#### **THE '704 PATENT**

9. The '704 Patent is entitled “Management of trusted flow system,” and issued 2007-12-04. The application leading to the '704 Patent was filed on 2002-08-14. A true and correct copy of the '704 Patent is attached hereto as Exhibit 1 and incorporated herein by reference.

#### **COUNT 1: INFRINGEMENT OF THE '704 PATENT**

10. Plaintiff incorporates the above paragraphs herein by reference.

11. **Direct Infringement.** Defendant has been and continues to directly infringe one or more claims of the '704 Patent in at least this District by making, using, offering to sell, selling and/or importing, without limitation, at least the Defendant products identified in the charts incorporated into this Count below (among the "Exemplary Defendant Products") that infringe at least the exemplary claims of the '704 Patent also identified in the charts incorporated into this Count below (the "Exemplary '704 Patent Claims") literally or by the doctrine of equivalents. On information and belief, numerous other devices that infringe the claims of the '704 Patent have been made, used, sold, imported, and offered for sale by Defendant and/or its customers.

On information and belief, Defendant has also continued to sell the Exemplary Defendant Products and distribute product literature and website materials inducing end users and others to use its products in the customary and intended manner that infringes the '704 Patent. See Exhibit 2 (extensively referencing these materials to demonstrate how they direct end users to commit patent infringement).

16. Exhibit 2 includes charts comparing the Exemplary '704 Patent Claims to the Exemplary Defendant Products. As set forth in these charts, the Exemplary Defendant Products practice the technology claimed by the '704 Patent. Accordingly, the Exemplary Defendant Products incorporated in these charts satisfy all elements of the Exemplary '704 Patent Claims.

17. Plaintiff therefore incorporates by reference in its allegations herein the claim charts of Exhibit 2.
