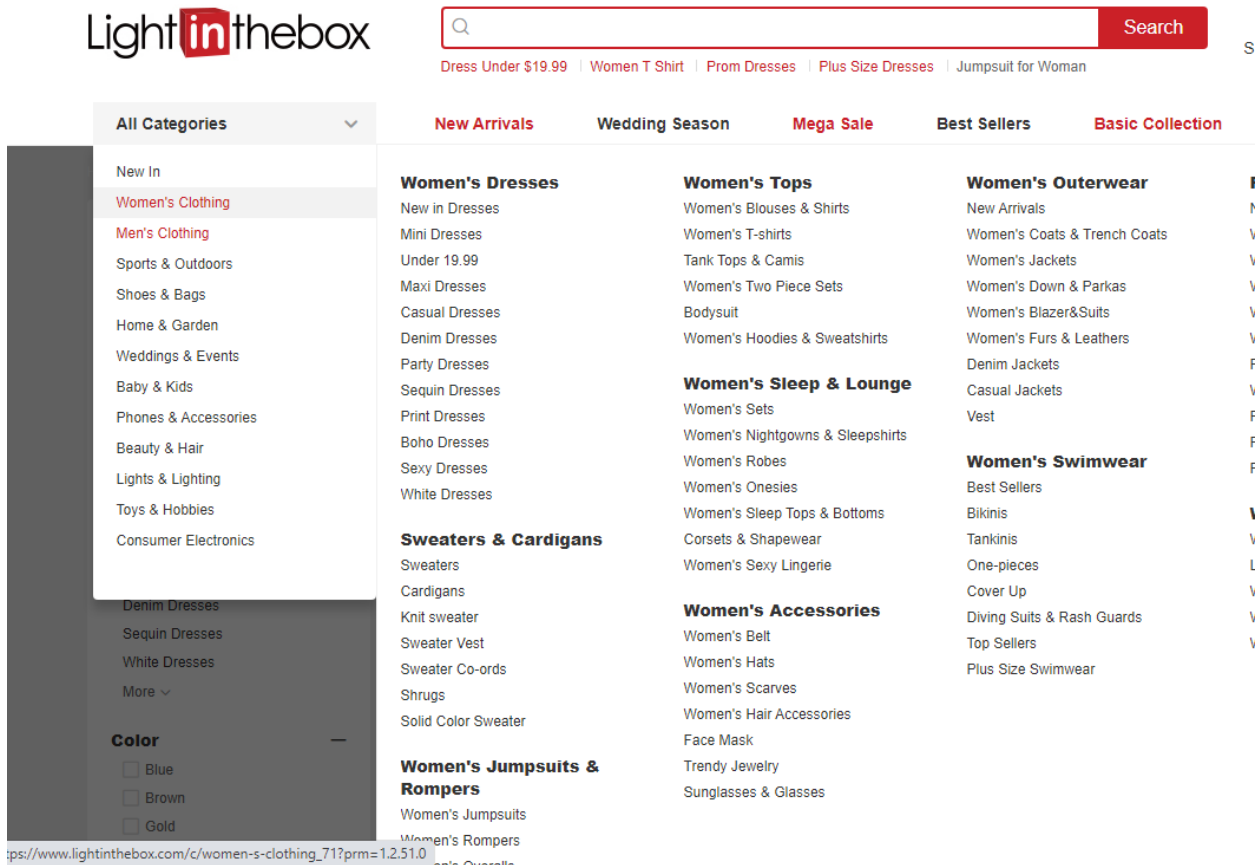

See, e.g., https://www.lightinthebox.com/c/women-s-dresses_4711?prm=1.1.51.0 (last visited May 2, 2022).

36. Also, each active link in the '411 Accused Instrumentalities is independently selectable thereby providing direct access to the hierarchical level from which the corresponding item was selected without the need to navigate using said graphical user menu system (e.g., in the example above, the active link “Women’s Clothing” is independently selectable to thereby providing direct access to the hierarchical level from which “Women’s Clothing” was selected without the need to navigate using LightInTheBox’s graphical user menu system; as another example, the active link “Women’s Dresses” is independently selectable to thereby providing

direct access to the hierarchical level from which “Women’s Dresses” was selected without the need to navigate using LightInTheBox’s graphical user menu system).

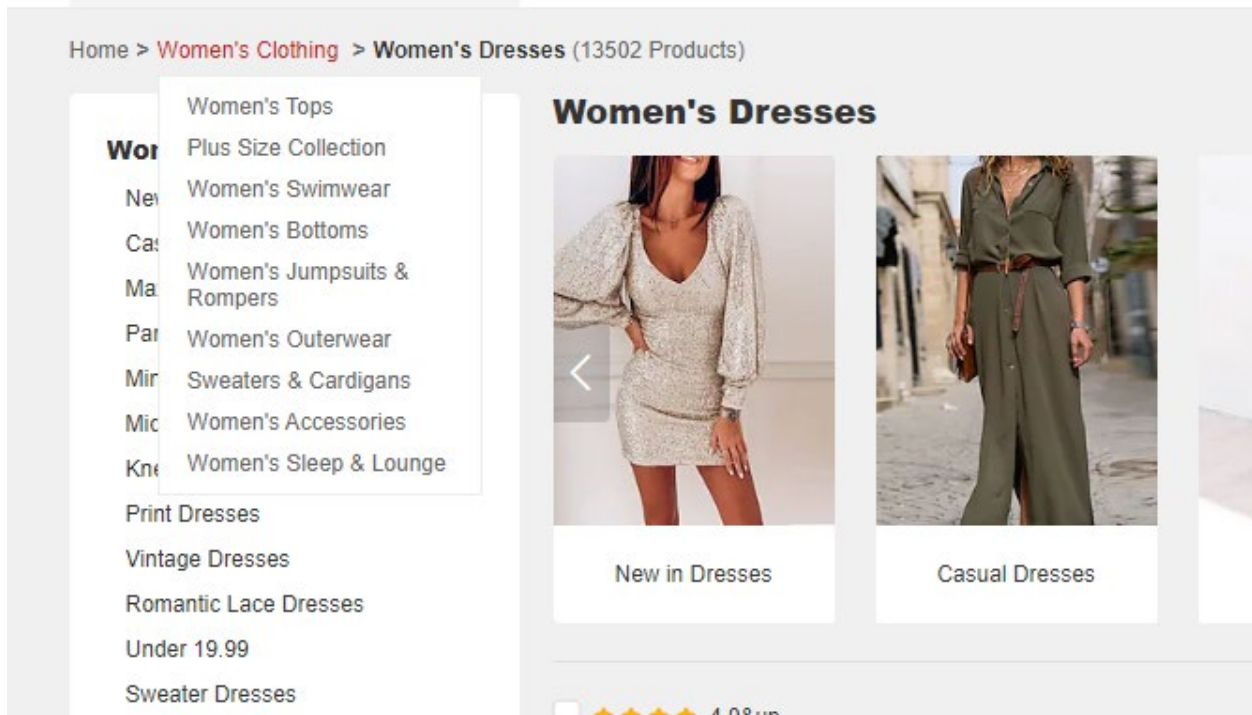

37. The ‘411 Accused Instrumentalities’ active path is displayed as an alternative to the graphical user menu system for navigating the multi-level hierarchical collapsing menu structure after the user has finished selecting items using the graphical user system (e.g., the ‘411 Accused Instrumentalities display the Active Path as an alternative to Defendants’ graphical user menu system for navigating the multi-level hierarchical collapsing menu structure after the user has finished selecting items, such as “Women’s Clothing” and “Women’s Dresses” using LightInTheBox’s graphical user menu system such that LightInTheBox’s Active Path is displayed after the multi-level hierarchical collapsing menu structure has collapsed) such that the Active Path is displayed after the multi-level hierarchical collapsing menu structure has collapsed (e.g., the Active Path is displayed after the multi-level hierarchical collapsing menu structure showing “All Categories” has collapsed) as shown below:

See, e.g., https://www.lightinthebox.com/c/women-s-dresses_4711?prm=1.1.51.0 (last visited May 2, 2022).

38. On information and belief, in the '411 Accused Instrumentalities, pre-selecting a given active link triggers the display of sibling menu items on the level associated with said

given active link without disturbing the displayed Active Path (e.g., pre-selecting the “Women’s Clothing” active link triggers the display of sibling menu items, such as “Women’s Tops,” “Plus Size Collection,” “Women’s Swimwear,” “Women’s Bottoms,” “Women’s Jumpsuits and Rompers,” “Women’s Outerwear,” “Sweaters & Cardigans,” “Women’s Accessories,” and “Women’s Jumpsuits & Rompers”) as displayed below:

See, e.g., https://www.lightinthebox.com/c/women-s-dresses_4711?prm=1.1.51.0 (last visited May 2, 2022).

39. Discovery is expected to uncover the full extent of Defendants’ infringement of the ’411 Patent beyond the ’411 Accused Instrumentalities already identified through public information.

40. Upon information and belief, Defendants have induced and continue to induce others to infringe at least Claim 1 of the ’411 Patent under 35 U.S.C. § 271(b) by, among other things, and with specific intent or willful blindness, actively aiding and abetting others to

infringe, including but not limited to Defendants' new, current, and prospective users, partners, customers and other third parties, whose use of the '411 Accused Instrumentalities constitutes direct infringement of at least Claim 1 of the '411 Patent.

41. In particular, Defendants' actions that aid and abet others such as its new, current, and prospective users, partners, customers and third parties to infringe include advertising the '411 Accused Instrumentalities. On information and belief, Defendants have engaged in such actions with specific intent to cause infringement or with willful blindness to the resulting infringement because Defendants have had actual knowledge of the '411 Patent and knowledge that its acts were inducing infringement of the '411 Patent because each Defendants have had actual knowledge of the '411 patent and knowledge that its acts were inducing infringement of the '411 patent since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) that such activities infringed the '411 patent.

42. Defendants' acts of inducement include, without limitation: providing the '411 Accused Instrumentalities to its new, current, and prospective users, partners, and customers, and other third parties and intending them to use the '411 Accused Instrumentalities that enable and/or make use of content published therein; encouraging customers and other third parties to communicate directly with Defendants' representatives about the '411 Accused Instrumentalities and content published therein for purposes of technical assistance as well as sales and marketing (*see, e.g.*, <https://www.lightinthebox.com/r/contact-us.html> (providing consumers with a technical support portal through which technical issues and concerns regarding the '411 Accused Instrumentalities can be addressed); *see, e.g.*, <https://www.lightinthebox.com/r/contact-us.html> (providing contact information for technical support regarding the '411 Accused Instrumentalities); *see also id.* (providing a community platform for discussing the '411 Accused

Instrumentalities or content published therein); *see also* <https://www.facebook.com/lightinthebox> (encouraging customers and third parties to use the '411 Accused Instrumentalities to access content published therein (e.g., providing the URL (https://www.lightinthebox.com/en/p/women-s-high-waist-yoga-pants-yoga-leggings-tights-bottoms-tummy-control-butt-lift-quick-dry-snakeskin-yellow-red-spandex-yoga-fitness-gym-workout-sum_p8718883.html?litb_from=HCX_ybn1&utm_source=sns&utm_content=boost&utm_medium=HCX_ybn1&utm_campaign=main&litb_from=fb_post&utm_source=SNS&utm_content=boost&utm_medium=facebook_litb_en&utm_campaign=Main) to a “Yoga Leggings & Tights” webpage that can be accessed using the Accused Instrumentalities)); *see also* <https://twitter.com/lightinthebox?lang=en>, <https://www.youtube.com/lightinthebox>, and <https://www.instagram.com/lightinthebox/?hl=en> (Defendants’ social media accounts promoting the use of the '411 Accused Instrumentalities through which various media content can be accessed); and providing press releases and news articles encouraging customers and the other third parties to use the '411 Accused Instrumentalities to access content (for example, providing the URL (www.lightinthebox.com) to the “LightInTheBox” main webpage that can be accessed using the '411 Accused Instrumentalities).

43. Defendants performed acts of inducement despite its actual knowledge since at least December 2, 2021 (the date on which Defendant received Plaintiffs’ notice letter) and its knowledge that the specific actions it actively induced and continue to actively induce on the part of its users, partners, and customers, and other third parties constitute infringement of the '411 Patent. At the very least, because Defendants have been, and remain, on notice of the '411 Patent and the accused infringement, they have been, and remain, willfully blind regarding the infringement that it has induced and continue to induce.

44. On information and belief, Defendants have contributed to, and continues to contribute to, infringement of at least Claim 1 of the '411 Patent pursuant to 35 U.S.C. § 271(c) by providing the '411 Accused Instrumentalities that have contributed, and continue to contribute, to the direct infringement of new, current, and prospective users, partners, customers and other third parties with the knowledge (at least as of December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter)) that the '411 Accused Instrumentalities are especially made or adapted for use in an infringement of the '411 Patent. For example, by providing the web pages, software, and computer equipment identified above, Defendants contribute to the direct infringement of users of said web pages, software, and computer equipment. The '411 Accused Instrumentalities are material components or apparatuses for use in practicing the '411 Patent and are not staple articles of commerce suitable for substantial non-infringing use.

45. For example, the '411 Accused Instrumentalities provide a graphical user menu system through which a user can navigate within a multi-level hierarchical collapsing system according to the claimed invention(s). Defendants supplied, and continue to supply, the '411 Accused Instrumentalities, or components or apparatuses thereof, with the knowledge of the '411 Patent and with the knowledge that these components or apparatuses constitute critical and material parts of the claimed inventions of the '411 Patent. Moreover, Defendants know at least by virtue of its knowledge of its own products and services and the '411 Patent that the '411 Accused Instrumentalities are especially made and/or especially adapted for use as claimed in the '411 Patent and there is no substantial non-infringing use of these components or apparatuses.

46. Defendants have directly and indirectly infringed the '411 Patent and are thus liable for infringement of the '411 Patent pursuant to 35 U.S.C. § 271.

47. Plaintiffs have suffered, and continue to suffer, damages as a result of Defendants' infringement of the '411 Patent.

48. Defendants have continued to infringe the '411 Patent since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) despite being on notice of the '411 Patent and its infringement. Defendants have therefore infringed the '411 Patent knowingly, willfully, deliberately, and in disregard of Plaintiffs' patent rights since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) by infringing with actual knowledge of its direct and indirect infringement or while remaining willfully blind to the fact of its direct and indirect infringement. As a result of at least this conduct, Plaintiffs are entitled to enhanced damages under 35 U.S.C. § 284 and to attorneys' fees and costs under 35 U.S.C. § 285.

49. Plaintiffs reserve the right to modify its infringement theories as discovery progresses in this case. Plaintiffs shall not be estopped for purposes of its infringement contentions or its claim constructions by the foregoing discussions on how the '411 Accused Instrumentalities infringe the '411 Patent. Plaintiffs intend only that the foregoing discussions satisfy the notice requirements of Rule 8(a)(2) of the Federal Rule of Civil Procedure, and that they should not be construed as Plaintiffs' preliminary or final infringement contentions or preliminary or final claim construction positions.

COUNT II - INFRINGEMENT OF U.S. PATENT NO. 7,216,301

50. Plaintiffs incorporate and reallege the preceding paragraphs as if fully set forth herein.

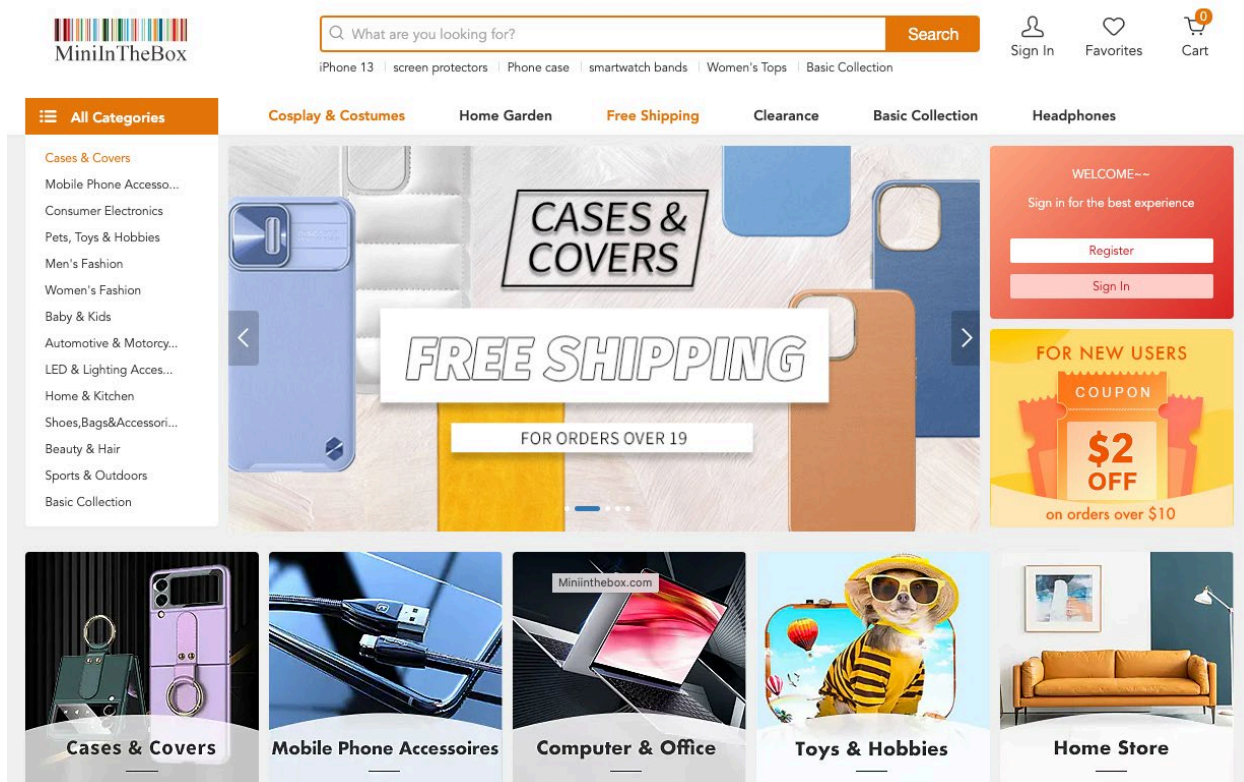

51. The '301 Patent is directed to systems and methods for navigating within a multi-level hierarchical information structure, as described and claimed in the '301 Patent.

52. Defendants have and continue to directly infringe at least Claim 1 of the '301 Patent, in this judicial District and elsewhere in the United States, pursuant to 35 U.S.C. § 271(a), literally or under the doctrine of equivalents, by, among other things, by making, using, selling, offering to sell, and/or importing in or into the United States, without authority: (i) web pages and content to be interactively presented in browsers, including, without limitation, the web pages and content accessible via <https://www.lightinthebox.com/> and <https://www.miniinthebox.com> (and all sub-web pages) and maintained on servers located in and/or accessible from the United States under the control of Defendants; (ii) software, including, without limitation, software that allows content to be interactively presented in and/or served to browsers; (iii) computer equipment, including, without limitation, computer equipment that stores, serves, and/or runs any of the foregoing or that allows navigating within a multi-level hierarchical information structure, where each level in the information structure contains plural items, each item being at least one of a function, a pointer to a location, and a pointer to another level (hereinafter, the "'301 Accused Instrumentalities") as shown below:

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022); see also

<https://www.miniinthebox.com> (last visited May 2, 2022):

53. Because the accused instrumentalities (<https://www.lightinthebox.com/> and <https://www.miniinthebox.com>) operate the same way in the context of the accused functionalities, Plaintiffs will provide the following examples from www.lightinthebox.com to demonstrate how both Defendants' accused instrumentalities infringe the '301 Patent.

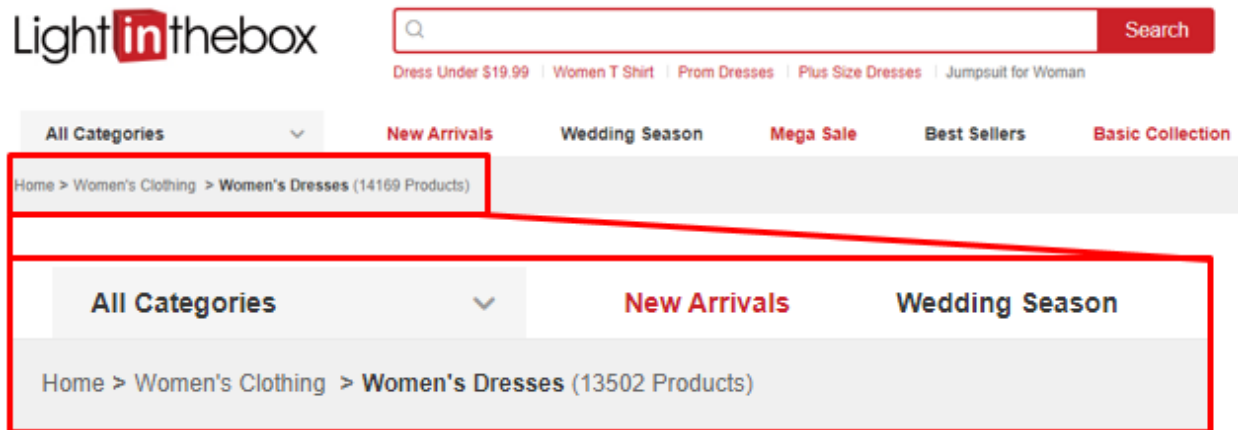

54. By way of example, the '301 Accused Instrumentalities provide a method for navigating within a multi-level hierarchical information structure where each level in the information structure contains plural items, each said item being at least one of a function, a pointer to a location, and a pointer to another level (e.g., the '301 Accused Instrumentalities provide a method for navigating within a multi-level hierarchical collapsing menu structure where each level in the information structure contains plural items, each said item being at least one of a function, a pointer to a location, and a pointer to another level (e.g., "All Categories" includes "Women's Clothing," which includes "Women's Dresses," "Sweaters & Cardigans," and "Women's Jumpsuits & Rompers")) as shown below:

The screenshot displays the Light in the Box website's navigation menu. At the top, the Light in the Box logo is on the left, a search bar is in the center, and 'Sign In', 'Favorites', and 'Cart' icons are on the right. Below the logo, a horizontal navigation bar includes 'All Categories', 'New Arrivals', 'Wedding Season', 'Mega Sale', 'Best Sellers', 'Basic Collection', and 'Prom Dress'. The main content area features a vertical 'All Categories' sidebar on the left with options like 'Women's Clothing', 'Sports & Outdoors', 'Shoes & Bags', etc. The central area is a grid of product categories: 'Women's Dresses' (with sub-items like 'New in Dresses', 'Mini Dresses', etc.), 'Women's Tops' (with sub-items like 'Women's Blouses & Shirts', 'Tank Tops & Camis', etc.), 'Women's Outerwear' (with sub-items like 'New Arrivals', 'Women's Coats & Trench Coats', etc.), 'Plus Size Collection' (with sub-items like 'New Arrivals', 'Women's Plus Size Dresses', etc.), 'Sweaters & Cardigans' (with sub-items like 'Sweaters', 'Cardigans', etc.), 'Women's Sleep & Lounge' (with sub-items like 'Women's Sels', 'Women's Nightgowns & Sleepshirts', etc.), 'Women's Swimwear' (with sub-items like 'Best Sellers', 'Bikinis', etc.), and 'Women's Bottoms' (with sub-items like 'Women's Pants', 'Leggings', etc.). A 'FLASH SALE' banner is at the bottom left, and a 'zendesk chat' window is at the bottom right. The URL 'lightinthebox.com/c/women-s-clothing_71?prm=1.1,51.0' is visible at the bottom left.

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022).

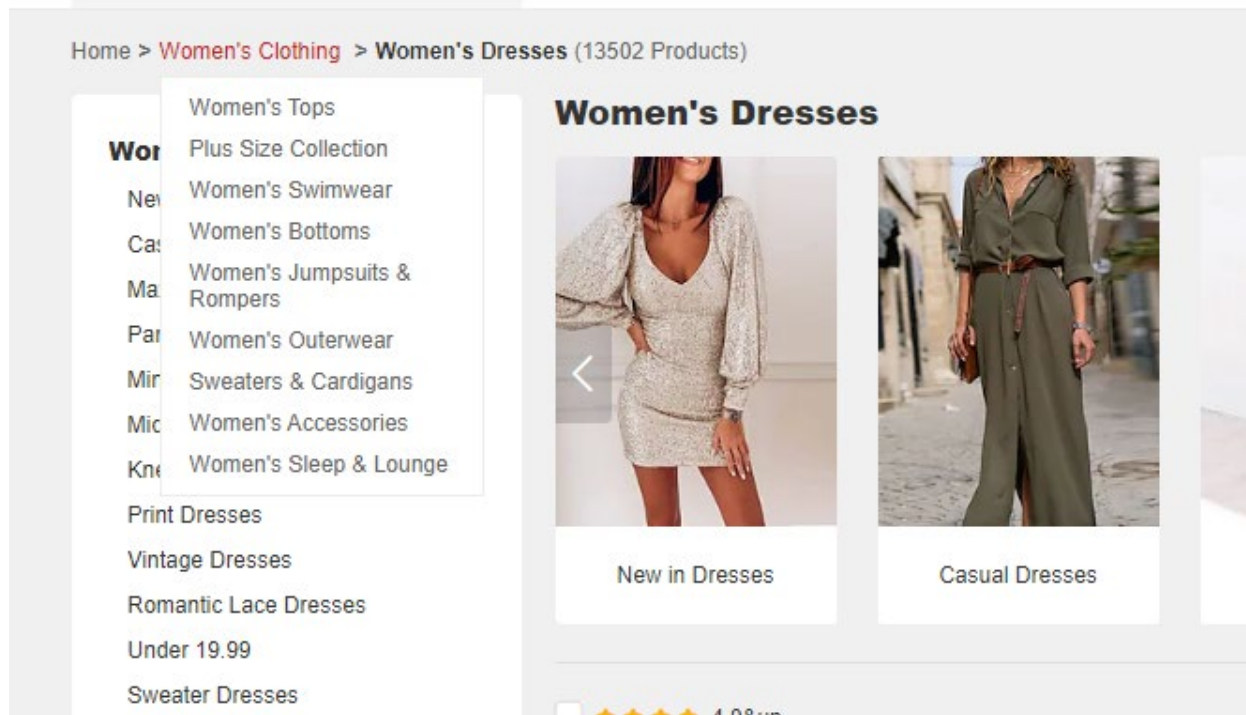

55. More specifically, the '301 Accused Instrumentalities provide a graphical user menu system displaying the items of a given level of the hierarchical information structure and enabling selection thereof (e.g., “All Categories” displays and enables selection of items of a given level, such as “Women’s Clothing” and items within that same level); and dynamically constructing an Active Path as a sequence of active links as items are selected using the graphical user menu system (e.g., the '301 Accused Instrumentalities dynamically construct an active path (e.g., “Home—Women’s Clothing—Women’s Dresses”) as a sequence of active links as items are selected (e.g., as “Women’s Clothing” and “Women’s Dresses” are selected)), with one said active link corresponding to each of the items selected, said active links providing direct access to one of a function, corresponding level and menu item without the need to navigate using said graphical user menu system (e.g., the '301 Accused Instrumentalities’ active path “Home—

Women’s Clothing—Women’s Dresses” corresponds to each of the items selected, including “Women’s Clothing” and “Women’s Dresses”) as shown below:

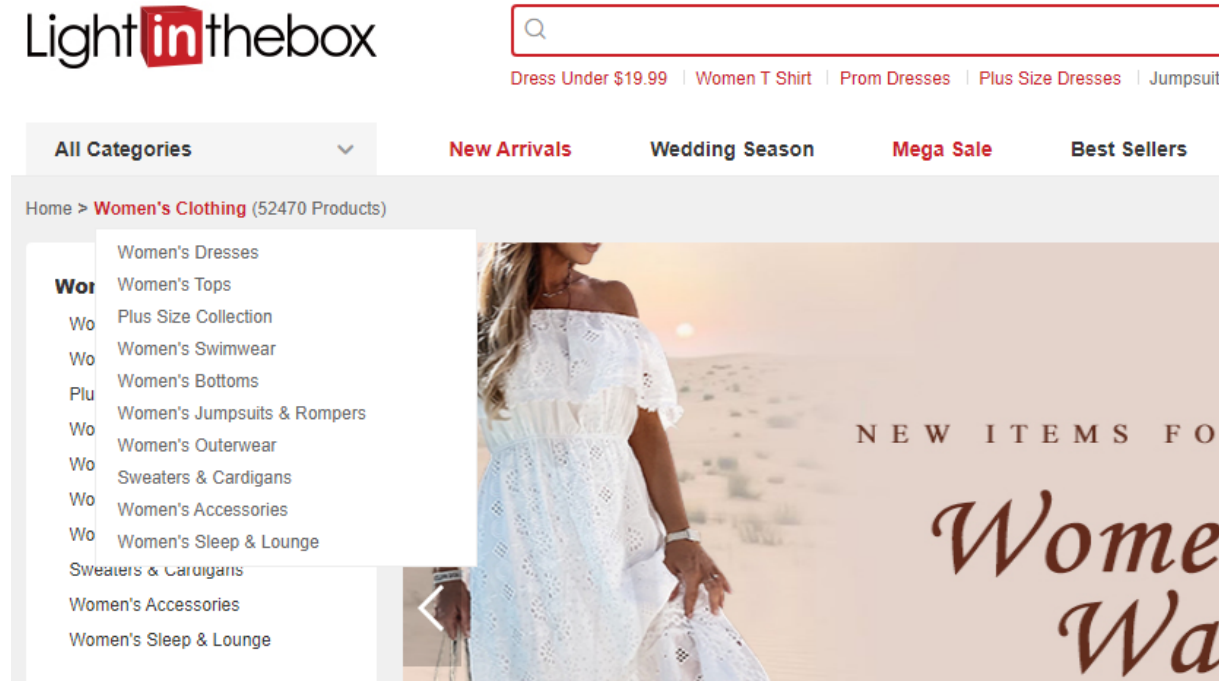

See, e.g., https://www.lightinthebox.com/c/women-s-dresses_4711?prm=1.1.51.0 (last visited May 2, 2022).

56. Also, each active link in the '301 Accused Instrumentalities enables the user to directly browse all items on any given level of the hierarchical information structure including all hierarchically subordinate items without affecting the Active Path (e.g., the '301 Accused Instrumentalities enable the user to directly browse all items under “Women’s Clothing” such as “Women’s Dresses,” “Women’s Tops,” “Plus Size Collection,” “Women’s Swimwear,” “Women’s Bottoms,” “Women’s Jumpsuits and Rompers,” “Women’s Outerwear,” “Sweaters & Cardigans,” “Women’s Accessories,” and “Women’s Jumpsuits & Rompers” without affecting the active path “Home—Women’s Clothing—Women’s Dresses”) as shown below:

See, e.g., https://www.lightinthebox.com/c/women-s-dresses_4711?prm=1.1.51.0 (last visited May 2, 2022).

57. As another example, each active link in the '301 Accused Instrumentalities enables the user to directly browse all items on any given level of the hierarchical information structure including all hierarchically subordinate items without affecting the Active Path (e.g., the '301 Accused Instrumentalities enable the user to directly browse all items under “Women’s Clothing” such as “Women’s Dresses,” “Women’s Tops,” “Plus Size Collection,” “Women’s Swimwear,” “Women’s Bottoms,” “Women’s Jumpsuits and Rompers,” “Women’s Outerwear,” “Sweaters & Cardigans,” “Women’s Accessories,” and “Women’s Jumpsuits & Rompers” without affecting the active path “Home—Women’s Clothing”) as shown below:

See, e.g., https://www.lightinthebox.com/c/women-s-clothing_71?prm=1.1.51.0 (last visited May 2, 2022).

58. Discovery is expected to uncover the full extent of Defendants' infringement of the '301 Patent beyond the '301 Accused Instrumentalities already identified through public information.

59. Upon information and belief, Defendants have induced and continue to induce others to infringe at least Claim 1 of the '301 Patent under 35 U.S.C. § 271(b) by, among other things, and with specific intent or willful blindness, actively aiding and abetting others to infringe, including but not limited to Defendants' new, current, and prospective users, partners, customers and other third parties, whose use of the '301 Accused Instrumentalities constitutes direct infringement of at least Claim 1 of the '301 Patent.

60. In particular, Defendants' actions that aid and abet others such as its new, current, and prospective users, partners, customers and third parties to infringe include advertising the '301 Accused Instrumentality. On information and belief, Defendants have engaged in such

actions with specific intent to cause infringement or with willful blindness to the resulting infringement because Defendants have had actual knowledge of the '301 Patent and knowledge that its acts were inducing infringement of the '301 Patent since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) when Defendants received notice that such activities infringed the '301 Patent.

61. Defendants' acts of inducement include, without limitation: providing the '301 Accused Instrumentalities to its new, current, and prospective users, partners, and customers, and other third parties and intending them to use the '301 Accused Instrumentalities that enable and/or make use of content published therein; encouraging customers and other third parties to communicate directly with Defendants' representatives about the '301 Accused Instrumentalities and content published therein for purposes of technical assistance as well as sales and marketing (*see, e.g.*, <https://www.lightinthebox.com/r/contact-us.html> (providing consumers with a technical support portal through which technical issues and concerns regarding the '301 Accused Instrumentalities can be addressed); *see, e.g.*, <https://www.lightinthebox.com/r/contact-us.html> (providing contact information for technical support regarding the '301 Accused Instrumentalities); *see also* <https://www.facebook.com/lightinthebox> (encouraging customers and third parties to use the '301 Accused Instrumentalities to access content published therein (e.g., providing the URL (https://www.lightinthebox.com/en/p/women-s-high-waist-yoga-pants-yoga-leggings-tights-bottoms-tummy-control-butt-lift-quick-dry-snakeskin-yellow-red-spandex-yoga-fitness-gym-workout-sum_p8718883.html?litb_from=HCX_ybn1&utm_source=sns&utm_content=boost&utm_medium=HCX_ybn1&utm_campaign=main&litb_from=fb_post&utm_source=SNS&utm_content=boost&utm_medium=facebook_litb_en&utm_campaign=Main) to a "Yoga Leggings & Tights"

webpage that can be accessed using the Accused Instrumentalities)); *see also*

62. Defendants performed acts of inducement despite its actual knowledge since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) and its knowledge that the specific actions it actively induced and continue to actively induce on the part of its users, partners, and customers, and other third parties constitute infringement of the '301 Patent. At the very least, because Defendants have been, and remain, on notice of the '301 Patent and the accused infringement, they have been, and remain, willfully blind regarding the infringement that it has induced and continue to induce.

63. On information and belief, Defendants have contributed to, and continues to contribute to, infringement of at least Claim 1 of the '301 Patent pursuant to 35 U.S.C. § 271(c) by providing the '301 Accused Instrumentalities that have contributed, and continue to contribute, to the direct infringement of new, current, and prospective users, partners, customers and other third parties with the knowledge (at least as of December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter)) that the '301 Accused Instrumentalities are especially made or adapted for use in an infringement of the '301 Patent. For example, by providing the web pages, software, and computer equipment identified above, Defendants

contribute to the direct infringement of users of said web pages, software, and computer equipment. The '301 Accused Instrumentalities are material components or apparatuses for use in practicing the '301 Patent and are not staple articles of commerce suitable for substantial non-infringing use.

64. For example, the '301 Accused Instrumentalities provide a graphical user menu system through which a user can navigate within a multi-level hierarchical information structure according to the claimed invention(s). Defendants supplied, and continue to supply, the '301 Accused Instrumentalities, or components or apparatuses thereof, with the knowledge of the '301 Patent and with the knowledge that these components or apparatuses constitute critical and material parts of the claimed inventions of the '301 Patent. Moreover, Defendants know at least by virtue of its knowledge of its own products and services and the '301 Patent that the '301 Accused Instrumentalities are especially made and/or especially adapted for use as claimed in the '301 Patent and there is no substantial non-infringing use of these components or apparatuses.

65. Defendants have directly and indirectly infringed the '301 Patent and are thus liable for infringement of the '301 Patent pursuant to 35 U.S.C. § 271.

66. Plaintiffs have suffered, and continue to suffer, damages as a result of Defendants' infringement of the '301 Patent.

67. Defendants have continued to infringe the '301 Patent since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) despite being on notice of the '301 Patent and its infringement. Defendants have therefore infringed the '301 Patent knowingly, willfully, deliberately, and in disregard of Plaintiffs' patent rights since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter), at least by infringing with actual knowledge of its direct and indirect infringement or while remaining

willfully blind to the fact of its direct and indirect infringement. As a result of at least this conduct, Plaintiffs are entitled to enhanced damages under 35 U.S.C. § 284 and to attorneys' fees and costs under 35 U.S.C. § 285.

68. Plaintiffs reserve the right to modify its infringement theories as discovery progresses in this case. Plaintiffs shall not be estopped for purposes of its infringement contentions or its claim constructions by the foregoing discussions on how the '301 Accused Instrumentalities infringe the '301 Patent. Plaintiffs intend only that the foregoing discussions satisfy the notice requirements of Rule 8(a)(2) of the Federal Rule of Civil Procedure, and that they should not be construed as Plaintiffs' preliminary or final infringement contentions or preliminary or final claim construction positions.

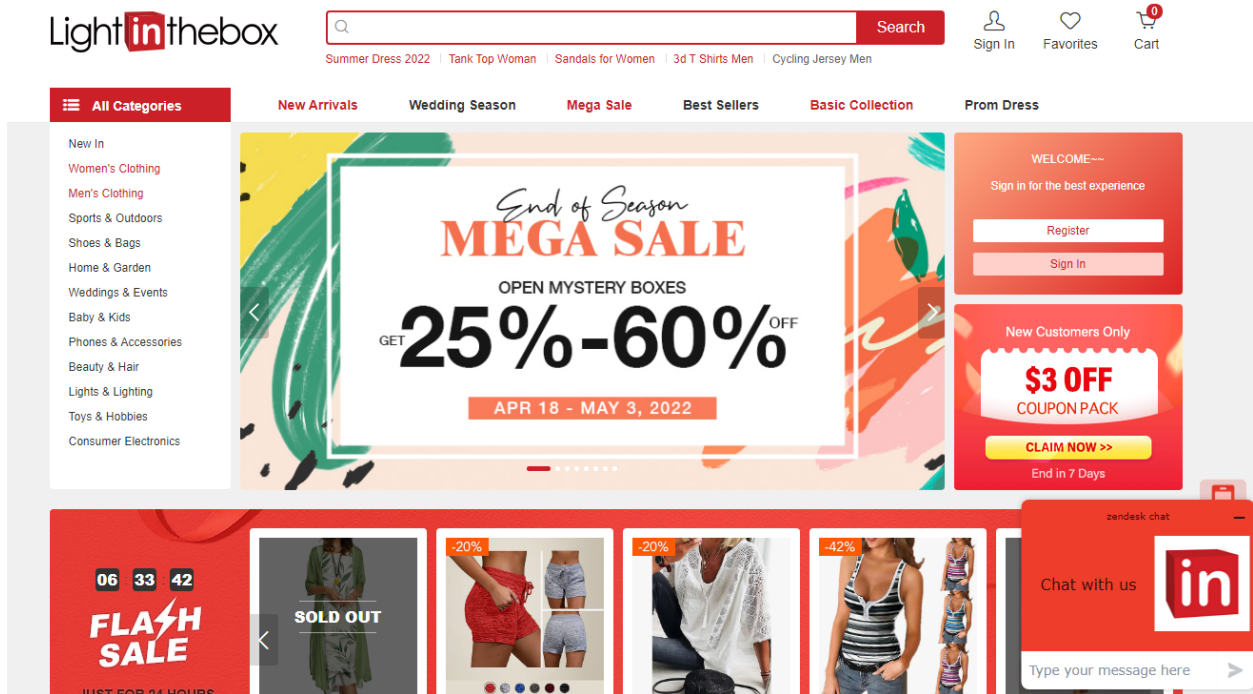

COUNT III - INFRINGEMENT OF U.S. PATENT NO. 7,640,517

69. Plaintiffs incorporate and reallege the preceding paragraphs as if fully set forth herein.

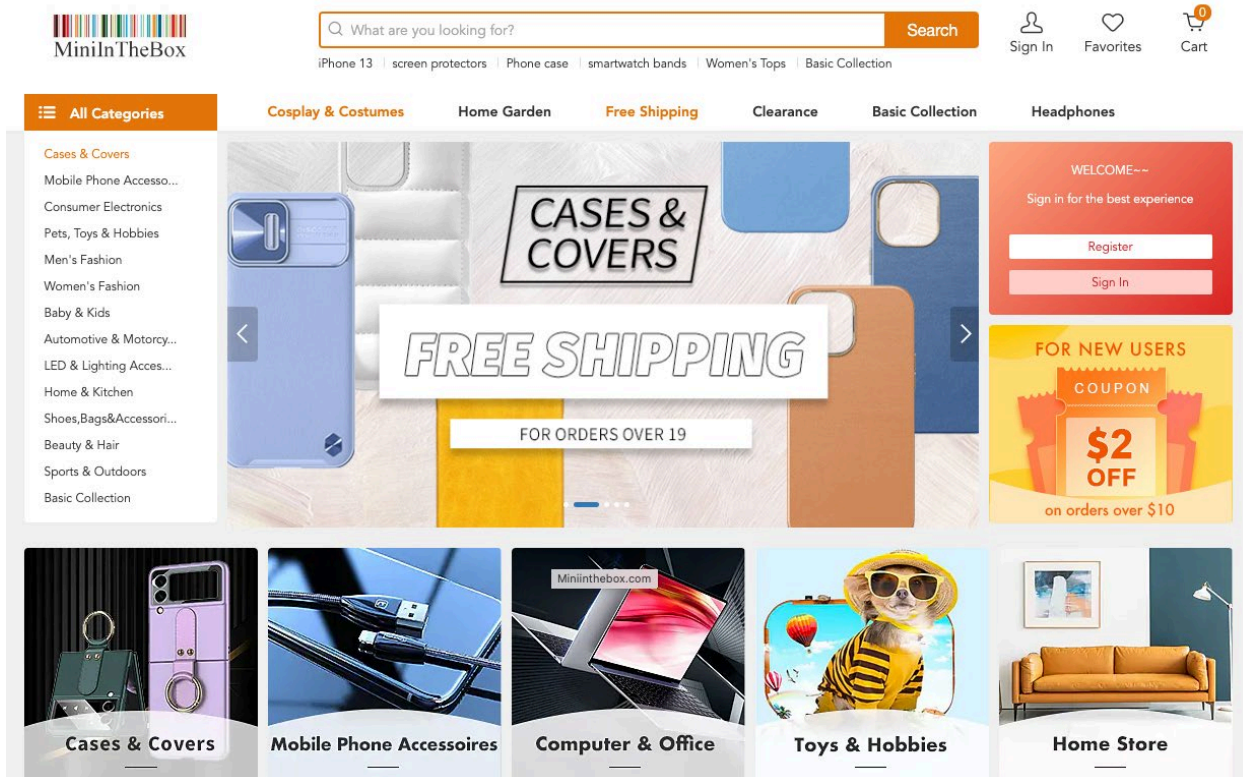

70. The '517 Patent is directed to systems and methods for navigating within a hierarchical menu structure, as described and claimed in the '517 Patent.

71. Defendants have and continue to directly infringe at least Claim 1 of the '517 Patent, in this judicial District and elsewhere in the United States, pursuant to 35 U.S.C. § 271(a), literally or under the doctrine of equivalents, by, among other things, by making, using, selling, offering to sell, and/or importing in or into the United States, without authority: (i) web pages and content to be interactively presented in browsers, including, without limitation, the web pages and content accessible via <https://www.lightinthebox.com/> and <https://www.miniinthebox.com> (and all sub-web pages) and maintained on servers located in and/or accessible from the United States under the control of Defendants; (ii) software,

including, without limitation, software that allows content to be interactively presented in and/or served to browsers; (iii) computer equipment, including, without limitation, computer equipment that stores, serves, and/or runs any of the foregoing or that allows navigating within a hierarchical menu structure, where each level in the menu contains plural items (hereinafter, the “517 Accused Instrumentalities”) as shown below:

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022); see also <https://www.miniinthebox.com> (last visited May 2, 2022):

72. Because the accused instrumentalities (<https://www.lightinthebox.com/> and <https://www.miniinthebox.com>) operate the same way in the context of the accused functionalities, Plaintiffs will provide the following examples from www.lightinthebox.com to demonstrate how both Defendants' accused instrumentalities infringe the '517 Patent.

73. By way of example, the '517 Accused Instrumentalities provide a method for navigating within a hierarchical menu structure where each level in the menu contains plural items as shown below:

The screenshot shows the Light in the Box website interface. At the top, there is a search bar and navigation links for 'Sign In', 'Favorites', and 'Cart'. Below the search bar, there are several promotional banners: 'Summer Dress 2022', 'Tank Top Woman', 'Sandals for Women', '3d T Shirts Men', and 'Cycling Jersey Men'. The main navigation bar includes 'All Categories', 'New Arrivals', 'Wedding Season', 'Mega Sale', 'Best Sellers', 'Basic Collection', and 'Prom Dress'. The 'All Categories' menu is expanded, showing a list of categories such as 'New In', 'Women's Clothing', 'Men's Clothing', 'Sports & Outdoors', 'Shoes & Bags', 'Home & Garden', 'Weddings & Events', 'Baby & Kids', 'Phones & Accessories', 'Beauty & Hair', 'Lights & Lighting', 'Toys & Hobbies', and 'Consumer Electronics'. The 'Women's Clothing' category is selected, and the main content area displays a grid of sub-categories: 'Women's Dresses', 'Women's Tops', 'Women's Outerwear', 'Plus Size Collection', 'Sweaters & Cardigans', 'Women's Sleep & Lounge', 'Women's Swimwear', 'Women's Bottoms', and 'Women's Jumpsuits & Rompers'. A 'FLASH SALE' banner is visible at the bottom left, and a chat window is at the bottom right.

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022).

74. More specifically, the '517 Accused Instrumentalities provide a graphical user menu system displaying the items of a given level and enabling selection thereof (e.g., “All Categories” displays and enables selection of items of a given level, such as “Women’s Clothing” and items within that same level), wherein access of said given level requires sequential access of each of the levels preceding said given level in the hierarchy (e.g., to access “Women’s Clothing,” “All Categories” is accessed first; similarly, to access “Women’s Dresses” “Women’s Clothing” is accessed first); and constructing an Active Path as a sequence of hierarchical active links as items are selected using the graphical user menu system (e.g., the '517 Accused Instrumentalities construct an active path (e.g., “Home—Women’s Clothing—Women’s Dresses”) as a sequence of hierarchical active links as items are selected (e.g., as “Women’s Clothing” and “Women’s Dresses” are selected)), with one said active link

corresponding to each of the items selected, each said active link providing direct access to the hierarchical level from which the corresponding item was selected without using said graphical user menu system (e.g., the '517 Accused Instrumentalities' active path "Home—Women's Clothing—Women's Dresses" corresponds to each of the items selected, including "Women's Clothing" and "Women's Dresses" each link providing direct access to the hierarchical level from which "Women's Clothing" or "Women's Dresses" was selected without using Defendants' graphical user menu system) as shown below:

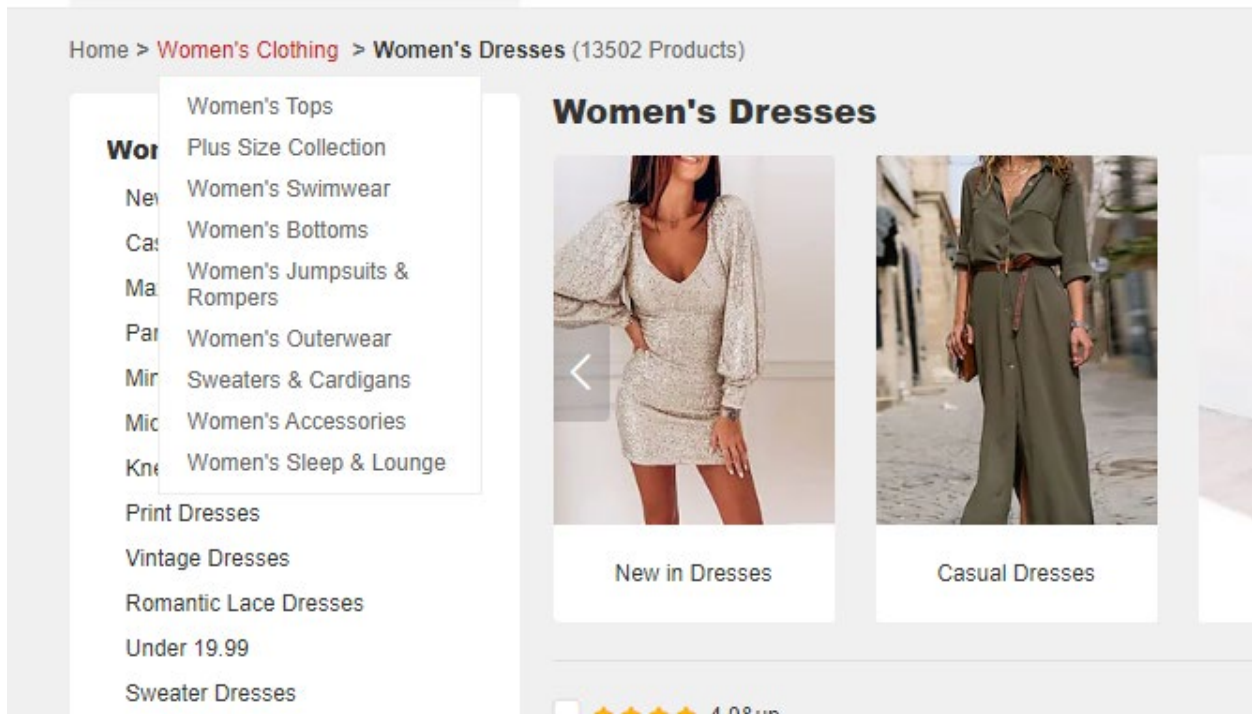

See, e.g., https://www.lightinthebox.com/c/women-s-dresses_4711?prm=1.1.51.0 (last visited May 2, 2022).

75. Also, the '517 Accused Instrumentalities display the Active Path as an alternative to the graphical user menu system for navigating the menu structure after the user has finished selecting items using the graphical user system such that the Active Path is displayed (e.g., the '517 Accused Instrumentalities display the Active Path as an alternative to Defendants' graphical user menu system for navigating the menu structure after the user has finished selecting items, such as "Women's Clothing" and "Women's Dresses" using LightInTheBox 's graphical user menu system such that LightInTheBox 's Active Path is displayed) as shown below:

See, e.g., https://www.lightinthebox.com/c/women-s-dresses_4711?prm=1.1.51.0 (last visited May 2, 2022).

76. On information and belief, in the '517 Accused Instrumentalities, rolling over a given active link with the pointer of a pointing device triggers the display of menu items on the hierarchical level associated with said given active link without disturbing the displayed Active Path (e.g., the '517 Accused Instrumentalities allow rolling over the link "Women's Clothing" with a mouse to trigger the display of menu items on the hierarchical level associated with "Women's Clothing" such as "Women's Dresses," "Women's Tops," "Plus Size Collection," "Women's Swimwear," "Women's Bottoms," "Women's Jumpsuits and Rompers," "Women's Outerwear," "Sweaters & Cardigans," "Women's Accessories," and "Women's Jumpsuits & Rompers" without disturbing the displayed Active Path "Home—Women's Clothing—Women's Dresses") as shown below:

See, e.g., https://www.lightinthebox.com/c/women-s-dresses_4711?prm=1.1.51.0 (last visited May 2, 2022).

77. Discovery is expected to uncover the full extent of Defendants' infringement of the '517 Patent beyond the '517 Accused Instrumentalities already identified through public information.

78. Upon information and belief, Defendants have induced and continue to induce others to infringe at least Claim 1 of the '517 Patent under 35 U.S.C. § 271(b) by, among other things, and with specific intent or willful blindness, actively aiding and abetting others to infringe, including but not limited to Defendants' new, current, and prospective users, partners, customers and other third parties, whose use of the '517 Accused Instrumentalities constitutes direct infringement of at least Claim 1 of the '517 Patent.

79. In particular, Defendants' actions that aid and abet others such as its new, current, and prospective users, partners, customers and third parties to infringe include advertising the '517 Accused Instrumentality. On information and belief, Defendants have engaged in such actions with specific intent to cause infringement or with willful blindness to the resulting infringement because Defendants have had actual knowledge of the '517 Patent and knowledge that its acts were inducing infringement of the '517 Patent since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) that such activities infringed the '517 Patent.

80. Defendants' acts of inducement include, without limitation: providing the '517 Accused Instrumentalities to its new, current, and prospective users, partners, and customers, and other third parties and intending them to use the '517 Accused Instrumentalities that enable and/or make use of content published therein; encouraging customers and other third parties to

communicate directly with Defendants' representatives about the '517 Accused Instrumentalities and content published therein for purposes of technical assistance as well as sales and marketing (see, e.g., <https://www.lightinthebox.com/r/contact-us.html> (providing consumers with a technical support portal through which technical issues and concerns regarding the '517 Accused Instrumentalities can be addressed); see, e.g., <https://www.lightinthebox.com/r/contact-us.html> (providing contact information for technical support regarding the '517 Accused Instrumentalities); see also <https://www.facebook.com/lightinthebox> (encouraging customers and third parties to use the '517 Accused Instrumentalities to access content published therein (e.g., providing the URL (https://www.lightinthebox.com/en/p/women-s-high-waist-yoga-pants-yoga-leggings-tights-bottoms-tummy-control-butt-lift-quick-dry-snakeskin-yellow-red-spandex-yoga-fitness-gym-workout-sum_p8718883.html?litb_from=HCX_ybn1&utm_source=sns&utm_content=boost&utm_medium=HCX_ybn1&utm_campaign=main&litb_from=fb_post&utm_source=SNS&utm_content=boost&utm_medium=facebook_litb_en&utm_campaign=Main) to a "Yoga Leggings & Tights" webpage that can be accessed using the Accused Instrumentalities)); see also <https://twitter.com/lightinthebox?lang=en>, <https://www.youtube.com/lightinthebox>, and <https://www.instagram.com/lightinthebox/?hl=en> (Defendants' social media accounts promoting the use of the '517 Accused Instrumentalities through which various media content can be accessed); and providing press releases and news articles encouraging customers and the other third parties to use the '517 Accused Instrumentalities to access content (for example, providing the URL (www.lightinthebox.com) to the "LightInTheBox" main webpage that can be accessed using the '517 Accused Instrumentalities).

81. Defendants performed acts of inducement despite its actual knowledge since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) and its knowledge that the specific actions it actively induced and continue to actively induce on the part of its users, partners, and customers, and other third parties constitute infringement of the '517 Patent. At the very least, because Defendants have been, and remain, on notice of the '517 Patent and the accused infringement, they have been, and remain, willfully blind regarding the infringement that it has induced and continue to induce.

82. On information and belief, Defendants have contributed to, and continues to contribute to, infringement of at least Claim 1 of the '517 Patent pursuant to 35 U.S.C. § 271(c) by providing the '517 Accused Instrumentalities that have contributed, and continue to contribute, to the direct infringement of new, current, and prospective users, partners, customers and other third parties with the knowledge (at least as of December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter)) that the '517 Accused Instrumentalities are especially made or adapted for use in an infringement of the '517 Patent. For example, by providing the web pages, software, and computer equipment identified above, Defendants contribute to the direct infringement of users of said web pages, software, and computer equipment. The '517 Accused Instrumentalities are material components or apparatuses for use in practicing the '517 Patent and are not staple articles of commerce suitable for substantial non-infringing use.

83. For example, the '517 Accused Instrumentalities provide a graphical user menu system through which a user can navigate within a multi-level hierarchical information structure according to the claimed invention(s). Defendants supplied, and continue to supply, the '517 Accused Instrumentalities, or components or apparatuses thereof, with the knowledge of the '517

Patent and with the knowledge that these components or apparatuses constitute critical and material parts of the claimed inventions of the '517 Patent. Moreover, Defendants know at least by virtue of its knowledge of its own products and services and the '517 Patent that the '517 Accused Instrumentalities are especially made and/or especially adapted for use as claimed in the '517 Patent and there is no substantial non-infringing use of the '517 Accused Instrumentalities, or components or apparatuses thereof.

84. Defendants have directly and indirectly infringed the '517 Patent and are thus liable for infringement of the '517 Patent pursuant to 35 U.S.C. § 271.

85. Plaintiffs have suffered, and continue to suffer, damages as a result of Defendants' infringement of the '517 Patent.

86. Defendants have continued to infringe the '517 Patent since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) despite being on notice of the '517 Patent and its infringement. Defendants have therefore infringed the '517 Patent knowingly, willfully, deliberately, and in disregard of Plaintiffs' patent rights since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) at least by infringing with actual knowledge of its direct and indirect infringement or while remaining willfully blind to the fact of its direct and indirect infringement. As a result of at least this conduct, Plaintiffs are entitled to enhanced damages under 35 U.S.C. § 284 and to attorneys' fees and costs under 35 U.S.C. § 285.

87. Plaintiffs reserve the right to modify its infringement theories as discovery progresses in this case. Plaintiffs shall not be estopped for purposes of its infringement contentions or its claim constructions by the foregoing discussions on how the '517 Accused Instrumentalities infringe the '517 Patent. Plaintiffs intend only that the foregoing discussions

satisfy the notice requirements of Rule 8(a)(2) of the Federal Rule of Civil Procedure, and that they should not be construed as Plaintiffs' preliminary or final infringement contentions or preliminary or final claim construction positions.

COUNT IV - INFRINGEMENT OF U.S. PATENT NO. 7,725,836

88. Plaintiffs incorporate and reallege the preceding paragraphs as if fully set forth herein.

89. The '836 Patent is directed to systems and methods for navigating within a multi-level hierarchical information structure, as described and claimed in the '836 Patent.

90. Defendants have and continue to directly infringe at least Claim 1 of the '836 Patent, in this judicial District and elsewhere in the United States, pursuant to 35 U.S.C. § 271(a), literally or under the doctrine of equivalents, by, among other things, by making, using, selling, offering to sell, and/or importing in or into the United States, without authority: (i) web pages and content to be interactively presented in browsers, including, without limitation, the web pages and content accessible via <https://www.lightinthebox.com/> and <https://www.miniinthebox.com> (and all sub-web pages) and maintained on servers located in and/or accessible from the United States under the control of Defendants; (ii) software, including, without limitation, software that allows content to be interactively presented in and/or served to browsers; (iii) computer equipment, including, without limitation, computer equipment that stores, serves, and/or runs any of the foregoing or that allows navigating within a multi-level hierarchical information structure where each level in the menu contains plural items, each said item being at least one of a function, a pointer to a location, and a pointer to another level (hereinafter, the "'836 Accused Instrumentalities") as shown below:

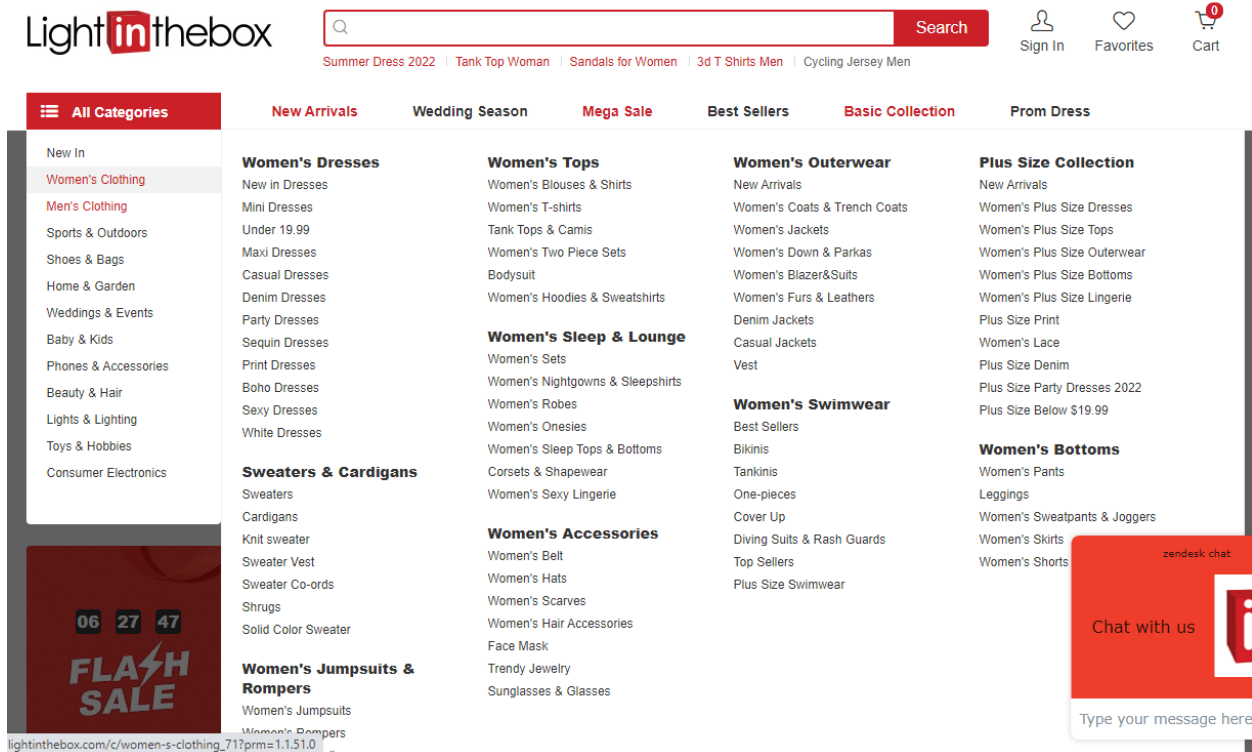

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022); see also

<https://www.miniinthebox.com> (last visited May 2, 2022):

91. Because the accused instrumentalities (<https://www.lightinthebox.com/> and <https://www.miniinthebox.com>) operate the same way in the context of the accused functionalities, Plaintiffs will provide the following examples from www.lightinthebox.com to demonstrate how both Defendants' accused instrumentalities infringe the '836 Patent.

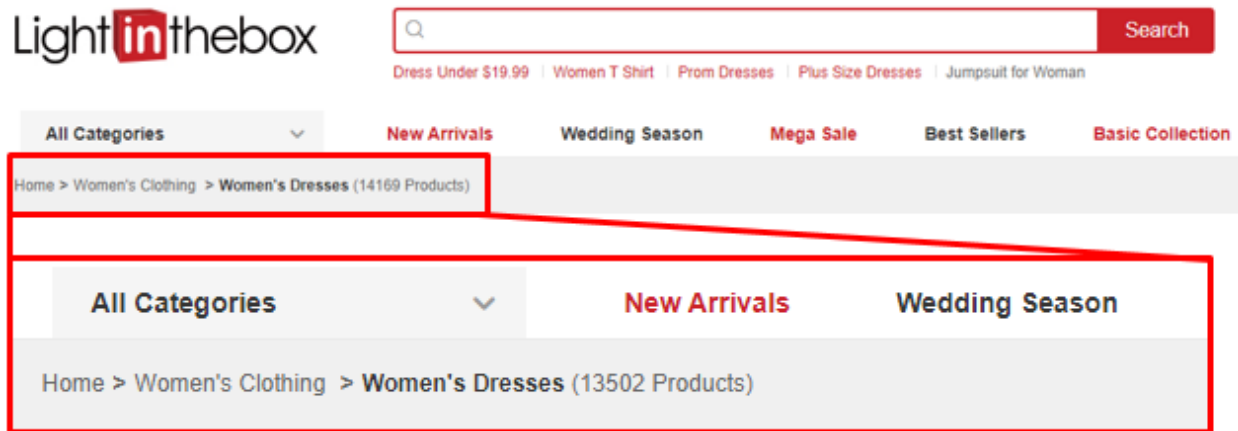

92. By way of example, the '836 Accused Instrumentalities provide a method for navigating within a multi-level hierarchical information structure where each level in the menu contains plural items as shown below:

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022).

93. More specifically, the '836 Accused Instrumentalities provide a graphical user menu system displaying the items of a given level of the hierarchical information structure and enabling selection thereof (e.g., “All Categories” displays and enables selection of items of a given level, such as “Women’s Clothing” and items within that same level); and constructing an

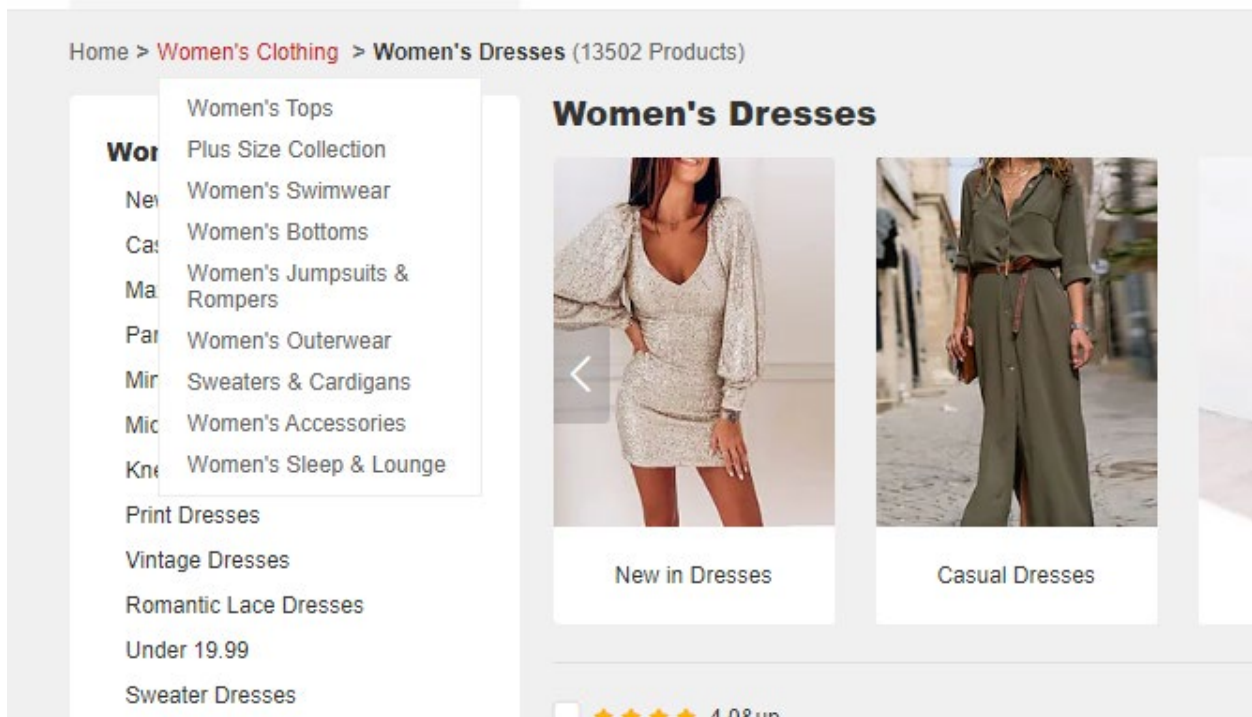

Active Path as a sequence of active links as the user navigates the information structure using the graphical user menu system (e.g., the '836 Accused Instrumentalities construct an active path (e.g., “Home—Women’s Clothing—Women’s Dresses”) as a sequence of active links as the user navigates the information structure using the graphical user menu system (e.g., as “Women’s Clothing” and “Women’s Dresses” are selected)), with one said active link corresponding to each of the hierarchical levels accessed by the user, said active links providing direct access to one of a function, corresponding level and menu item without the need to navigate using said graphical user menu system (e.g., the '836 Accused Instrumentalities’ active path “Women’s Clothing—Women’s Dresses” corresponds to each of the hierarchical levels accessed by the user, including “Women’s Clothing” and “Women’s Dresses,” and each link providing direct access to one of a function, corresponding level and menu item without the need to navigate using said graphical user menu system) as shown below:

See, e.g., https://www.lightinthebox.com/c/women-s-dresses_4711?prm=1.1.51.0 (last visited May 2, 2022).

94. Also, in the '836 Accused Instrumentalities, a given said active link enables the user to browse items of the hierarchical information structure starting from the level corresponding with the given active link and items on hierarchically subordinate levels without

affecting the Active Path (e.g., the '836 Accused Instrumentalities enable the user to browse items of the hierarchical information structure starting from “Women’s Clothing” and items on subordinate levels such as “Women’s Dresses,” “Women’s Tops,” “Plus Size Collection,” “Women’s Swimwear,” “Women’s Bottoms,” “Women’s Jumpsuits and Rompers,” “Women’s Outerwear,” “Sweaters & Cardigans,” “Women’s Accessories,” and “Women’s Jumpsuits & Rompers” without affecting the active path “Home—Women’s Clothing—Women’s Dresses”) as shown below:

See, e.g., https://www.lightinthebox.com/c/women-s-dresses_4711?prm=1.1.51.0 (last visited May 2, 2022).

95. Discovery is expected to uncover the full extent of Defendants’ infringement of the '836 Patent beyond the '836 Accused Instrumentalities already identified through public information.

96. Upon information and belief, Defendants have induced and continue to induce others to infringe at least Claim 1 of the '836 Patent under 35 U.S.C. § 271(b) by, among other things, and with specific intent or willful blindness, actively aiding and abetting others to infringe, including but not limited to Defendants' new, current, and prospective users, partners, customers and other third parties, whose use of the '836 Accused Instrumentalities constitutes direct infringement of at least Claim 1 of the '836 Patent.

97. In particular, Defendants' actions that aid and abet others such as its new, current, and prospective users, partners, customers and third parties to infringe include advertising the '836 Accused Instrumentality. On information and belief, Defendants have engaged in such actions with specific intent to cause infringement or with willful blindness to the resulting infringement because Defendants have had actual knowledge of the '836 Patent and knowledge that its acts were inducing infringement of the '836 Patent since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) that such activities infringed the '836 Patent.

98. Defendants' acts of inducement include, without limitation: providing the '836 Accused Instrumentalities to its new, current, and prospective users, partners, and customers, and other third parties and intending them to use the '836 Accused Instrumentalities that enable and/or make use of content published therein; encouraging customers and other third parties to communicate directly with Defendants' representatives about the '836 Accused Instrumentalities and content published therein for purposes of technical assistance as well as sales and marketing (see, e.g., <https://www.lightinthebox.com/r/contact-us.html> (providing consumers with a technical support portal through which technical issues and concerns regarding the '836 Accused Instrumentalities can be addressed); see, e.g., <https://www.lightinthebox.com/r/contact-us.html>

99. Defendants performed acts of inducement despite its actual knowledge since at least December 2, 2021 (the date on which Defendant received Plaintiffs’ notice letter) and its knowledge that the specific actions it actively induced and continue to actively induce on the part of its users, partners, and customers, and other third parties constitute infringement of the '836 Patent. At the very least, because Defendants have been, and remain, on notice of the '836

Patent and the accused infringement, they have been, and remain, willfully blind regarding the infringement that it has induced and continue to induce.

100. On information and belief, Defendants have contributed to, and continues to contribute to, infringement of at least Claim 1 of the '836 Patent pursuant to 35 U.S.C. § 271(c) by providing the '836 Accused Instrumentalities that have contributed, and continue to contribute, to the direct infringement of new, current, and prospective users, partners, customers and other third parties with the knowledge (at least as of December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter)) that the '836 Accused Instrumentalities are especially made or adapted for use in an infringement of the '836 Patent. For example, by providing the web pages, software, and computer equipment identified above, Defendants contribute to the direct infringement of users of said web pages, software, and computer equipment. The '836 Accused Instrumentalities are material components or apparatuses for use in practicing the '836 Patent and are not staple articles of commerce suitable for substantial non-infringing use.

101. For example, the '836 Accused Instrumentalities provide a graphical user menu system through which a user can navigate within a multi-level hierarchical information structure according to the claimed invention(s). Defendants supplied, and continue to supply, the '836 Accused Instrumentalities, or components or apparatuses thereof, with the knowledge of the '836 Patent and with the knowledge that these components or apparatuses constitute critical and material parts of the claimed inventions of the '836 Patent. Moreover, Defendants know at least by virtue of its knowledge of its own products and services and the '836 Patent that the '836 Accused Instrumentalities are especially made and/or especially adapted for use as claimed in the '836 Patent and there is no substantial non-infringing use of these components or apparatuses.

102. Defendants have directly and indirectly infringed the '836 Patent and are thus liable for infringement of the '836 Patent pursuant to 35 U.S.C. § 271.

103. Plaintiffs have suffered, and continue to suffer, damages as a result of Defendants' infringement of the '836 Patent.

104. Defendants have continued to infringe the '836 Patent since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) despite being on notice of the '836 Patent and its infringement. Defendants have therefore infringed the '836 Patent knowingly, willfully, deliberately, and in disregard of Plaintiffs' patent rights since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) at least by infringing with actual knowledge of its direct and indirect infringement or while remaining willfully blind to the fact of its direct and indirect infringement. As a result of at least this conduct, Plaintiffs are entitled to enhanced damages under 35 U.S.C. § 284 and to attorneys' fees and costs under 35 U.S.C. § 285.

105. Plaintiffs reserve the right to modify its infringement theories as discovery progresses in this case. Plaintiffs shall not be estopped for purposes of its infringement contentions or its claim constructions by the foregoing discussions on how the '836 Accused Instrumentalities infringe the '836 Patent. Plaintiffs intend only that the foregoing discussions satisfy the notice requirements of Rule 8(a)(2) of the Federal Rule of Civil Procedure, and that they should not be construed as Plaintiffs' preliminary or final infringement contentions or preliminary or final claim construction positions.

COUNT V - INFRINGEMENT OF U.S. PATENT NO. 8,352,880

106. Plaintiffs incorporate and reallege the preceding paragraphs as if fully set forth herein.

107. The '880 Patent is directed to systems and methods for navigating an information structure, as described and claimed in the '880 Patent.

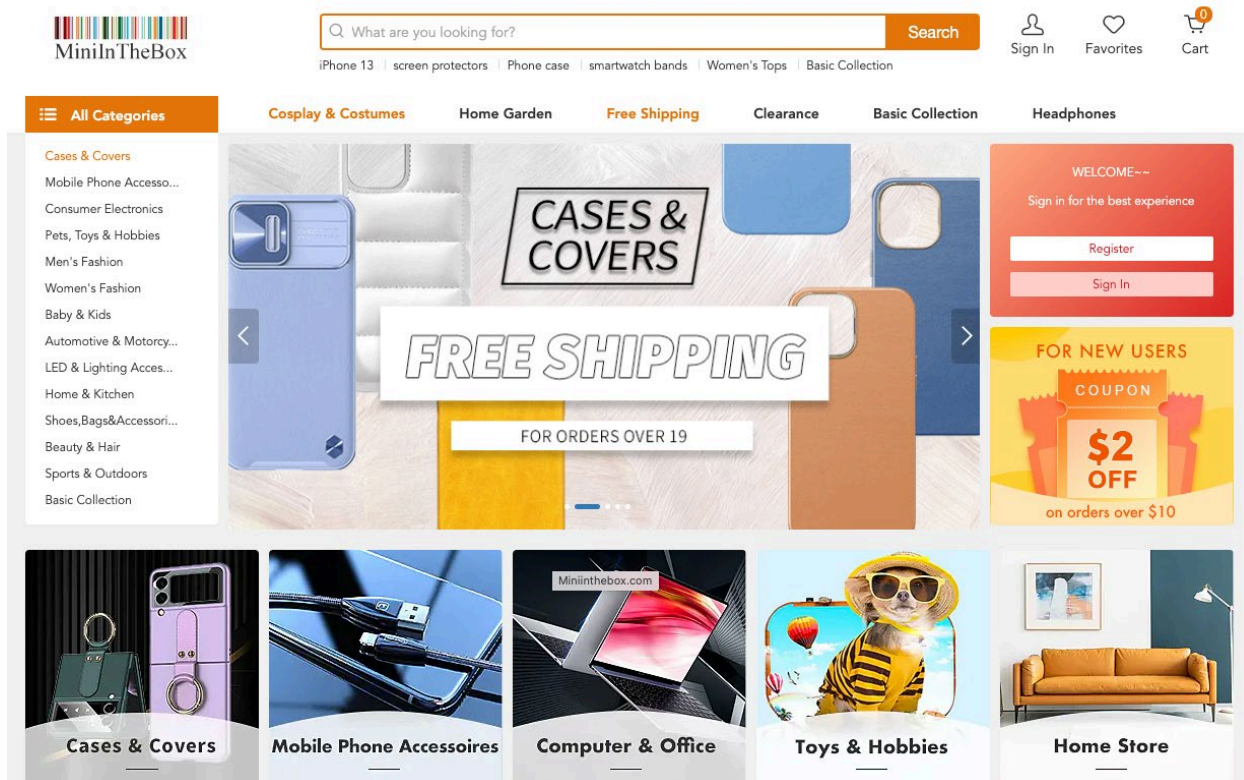

108. The '880 Patent is directed to systems and methods for navigating within a hierarchical menu structure where each level in the menu contains plural items, as described and claimed in the '880 Patent.

109. Defendants have and continue to directly infringe at least Claim 1 of the '880 Patent, in this judicial District and elsewhere in the United States, pursuant to 35 U.S.C. § 271(a), literally or under the doctrine of equivalents, by, among other things, by making, using, selling, offering to sell, and/or importing in or into the United States, without authority: (i) web pages and content to be interactively presented in browsers, including, without limitation, the web pages and content accessible via <https://www.lightinthebox.com/> and <https://www.miniinthebox.com> (and all sub-web pages) and maintained on servers located in and/or accessible from the United States under the control of Defendants; (ii) software, including, without limitation, software that allows content to be interactively presented in and/or served to browsers; (iii) computer equipment, including, without limitation, computer equipment that stores, serves, and/or runs any of the foregoing or that allows navigating an information structure (hereinafter, the "'880 Accused Instrumentalities") as shown below:

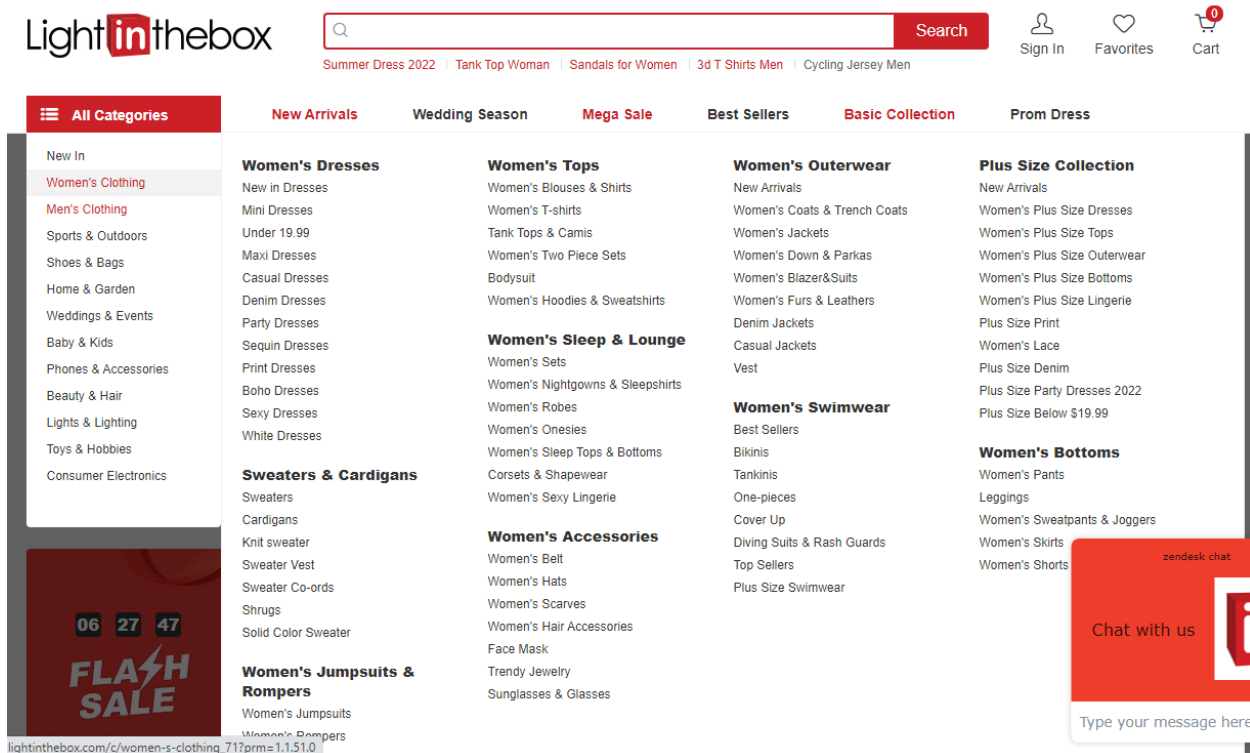

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022); see also

<https://www.miniinthebox.com> (last visited May 2, 2022):

110. Because the accused instrumentalities (<https://www.lightinthebox.com/> and <https://www.miniinthebox.com>) operate the same way in the context of the accused functionalities, Plaintiffs will provide the following examples from www.lightinthebox.com to demonstrate how both Defendants' accused instrumentalities infringe the '880 Patent.

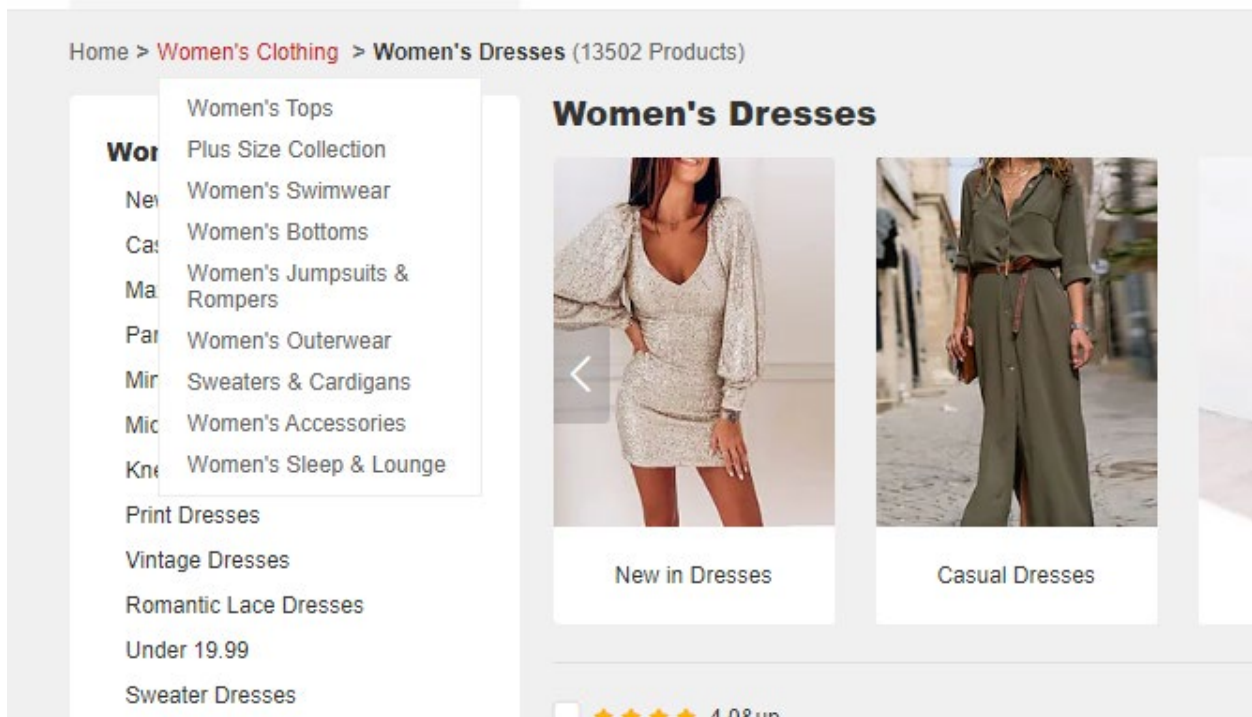

111. By way of example, the '880 Accused Instrumentalities provide a method for navigating an information structure as shown below:

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022).

112. More specifically, the '880 Accused Instrumentalities provide a graphical menu interface displaying the items of a given level of the information structure and enabling selection thereof (e.g., "All Categories" displays and enables selection of items of a given level, such as "Women's Clothing" and items within that same level); and dynamically constructing an Active Path as a sequence of active links as items are selected using the graphical user menu system

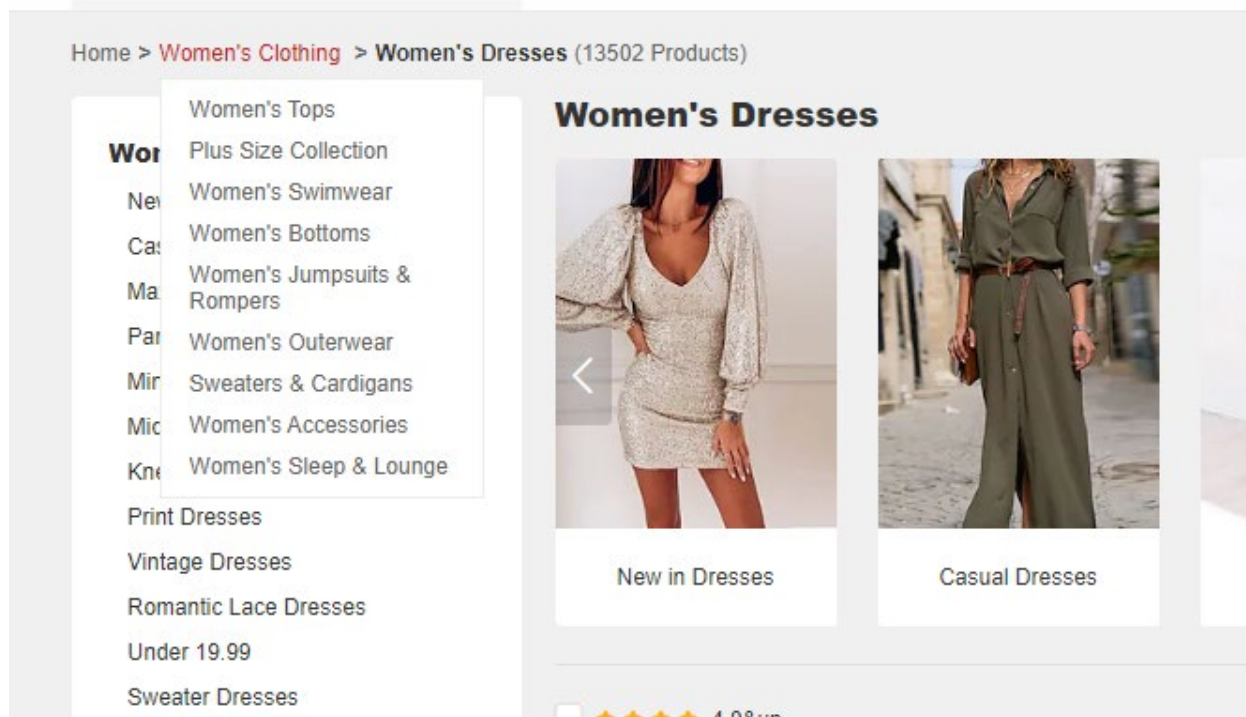

(e.g., the '880 Accused Instrumentalities dynamically construct an active path (e.g., “Home—Women’s Clothing—Women’s Dresses”) as a sequence of active links as items are selected (e.g., as “Women’s Clothing” and “Women’s Dresses” are selected)), upon provisional selection of any active link, displaying one or more items on a given level of information structure without affecting the active path (e.g., the '880 Accused Instrumentalities’ allows for provisional selection of active link “Women’s Clothing” without affecting the “Home—Women’s Clothing—Women’s Dresses” active path) as shown below:

See, e.g., https://www.lightinthebox.com/c/women-s-dresses_4711?prm=1.1.51.0 (last visited May 2, 2022).

113. Also, the active links allow a user to access an item in the information structure by selecting from the one or more items displayed by one of the active links on the active path (e.g., the link “Women’s Clothing” in the active path “Home—Women’s Clothing—Women’s Dresses” allows a user to access an item in the information structure such as “Women’s

Dresses,” “Women’s Tops,” “Plus Size Collection,” “Women’s Swimwear,” “Women’s Bottoms,” “Women’s Jumpsuits and Rompers,” “Women’s Outerwear,” “Sweaters & Cardigans,” “Women’s Accessories,” and “Women’s Jumpsuits & Rompers”) as shown below:

See, e.g., https://www.lightinthebox.com/c/women-s-dresses_4711?prm=1.1.51.0 (last visited May 2, 2022).

114. Discovery is expected to uncover the full extent of Defendants’ infringement of the ’880 Patent beyond the ’880 Accused Instrumentalities already identified through public information.

115. Upon information and belief, Defendants have induced and continue to induce others to infringe at least Claim 1 of the ’880 Patent under 35 U.S.C. § 271(b) by, among other things, and with specific intent or willful blindness, actively aiding and abetting others to infringe, including but not limited to Defendants’ new, current, and prospective users, partners,

customers and other third parties, whose use of the '880 Accused Instrumentalities constitutes direct infringement of at least Claim 1 of the '880 Patent.

116. In particular, Defendants' actions that aid and abet others such as its new, current, and prospective users, partners, customers and third parties to infringe include advertising the '880 Accused Instrumentality. On information and belief, Defendants have engaged in such actions with specific intent to cause infringement or with willful blindness to the resulting infringement because Defendants have had actual knowledge of the '880 Patent and knowledge that its acts were inducing infringement of the '880 Patent since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) that such activities infringed the '880 Patent.

117. Defendants' acts of inducement include, without limitation: providing the '880 Accused Instrumentalities to its new, current, and prospective users, partners, and customers, and other third parties and intending them to use the '880 Accused Instrumentalities that enable and/or make use of content published therein; encouraging customers and other third parties to communicate directly with Defendants' representatives about the '880 Accused Instrumentalities and content published therein for purposes of technical assistance as well as sales and marketing (*see, e.g.*, <https://www.lightinthebox.com/r/contact-us.html> (providing consumers with a technical support portal through which technical issues and concerns regarding the '880 Accused Instrumentalities can be addressed); *see, e.g.*, <https://www.lightinthebox.com/r/contact-us.html> (providing contact information for technical support regarding the '880 Accused Instrumentalities); *see also id.* (providing a community platform for discussing the '880 Accused Instrumentalities or content published therein); *see also* <https://www.facebook.com/lightinthebox> (encouraging customers and third parties to use the '880 Accused Instrumentalities to access

content published therein (e.g., providing the URL (https://www.lightinthebox.com/en/p/women-s-high-waist-yoga-pants-yoga-leggings-tights-bottoms-tummy-control-butt-lift-quick-dry-snakeskin-yellow-red-spandex-yoga-fitness-gym-workout-sum_p8718883.html?litb_from=HCX_ybn1&utm_source=sns&utm_content=boost&utm_medium=HCX_ybn1&utm_campaign=main&litb_from=fb_post&utm_source=SNS&utm_content=boost&utm_medium=facebook_litb_en&utm_campaign=Main) to a “Yoga Leggings & Tights” webpage that can be accessed using the Accused Instrumentalities)); *see also* <https://twitter.com/lightinthebox?lang=en>, <https://www.youtube.com/lightinthebox>, and <https://www.instagram.com/lightinthebox/?hl=en> (Defendants’ social media accounts promoting the use of the ’880 Accused Instrumentalities through which various media content can be accessed); and providing press releases and news articles encouraging customers and the other third parties to use the ’880 Accused Instrumentalities to access content (for example, providing the URL (www.lightinthebox.com) to the “LightInTheBox” main webpage that can be accessed using the ’880 Accused Instrumentalities).

118. Defendants performed acts of inducement despite its actual knowledge since at least December 2, 2021 (the date on which Defendant received Plaintiffs’ notice letter) and its knowledge that the specific actions it actively induced and continue to actively induce on the part of its users, partners, and customers, and other third parties constitute infringement of the ’880 Patent. At the very least, because Defendants have been, and remain, on notice of the ’880 Patent and the accused infringement, they have been, and remain, willfully blind regarding the infringement that it has induced and continue to induce.

119. On information and belief, Defendants have contributed to, and continues to contribute to, infringement of at least Claim 1 of the ’880 Patent pursuant to 35 U.S.C. § 271(c)

by providing the '880 Accused Instrumentalities that have contributed, and continue to contribute, to the direct infringement of new, current, and prospective users, partners, customers and other third parties with the knowledge (at least as of December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter)) that the '880 Accused Instrumentalities are especially made or adapted for use in an infringement of the '880 Patent. For example, by providing the web pages, software, and computer equipment identified above, Defendants contribute to the direct infringement of users of said web pages, software, and computer equipment. The '880 Accused Instrumentalities are material components or apparatuses for use in practicing the '880 Patent and are not staple articles of commerce suitable for substantial non-infringing use.

120. For example, the '880 Accused Instrumentalities provide a graphical user menu system through which a user can navigate an information structure or an apparatus for navigating an information structure according to the claimed invention(s). Defendants supplied, and continue to supply, the '880 Accused Instrumentalities, or components or apparatuses thereof, with the knowledge of the '880 Patent and with the knowledge that these components or apparatuses constitute critical and material parts of the claimed inventions of the '880 Patent. Moreover, Defendants know at least by virtue of its knowledge of its own products and services and the '880 Patent that the '880 Accused Instrumentalities are especially made and/or especially adapted for use as claimed in the '880 Patent and there is no substantial non-infringing use of these components or apparatuses.

121. Defendants have directly and indirectly infringed the '880 Patent and are thus liable for infringement of the '880 Patent pursuant to 35 U.S.C. § 271.

122. Plaintiffs have suffered, and continue to suffer, damages as a result of Defendants' infringement of the '880 Patent.

123. Defendants have continued to infringe the '880 Patent December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter), despite being on notice of the '880 Patent and its infringement. Defendants have therefore infringed the '880 Patent knowingly, willfully, deliberately, and in disregard of Plaintiffs' patent rights December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter), at least by infringing with actual knowledge of its direct and indirect infringement or while remaining willfully blind to the fact of its direct and indirect infringement. As a result of at least this conduct, Plaintiffs are entitled to enhanced damages under 35 U.S.C. § 284 and to attorneys' fees and costs under 35 U.S.C. § 285.

124. Plaintiffs reserve the right to modify its infringement theories as discovery progresses in this case. Plaintiffs shall not be estopped for purposes of its infringement contentions or its claim constructions by the foregoing discussions on how the '880 Accused Instrumentalities infringe the '880 Patent. Plaintiffs intend only that the foregoing discussions satisfy the notice requirements of Rule 8(a)(2) of the Federal Rule of Civil Procedure, and that they should not be construed as Plaintiffs' preliminary or final infringement contentions or preliminary or final claim construction positions.

COUNT VI - INFRINGEMENT OF U.S. PATENT NO. 10,037,127

125. Plaintiffs incorporate and reallege the preceding paragraphs as if fully set forth herein.

126. The '127 Patent is directed to systems and methods for navigating an information structure, as described and claimed in the '127 Patent.

127. The '127 Patent is directed to systems and methods for navigating an information structure, as described and claimed in the '127 Patent.

128. Defendants have and continue to directly infringe at least Claim 14 of the '127 Patent, in this judicial District and elsewhere in the United States, pursuant to 35 U.S.C. § 271(a), literally or under the doctrine of equivalents, by, among other things, by making, using, selling, offering to sell, and/or importing in or into the United States, without authority: (i) web pages and content to be interactively presented in browsers, including, without limitation, the web pages and content accessible via <https://www.lightinthebox.com/> and <https://www.miniinthebox.com> (and all sub-web pages) and maintained on servers located in and/or accessible from the United States under the control of Defendants; (ii) software, including, without limitation, software that allows content to be interactively presented in and/or served to browsers; (iii) computer equipment, including, without limitation, computer equipment that stores, serves, and/or runs any of the foregoing or that allows navigating an information structure (hereinafter, the "'127 Accused Instrumentalities") as shown below:

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022); see also

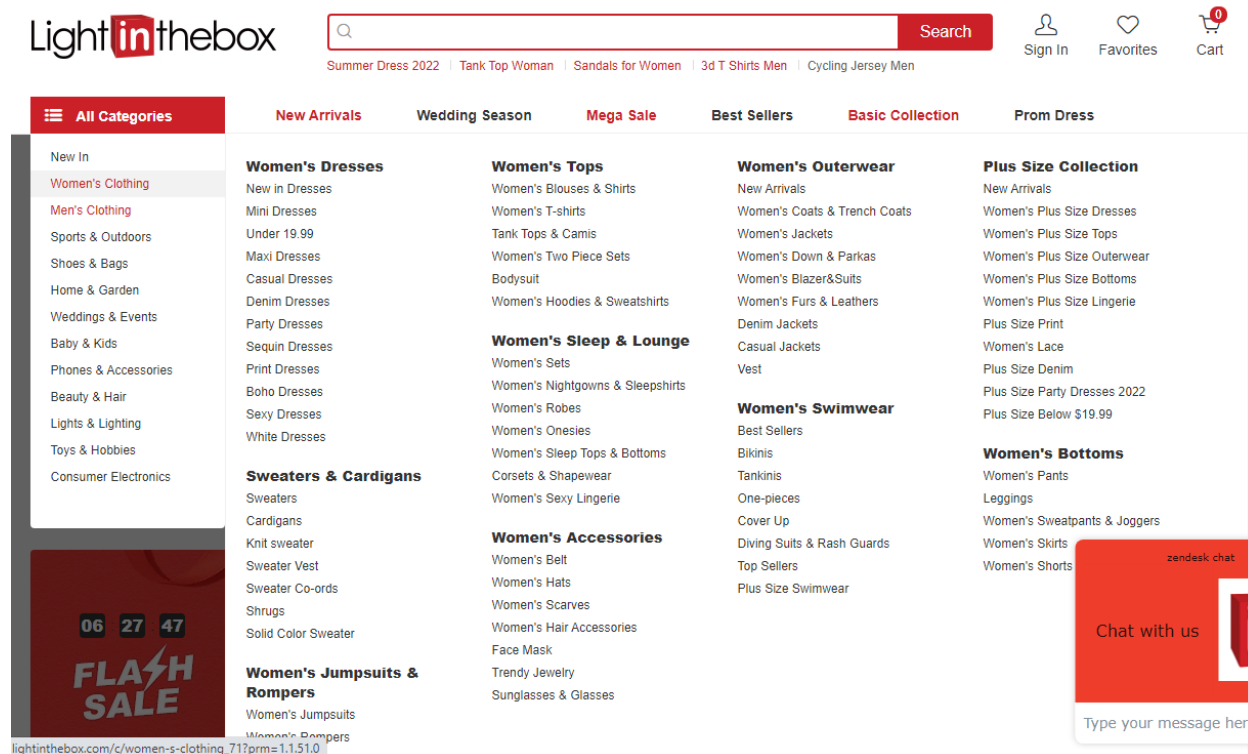

<https://www.miniinthebox.com> (last visited May 2, 2022):

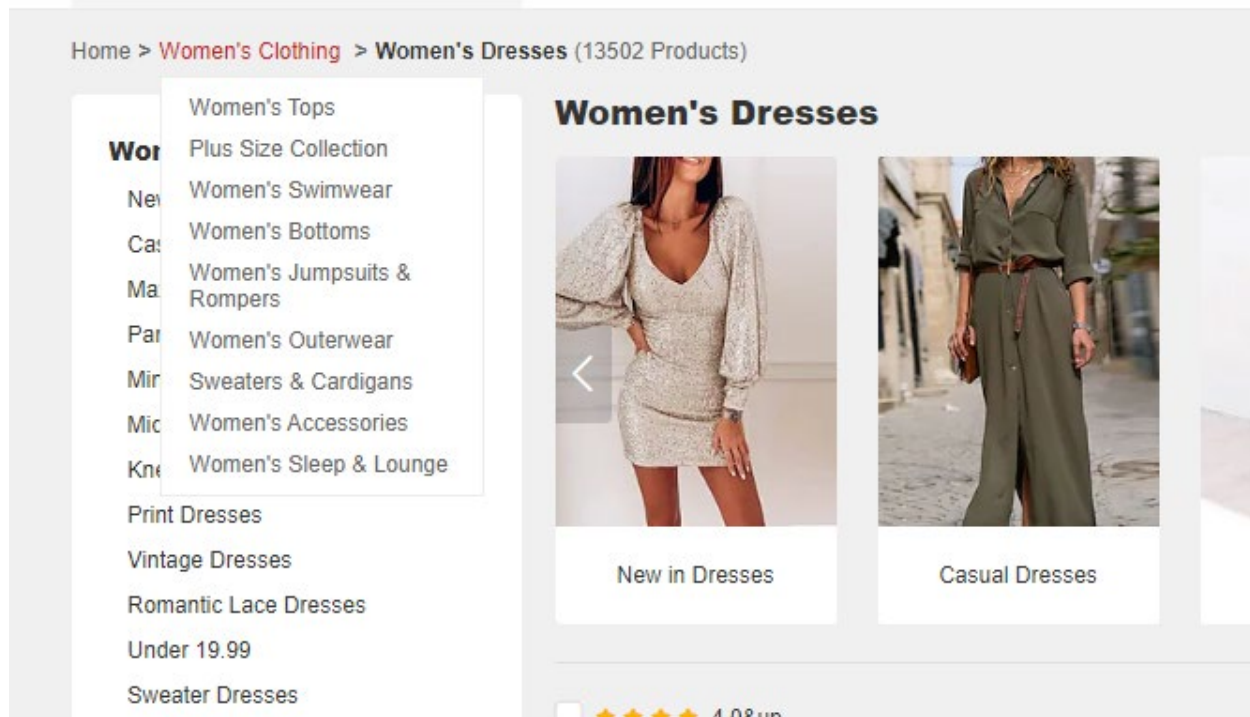

129. Because the accused instrumentalities (<https://www.lightinthebox.com/> and <https://www.miniinthebox.com>) operate the same way in the context of the accused functionalities, Plaintiffs will provide the following examples from www.lightinthebox.com to demonstrate how both Defendants' accused instrumentalities infringe the '127 Patent.

130. By way of an example, the '127 Accused Instrumentalities perform a method for navigating an information structure, comprising providing a graphical menu interface displaying the items of a given level of the information structure and enabling selection thereof (e.g., "All Categories" displays and enables selection of items of a given level, such as "Women's Clothing"); dynamically construct an active path as a sequence of active links after an item of the information structure has been selected (e.g., the '127 Accused Instrumentalities dynamically construct an active path (e.g., "Home—Women's Clothing—Women's Dresses") as a sequence of active links after an item of the information structure has been selected (e.g., as "Women's Clothing" and "Women's Dresses" are selected)); upon provisional selection of a given one of said active links, display one or more items on a given level of the information structure associated with said provisionally selected active link without affecting the active path (e.g., the '127 Accused Instrumentalities displays one or more items under "Women's Clothing" such as "Women's Dresses," "Women's Tops," "Plus Size Collection," "Women's Swimwear," "Women's Bottoms," "Women's Jumpsuits and Rompers," "Women's Outerwear," "Sweaters & Cardigans," "Women's Accessories," and "Women's Jumpsuits & Rompers" without affecting

the active path “Home—Women’s Clothing—Women’s Dresses”) as shown below:

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022);

See, e.g., https://www.lightinthebox.com/c/women-s-dresses_4711?prm=1.1.51.0 (last visited May 2, 2022).

131. On information and belief, in the '127 Accused Instrumentalities allow a user to access an item in the information structure by selecting the item from the one or more items displayed by one of the active links on the active path, wherein a function is associated with at least one of said active links (e.g., the link “Women’s Clothing” in the active path “Home—Women’s Clothing—Women’s Dresses” allows a user to access an item in the information structure such as “Women’s Dresses,” “Women’s Tops,” “Plus Size Collection,” “Women’s Swimwear,” “Women’s Bottoms,” “Women’s Jumpsuits and Rompers,” “Women’s Outerwear,” “Sweaters & Cardigans,” “Women’s Accessories,” and “Women’s Jumpsuits & Rompers” by selecting from the one or more items displayed by “Women’s Clothing” where at least one of the active links is associated with a function such as displaying sibling menus or directing user to certain content) as shown below:

See, e.g., https://www.lightinthebox.com/c/women-s-dresses_4711?prm=1.1.51.0 (last visited May 2, 2022).

132. Discovery is expected to uncover the full extent of Defendants' infringement of the '127 Patent beyond the '127 Accused Instrumentalities already identified through public information.

133. Upon information and belief, Defendants have induced and continue to induce others to infringe at least Claim 14 of the '127 Patent under 35 U.S.C. § 271(b) by, among other things, and with specific intent or willful blindness, actively aiding and abetting others to infringe, including but not limited to Defendants' new, current, and prospective users, partners, customers and other third parties, whose use of the '127 Accused Instrumentalities constitutes direct infringement of at least Claim 14 of the '127 Patent.

134. In particular, Defendants' actions that aid and abet others such as its new, current, and prospective users, partners, customers and third parties to infringe include advertising the

'127 Accused Instrumentality. On information and belief, Defendants have engaged in such actions with specific intent to cause infringement or with willful blindness to the resulting infringement because Defendants have had actual knowledge of the '127 Patent and knowledge that its acts were inducing infringement of the '127 Patent since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) that such activities infringed the '127 Patent.

135. Defendants' acts of inducement include, without limitation: providing the '127 Accused Instrumentalities to its new, current, and prospective users, partners, and customers, and other third parties and intending them to use the '127 Accused Instrumentalities that enable and/or make use of content published therein; encouraging customers and other third parties to communicate directly with Defendants' representatives about the '127 Accused Instrumentalities and content published therein for purposes of technical assistance as well as sales and marketing (see, e.g., <https://www.lightinthebox.com/r/contact-us.html> (providing consumers with a technical support portal through which technical issues and concerns regarding the '127 Accused Instrumentalities can be addressed); see, e.g., <https://www.lightinthebox.com/r/contact-us.html> (providing contact information for technical support regarding the '127 Accused Instrumentalities); see also *id.* (providing a community platform for discussing the '127 Accused Instrumentalities or content published therein); see also <https://www.facebook.com/lightinthebox> (encouraging customers and third parties to use the '127 Accused Instrumentalities to access content published therein (e.g., providing the URL (https://www.lightinthebox.com/en/p/women-s-high-waist-yoga-pants-yoga-leggings-tights-bottoms-tummy-control-butt-lift-quick-dry-snakeskin-yellow-red-spandex-yoga-fitness-gym-workout-sum_p8718883.html?litb_from=HCX_ybn1&utm_source=sns&utm_content=boost&utm_mediu

136. Defendants performed acts of inducement despite its actual knowledge since at least December 2, 2021 (the date on which Defendant received Plaintiffs’ notice letter) and its knowledge that the specific actions it actively induced and continue to actively induce on the part of its users, partners, and customers, and other third parties constitute infringement of the ’127 Patent. At the very least, because Defendants have been, and remain, on notice of the ’127 Patent and the accused infringement, they have been, and remain, willfully blind regarding the infringement that it has induced and continue to induce.

137. On information and belief, Defendants have contributed to, and continues to contribute to, infringement of at least Claim 14 of the ’127 Patent pursuant to 35 U.S.C. § 271(c) by providing the ’127 Accused Instrumentalities that have contributed, and continue to contribute, to the direct infringement of new, current, and prospective users, partners, customers and other third parties with the knowledge (at least as of December 2, 2021 (the date on which Defendant received Plaintiffs’ notice letter)) that the ’127 Accused Instrumentalities are

especially made or adapted for use in an infringement of the '127 Patent. For example, by providing the web pages, software, and computer equipment identified above, Defendants contribute to the direct infringement of users of said web pages, software, and computer equipment. The '127 Accused Instrumentalities are material components or apparatuses for use in practicing the '127 Patent and are not staple articles of commerce suitable for substantial non-infringing use.

138. For example, the '127 Accused Instrumentalities provide a graphical user menu system through which a user can navigate an information structure or an apparatus for navigating an information structure according to the claimed invention(s). Defendants supplied, and continue to supply, the '127 Accused Instrumentalities, or components or apparatuses thereof, with the knowledge of the '127 Patent and with the knowledge that these components or apparatuses constitute critical and material parts of the claimed inventions of the '127 Patent. Moreover, Defendants know at least by virtue of its knowledge of its own products and services and the '127 Patent that the '127 Accused Instrumentalities are especially made and/or especially adapted for use as claimed in the '127 Patent and there is no substantial non-infringing use of these components or apparatuses.

139. Defendants have directly and indirectly infringed the '127 Patent and are thus liable for infringement of the '127 Patent pursuant to 35 U.S.C. § 271.

140. Plaintiffs have suffered, and continue to suffer, damages as a result of Defendants' infringement of the '127 Patent.

141. Defendants have continued to infringe the '127 Patent December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter), despite being on notice of the '127 Patent and its infringement. Defendants have therefore infringed the '127 Patent knowingly, willfully,

deliberately, and in disregard of Plaintiffs' patent rights December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter), at least by infringing with actual knowledge of its direct and indirect infringement or while remaining willfully blind to the fact of its direct and indirect infringement. As a result of at least this conduct, Plaintiffs are entitled to enhanced damages under 35 U.S.C. § 284 and to attorneys' fees and costs under 35 U.S.C. § 285.

142. Plaintiffs reserve the right to modify its infringement theories as discovery progresses in this case. Plaintiffs shall not be estopped for purposes of its infringement contentions or its claim constructions by the foregoing discussions on how the '127 Accused Instrumentalities infringe the '127 Patent. Plaintiffs intend only that the foregoing discussions satisfy the notice requirements of Rule 8(a)(2) of the Federal Rule of Civil Procedure, and that they should not be construed as Plaintiffs' preliminary or final infringement contentions or preliminary or final claim construction positions.

COUNT VII - INFRINGEMENT OF U.S. PATENT NO. 11,182,053

143. Plaintiffs incorporate and reallege the preceding paragraphs as if fully set forth herein.

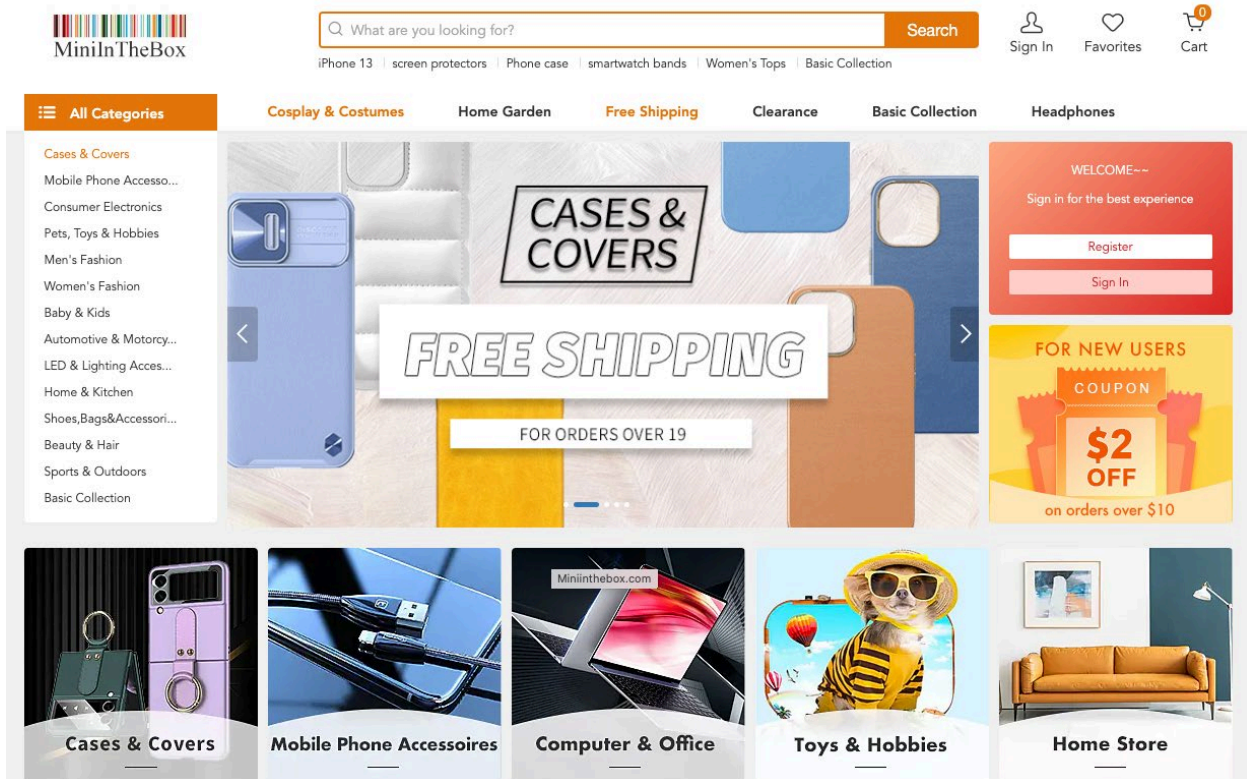

144. The '053 Patent is directed to a method for generating a plurality of graphical menu items for user selection, as described and claimed in the '053 Patent.

145. Defendants have and continue to directly infringe at least Claim 1 of the '053 Patent, in this judicial District and elsewhere in the United States, pursuant to 35 U.S.C. § 271(a), literally or under the doctrine of equivalents, by, among other things, by making, using, selling, offering to sell, and/or importing in or into the United States, without authority: (i) web pages and content to be interactively presented in browsers, including, without limitation, the web pages and content accessible via <https://www.lightinthebox.com/> and

<https://www.miniinthebox.com> (and all sub-web pages) and maintained on servers located in and/or accessible from the United States under the control of Defendants; (ii) software, including, without limitation, software that allows content to be interactively presented in and/or served to browsers; (iii) computer equipment, including, without limitation, computer equipment that stores, serves, and/or runs any of the foregoing or that allows for generating a plurality of graphical menu items for user selection (hereinafter, the “’053 Accused Instrumentalities”) as shown below:

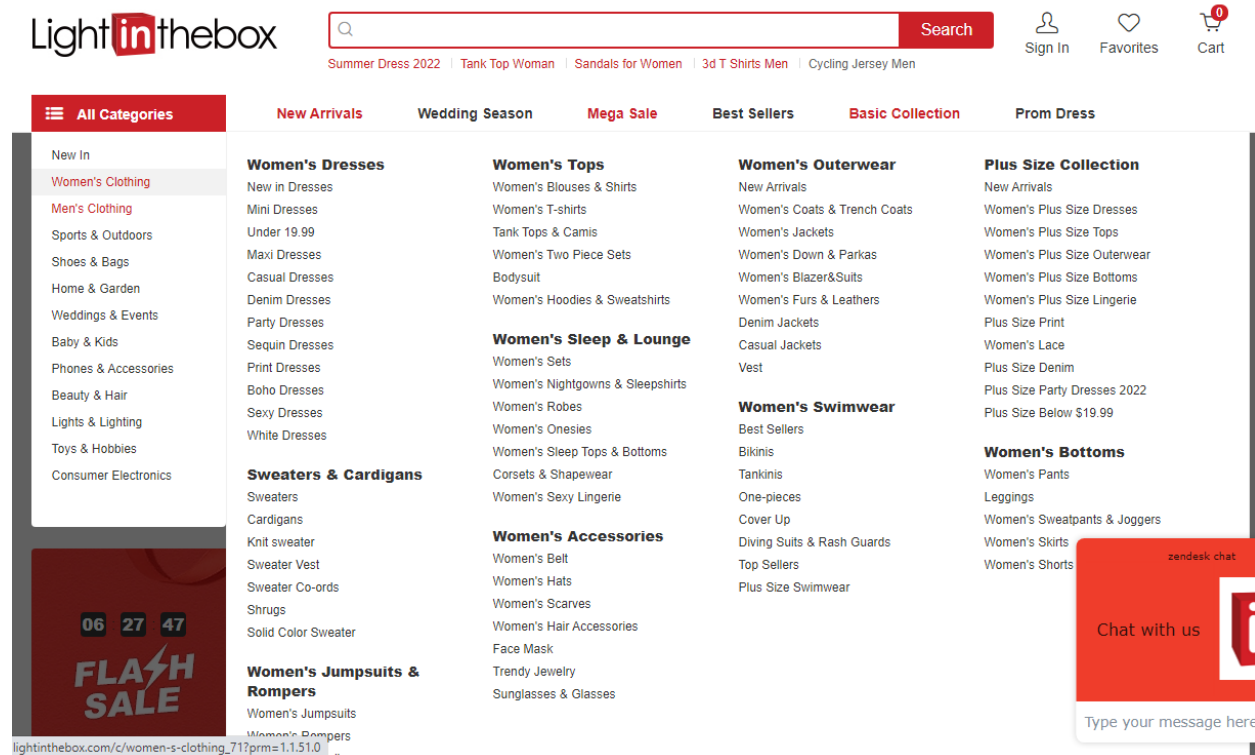

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022); see also <https://www.miniinthebox.com> (last visited May 2, 2022):

146. Because the accused instrumentalities (<https://www.lightinthebox.com/> and <https://www.miniinthebox.com>) operate the same way in the context of the accused functionalities, Plaintiffs will provide the following examples from www.lightinthebox.com to demonstrate how both Defendants' accused instrumentalities infringe the '053 Patent.

147. By way of example, the '053 Accused Instrumentalities provide a method for generating a plurality of graphical menu items for user selection, with each graphical menu item having one or more sibling menu items (e.g., the '053 Accused Instrumentalities provide a method for generating a plurality of graphical menu items for user selection with each graphical menu item having one or more sibling menu items (e.g., "All Categories" for example includes "Women's Clothing," which includes the sibling menu items Women's Dresses," "Women's Tops," "Plus Size Collection," "Women's Swimwear," "Women's Bottoms," "Women's

Jumpsuits and Rompers,” “Women’s Outerwear,” “Sweaters & Cardigans,” “Women’s Accessories,” and “Women’s Jumpsuits & Rompers”)) as shown below:

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022).

148. More specifically, the '053 Accused Instrumentalities provide one or more sibling menu items being on a first hierarchical level, at least one of the sibling menu items having one or more children menu items, the one or more children menu items being on a second hierarchical level different from the first hierarchical level (e.g., “Women’s Clothing” and “Men’s Clothing” are sibling menu items on a first hierarchical level, with “Women’s Clothing” menu item having one or more children menu items such as, Women’s Dresses,” “Women’s Tops,” “Plus Size Collection,” “Women’s Swimwear,” “Women’s Bottoms,” “Women’s Jumpsuits and Rompers,” “Women’s Outerwear,” “Sweaters & Cardigans,” “Women’s Accessories,” and “Women’s Jumpsuits & Rompers”)) as shown below:

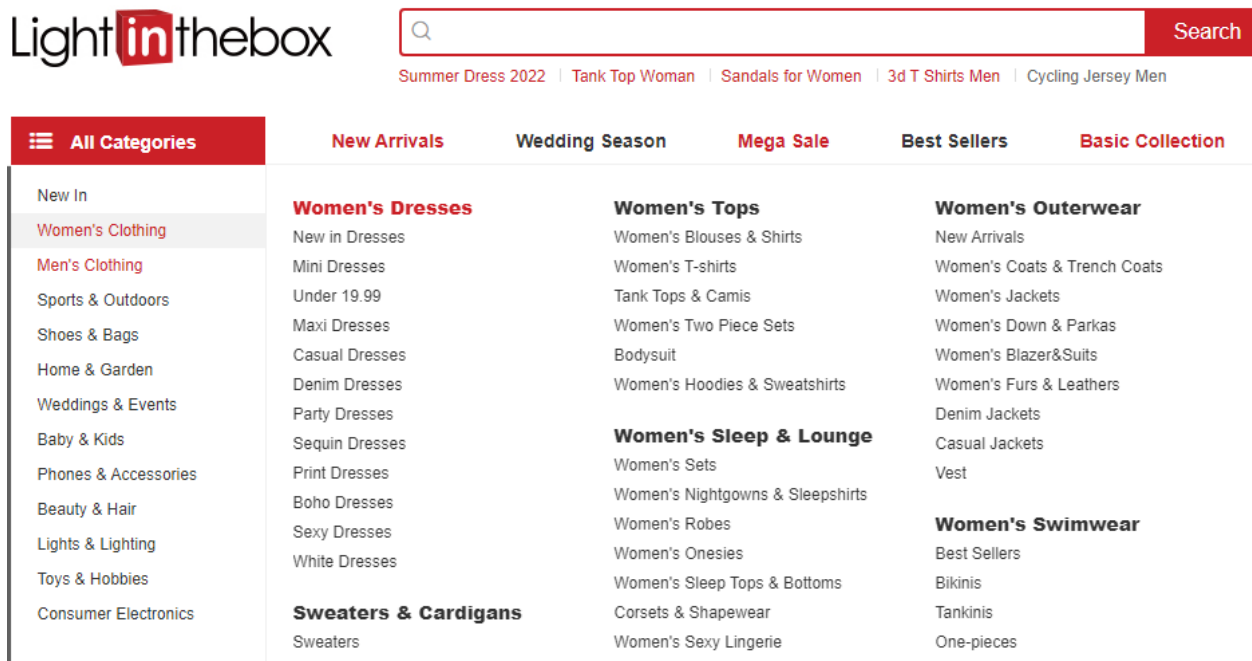

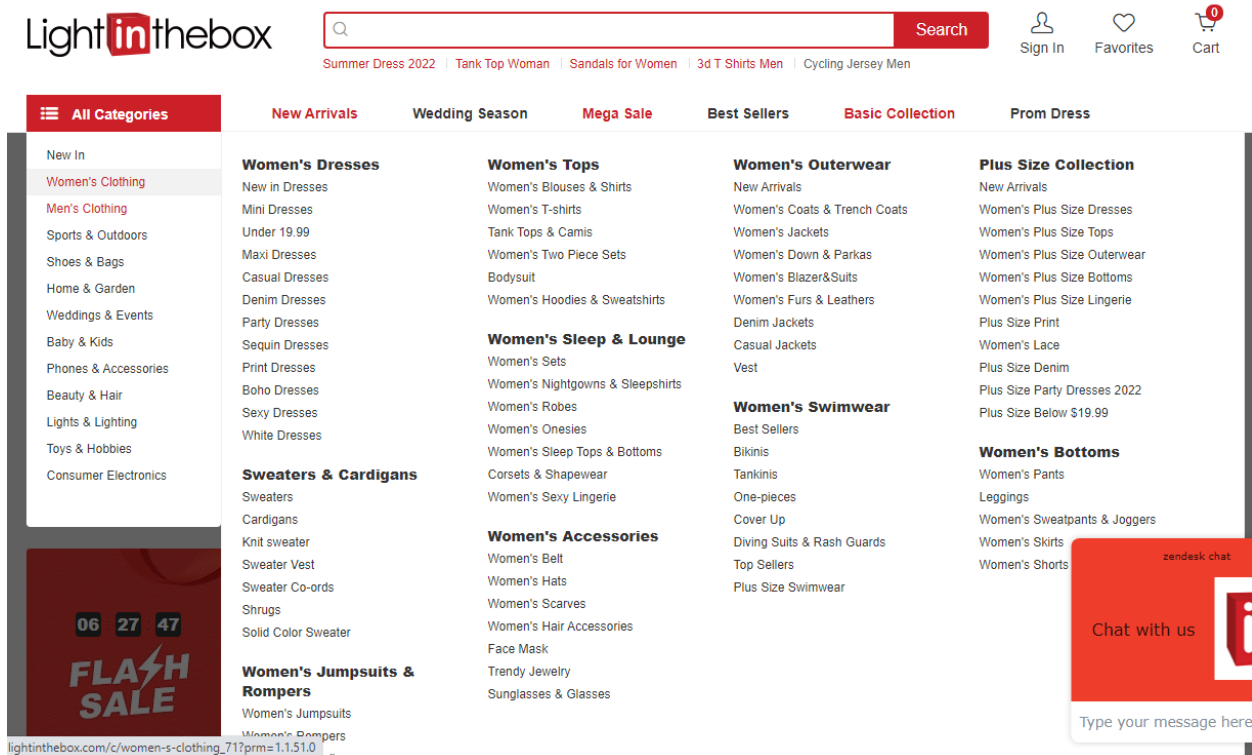

The screenshot shows the Light in the Box website interface. At the top, there is a search bar and navigation links for Sign In, Favorites, and Cart. Below the search bar, there are several promotional banners: Summer Dress 2022, Tank Top Women, Sandals for Women, 3d T Shirts Men, and Cycling Jersey Men. The main navigation bar includes categories like All Categories, New Arrivals, Wedding Season, Mega Sale, Best Sellers, Basic Collection, and Prom Dress. A left sidebar menu lists various product categories such as Women's Clothing, Men's Clothing, Sports & Outdoors, Shoes & Bags, Home & Garden, Weddings & Events, Baby & Kids, Phones & Accessories, Beauty & Hair, Lights & Lighting, Toys & Hobbies, and Consumer Electronics. The main content area is divided into several columns of product categories, including Women's Dresses, Women's Tops, Women's Outerwear, Plus Size Collection, Women's Sleep & Lounge, Women's Swimwear, Women's Bottoms, Sweaters & Cardigans, and Women's Accessories. A 'FLASH SALE' banner is visible at the bottom left, and a 'zendesk chat' widget is at the bottom right.

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022).

149. Also, the '053 Accused Instrumentalities provide a method for receiving user input selecting one or more of the graphical, sibling, or children menu items, wherein receiving user input includes receiving user input selecting one or more of the graphical, sibling, or children menu items in a sequence (e.g., receiving user input to select the sibling menu item “Women’s Clothing,” or the children menu item “Women’s Dresses”), wherein receiving user input includes receiving user input selecting one or more of the graphical sibling, or children menu items in a sequence, and includes receiving user input selecting a graphical user menu item of the one or more graphical menu items followed by a sibling menu item of the one or more sibling menu item and subsequently a children menu item of the one or more sibling menu items (e.g., where the graphical menu item for “All Categories” is accessed first; similarly, receiving user input to select the sibling menu item “Women’s Clothing,” where “All Categories” is

accessed first, followed by accessing “Women’s Clothing” in the sequence, and then receiving user input to select the children menu item “Women’s Dresses,” “Women’s Tops,” “Plus Size Collection,” “Women’s Swimwear,” “Women’s Bottoms,” “Women’s Jumpsuits and Rompers,” “Women’s Outerwear,” “Sweaters & Cardigans,” “Women’s Accessories,” and/pr “Women’s Jumpsuits & Rompers,” all of which are accessed after “All Categories” and “Women’s Clothing” in the sequence), as shown below:

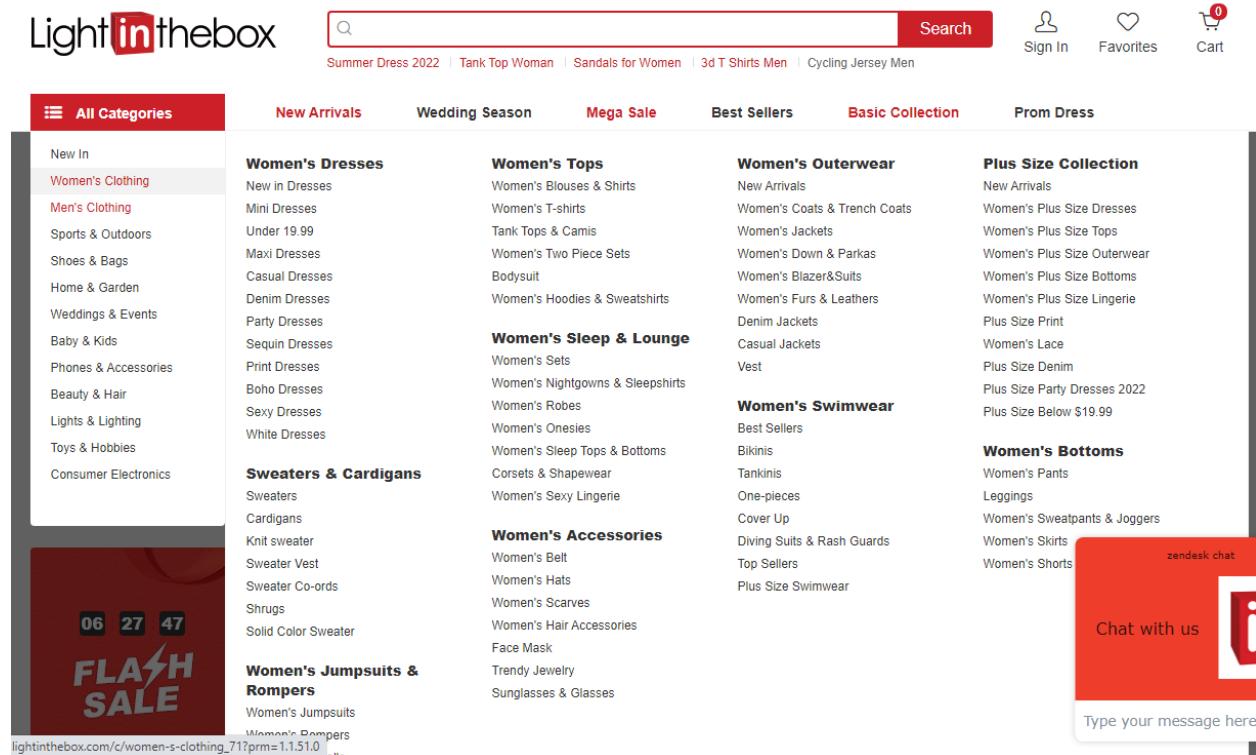

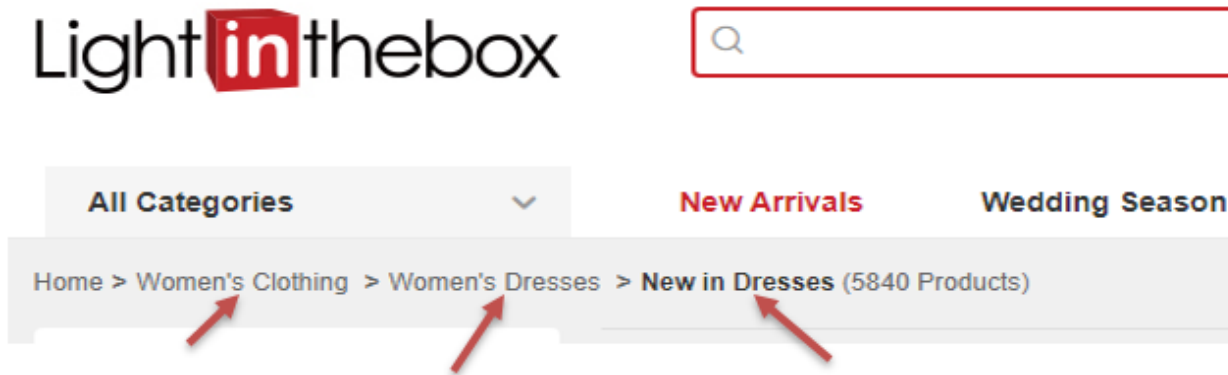

See, e.g., <https://www.lightinthebox.com/> (last visited May 2, 2022).

150. Also, the '053 Accused Instrumentalities constructs, in response to receiving the user input, a graphical user interface that includes one or more selectable links arranged in

accordance with the sequence, the one or more selectable links including a first, second, and third selectable link, wherein constructing the graphical user interface comprises constructing the first selectable link for the selected graphical menu item followed by constructing the second selectable link for the selected sibling menu item and subsequently constructing the third selectable link for the selected children menu item, each of the one or more selectable links representing one of the selected graphical, sibling, or children menu item (e.g., the sequence of selectable links “Home—Women’s Clothing—Women’s Dresses—New in Dresses”, where “Women’s Clothing” is the first selectable link, “Women’s Dresses” is the second selectable link (and sibling menu item), and “New in Dresses” is the third selectable link (and children menu item)), as shown below:

151. Also, the '053 Accused Instrumentalities display, in response to selection of the selectable link, at least one menu item of the plurality of graphical menu items, the one or more sibling menu items, or the one or more children menu items, wherein the at least one displayed menu item is in the same hierarchical level as the selected graphical, sibling, or children menu item represented by the selectable link (e.g., selecting the menu item "Women's Clothing" in the sequence of graphical menu items "Home—Women's Clothing—Women's Dresses—New in Dresses" will display menu items on the same hierarchical level as the selected children menu item "Women's Dresses," such as "Women's Tops," "Plus Size Collection," "Women's Swimwear," "Women's Bottoms," "Women's Jumpsuits and Rompers," "Women's Outerwear," "Sweaters & Cardigans," "Women's Accessories," and/or "Women's Jumpsuits & Rompers"), as shown below:

153. Also, the '053 Accused Instrumentalities provide, in the graphical user interface, the one or more sibling items within the first hierarchical level or the one or more children menu items within the second hierarchical level (e.g., the graphical user menu interface “Home—Women’s Clothing—Women’s Dresses” provides the sibling menu items within the first hierarchical level of “Women’s Clothing”, such as “Women’s Dresses,” “Women’s Tops,” “Plus Size Collection,” “Women’s Swimwear,” “Women’s Bottoms,” “Women’s Jumpsuits and Rompers,” “Women’s Outerwear,” “Sweaters & Cardigans,” “Women’s Accessories,” and/or “Women’s Jumpsuits & Rompers”), as shown below:

155. Also, the '053 Accused Instrumentalities enable selection, via the graphical user interface, of the one or more sibling menu items within the first hierarchical level or the one or more children menu items within the second hierarchical level (e.g., a user is able to select, via the graphical user interface one or more sibling menu items on the first hierarchical level, such as the sibling menu item “Men’s Clothing” to the menu item “Women’s Clothing”), as shown below:

The screenshot displays the Light in the Box website interface. At the top, the logo "Light in the box" is on the left, followed by a search bar with a magnifying glass icon and a "Search" button. To the right of the search bar are icons for "Sign In", "Favorites", and "Cart" (with a red notification bubble containing the number "0"). Below the search bar, a horizontal navigation bar lists several categories: "Summer Dress 2022", "Tank Top Woman", "Sandals for Women", "3d T Shirts Men", and "Cycling Jersey Men".

157. Discovery is expected to uncover the full extent of Defendants' infringement of the '053 Patent beyond the '053 Accused Instrumentalities already identified through public information.

158. Upon information and belief, Defendants have induced and continue to induce others to infringe at least Claim 1 of the '053 Patent under 35 U.S.C. § 271(b) by, among other things, and with specific intent or willful blindness, actively aiding and abetting others to infringe, including but not limited to Defendants' new, current, and prospective users, partners, customers and other third parties, whose use of the '053 Accused Instrumentalities constitutes direct infringement of at least Claim 1 of the '053 Patent.

159. In particular, Defendants' actions that aid and abet others such as its new, current, and prospective users, partners, customers and third parties to infringe include advertising the '053 Accused Instrumentality. On information and belief, Defendants have engaged in such actions with specific intent to cause infringement or with willful blindness to the resulting infringement because Defendants have had actual knowledge of the '053 Patent and knowledge that its acts were inducing infringement of the '053 Patent since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) that such activities infringed the '053 Patent.

160. Defendants' acts of inducement include, without limitation: providing the '053 Accused Instrumentalities to its new, current, and prospective users, partners, and customers, and other third parties and intending them to use the '053 Accused Instrumentalities that enable and/or make use of content published therein; encouraging customers and other third parties to

communicate directly with Defendants’ representatives about the ’053 Accused Instrumentalities and content published therein for purposes of technical assistance as well as sales and marketing (see, e.g., <https://www.lightinthebox.com/r/contact-us.html> (providing consumers with a technical support portal through which technical issues and concerns regarding the ’053 Accused Instrumentalities can be addressed); see, e.g., <https://www.lightinthebox.com/r/contact-us.html> (providing contact information for technical support regarding the ’053 Accused Instrumentalities); see also *id.* (providing a community platform for discussing the ’053 Accused Instrumentalities or content published therein); see also <https://www.facebook.com/lightinthebox> (encouraging customers and third parties to use the ’053 Accused Instrumentalities to access content published therein (e.g., providing the URL (https://www.lightinthebox.com/en/p/women-s-high-waist-yoga-pants-yoga-leggings-tights-bottoms-tummy-control-butt-lift-quick-dry-snakeskin-yellow-red-spandex-yoga-fitness-gym-workout-sum_p8718883.html?litb_from=HCX_ybn1&utm_source=sns&utm_content=boost&utm_medium=HCX_ybn1&utm_campaign=main&litb_from=fb_post&utm_source=SNS&utm_content=boost&utm_medium=facebook_litb_en&utm_campaign=Main) to a “Yoga Leggings & Tights” webpage that can be accessed using the Accused Instrumentalities)); see also <https://twitter.com/lightinthebox?lang=en>, <https://www.youtube.com/lightinthebox>, and <https://www.instagram.com/lightinthebox/?hl=en> (Defendants’ social media accounts promoting the use of the ’053 Accused Instrumentalities through which various media content can be accessed); and providing press releases and news articles encouraging customers and the other third parties to use the ’053 Accused Instrumentalities to access content (for example, providing the URL (www.lightinthebox.com) to the “LightInTheBox” main webpage that can be accessed using the ’053 Accused Instrumentalities).

161. Defendants performed acts of inducement despite its actual knowledge since at least December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter) and its knowledge that the specific actions it actively induced and continue to actively induce on the part of its users, partners, and customers, and other third parties constitute infringement of the '053 Patent. At the very least, because Defendants have been, and remain, on notice of the '053 Patent and the accused infringement, they have been, and remain, willfully blind regarding the infringement that it has induced and continue to induce.

162. On information and belief, Defendants have contributed to, and continues to contribute to, infringement of at least Claim 1 of the '053 Patent pursuant to 35 U.S.C. § 271(c) by providing the '053 Accused Instrumentalities that have contributed, and continue to contribute, to the direct infringement of new, current, and prospective users, partners, customers and other third parties with the knowledge (at least as of December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter)) that the '053 Accused Instrumentalities are especially made or adapted for use in an infringement of the '053 Patent. For example, by providing the web pages, software, and computer equipment identified above, Defendants contribute to the direct infringement of users of said web pages, software, and computer equipment. The '053 Accused Instrumentalities are material components or apparatuses for use in practicing the '053 Patent and are not staple articles of commerce suitable for substantial non-infringing use.

163. For example, the '053 Accused Instrumentalities provide a graphical user menu system through which a user can navigate an information structure or an apparatus for navigating an information structure according to the claimed invention(s). Defendants supplied, and continue to supply, the '053 Accused Instrumentalities, or components or apparatuses thereof,

with the knowledge of the '053 Patent and with the knowledge that these components or apparatuses constitute critical and material parts of the claimed inventions of the '053 Patent. Moreover, Defendants know at least by virtue of its knowledge of its own products and services and the '053 Patent that the '053 Accused Instrumentalities are especially made and/or especially adapted for use as claimed in the '053 Patent and there is no substantial non-infringing use of these components or apparatuses.

164. Defendants have directly and indirectly infringed the '053 Patent and are thus liable for infringement of the '053 Patent pursuant to 35 U.S.C. § 271.

165. Plaintiffs have suffered, and continue to suffer, damages as a result of Defendants' infringement of the '053 Patent.

166. Defendants have continued to infringe the '053 Patent December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter), despite being on notice of the '053 Patent and its infringement. Defendants have therefore infringed the '053 Patent knowingly, willfully, deliberately, and in disregard of Plaintiffs' patent rights December 2, 2021 (the date on which Defendant received Plaintiffs' notice letter), at least by infringing with actual knowledge of its direct and indirect infringement or while remaining willfully blind to the fact of its direct and indirect infringement. As a result of at least this conduct, Plaintiffs are entitled to enhanced damages under 35 U.S.C. § 284 and to attorneys' fees and costs under 35 U.S.C. § 285.

Plaintiffs reserve the right to modify its infringement theories as discovery progresses in this case. Plaintiffs shall not be estopped for purposes of its infringement contentions or its claim constructions by the foregoing discussions on how the '053 Accused Instrumentalities infringe the '053 Patent. Plaintiffs intend only that the foregoing discussions satisfy the notice requirements of Rule 8(a)(2) of the Federal Rule of Civil Procedure, and that they should not be

construed as Plaintiffs' preliminary or final infringement contentions or preliminary or final claim construction positions.

PRAYER FOR RELIEF

WHEREFORE, Plaintiffs demand judgment for itself and against Defendants as follows:

- a. A judgment that Defendants have infringed, and continues to infringe, one or more claims of each of the Asserted Patents;
- b. A judgment that Defendants have induced infringement, and continue to induce infringement, of one or more claims of each of the Asserted Patents;
- c. A judgment that Defendants have contributed to, and continues to contribute, to the infringement of one or more claims of each of the Asserted Patents;
- d. A judgment that Defendants have willfully infringed one or more claims of each of the Asserted Patents;
- e. A judgment awarding Plaintiffs all damages adequate to compensate for Defendants' infringement, and in no event less than a reasonable royalty for Defendants' acts of infringement, including all pre-judgment and post-judgment interest at the maximum rate allowed by law;
- f. A judgment awarding Plaintiffs treble damages pursuant to 35 U.S.C. § 284 as a result of Defendants' willful conduct;
- g. A judgment and order finding that this is an exceptional case within the meaning of 35 U.S.C. § 285 and awarding Plaintiffs their reasonable attorneys' fees; and
- h. A judgment awarding Plaintiffs such other relief as the Court may deem just and equitable.

DEMAND FOR JURY TRIAL

Pursuant to Rule 38(b) of the Federal Rules of Civil Procedure, Plaintiffs demand a trial by jury of this action.
