JURISDICTION AND VENUE

9. This Court has personal jurisdiction over MSN Pharmaceuticals Inc. because, on information and belief, MSN Pharmaceuticals Inc. is a corporation organized and existing under the laws of Delaware.

10. This Court has personal jurisdiction over MSN Laboratories Private Limited because, *inter alia*, it has maintained continuous and systematic contacts with this judicial district and availed itself of the privilege of doing business in this judicial district. On information and belief, MSN Laboratories Private Limited has committed, or aided, abetted, induced, contributed to, and/or participated in the commission of a tortious act of patent infringement that will lead to foreseeable harm and injury to Plaintiffs in Delaware. MSN Laboratories Private Limited has participated in the preparation, filing, and/or amendment of an ANDA seeking approval to market and sell a generic version of Plaintiffs' branded product, Viberzi[®], and has distribution channels and plans to market and sell its generic product throughout the United States, including in this judicial district, before the '187 patent expires.

11. This Court also has personal jurisdiction over MSN by virtue of, *inter alia*, its systematic and continuous contacts with Delaware. Upon information and belief, MSN is amenable to litigating in this forum based on MSN's conduct in multiple prior litigations in this judicial district. For example, MSN did not previously contest this Court's jurisdiction in Plaintiffs' related, previously-filed civil action regarding MSN's ANDA No. 213576, Civil Action No. 19-1727-RGA. *See Allergan USA, Inc. et al. v. MSN Lab'ys Priv. Ltd. et al.*, C.A. No. 19-

1727-RGA, D.I. 29 at ¶¶ 15, 21–22; D.I. 268 at ¶¶ 8–10; D.I. 345 at ¶¶ 8–10 (D. Del.).

ACTS GIVING RISE TO THIS ACTION

Count 1 – Patent Infringement by MSN

18. Upon information and belief, on or before August 12, 2019, MSN submitted ANDA No. 213576 to the FDA under § 505 of the Federal Food, Drug and Cosmetic Act (21 U.S.C.

§ 355(j)). ANDA No. 213576 seeks FDA approval for the commercial manufacture, use, and sale of generic oral tablet products containing 75 mg and 100 mg of eluxadoline as the active ingredient.

19. MSN's submission of ANDA No. 213576 to the FDA constitutes infringement of one or more claims of the '187 patent under 35 U.S.C. § 271(e)(2)(A). Although the '187 patent did not issue until after ANDA No. 213576 was filed, this does not preclude MSN from infringement liability under 35 U.S.C. § 271(e)(2). *Vanda Pharms. Inc. v. W.-Ward Pharms. Int'l Ltd.*, 887 F.3d 1117, 1127 (Fed. Cir. 2018).

20. MSN's participation in, contribution to, inducement of, aiding, or abetting the submission of ANDA No. 213576 constitutes direct, contributory, or induced infringement of one or more claims of the '187 patent under 35 U.S.C. § 271(e)(2)(A).

21. Upon information and belief, if MSN commercially manufactures, uses, offers for sale, or sells within the United States, or imports into the United States, the products under ANDA No. 213576, or induces or contributes to any such conduct, it would further infringe, *inter alia*, one or more claims of the '187 patent under 35 U.S.C. § 271(a), (b), and (c).

22. Upon information and belief, MSN has infringed, *inter alia*, one or more claims of the '187 patent under 35 U.S.C. § 271(e)(2)(A), and, upon information and belief, will further infringe, *inter alia*, one or more of these claims under 35 U.S.C. § 271(a), (b), and (c), because, *inter alia*, the products under ANDA No. 213576 and the methods of using the products under ANDA No. 213576, *e.g.*, by doctors, pharmacists, healthcare providers and patients, according to the proposed package insert and prescribing information will meet each and every claim element of one or more claims of the '187 patent, either literally or under the doctrine of equivalents.

23. Upon information and belief, MSN has participated in, contributed to, aided, abetted, and/or induced infringement of the '187 patent and/or will participate in, contribute to,

aid, abet, and/or induce infringement of the '187 patent once the products under ANDA No. 213576 are commercially made, used, offered for sale, or sold in the United States, or imported into the United States.

24. Upon information and belief, MSN has knowledge that if it were to receive approval from the FDA to market the products under ANDA No. 213576 and make the products under ANDA No. 213576 available for sale and/or use by others, *e.g.*, by doctors, pharmacists, healthcare providers and patients, according to the package insert and prescribing information during the proposed shelf life of the products before expiration of the '187 patent, such activities would result in the sale and/or use of a product that itself infringes and/or is especially made for an infringing use. Upon information and belief, MSN has knowledge of such infringement and/or such infringing use and also knows that the products under ANDA No. 213576 are not a staple article or commodity of commerce suitable for substantial non-infringing use, but rather are especially made to infringe and/or are especially adapted for use in the direct infringement of the '187 patent.

25. MSN's actions render this an exceptional case under 35 U.S.C. § 285.

26. Plaintiffs will be irreparably harmed by MSN's infringing activities unless those activities are enjoined by this Court. Plaintiffs do not have an adequate remedy at law.

PRAYER FOR RELIEF

WHEREFORE, Plaintiffs pray for judgment as follows:

a) That MSN's submission of ANDA No. 213576 is an act of infringement of one or more claims of the '187 patent under 35 U.S.C. § 271(e)(2);

b) That, pursuant to 35 U.S.C. § 271(e)(4)(A), the effective date of any approval of MSN's ANDA No. 213576 shall not be earlier than the expiration date of the '187 patent, including

any extensions or exclusivities;

c) That MSN, its officers, agents, servants, and employees, and those persons in active concert or participation with any of them, be permanently enjoined from commercially manufacturing, using, offering for sale, or selling in the United States, or importing into the United States, the products under ANDA No. 213576, and any other product that infringes or induces infringement or contributes to the infringement of the '187 patent, prior to the expiration of the '187 patent, including any extensions or exclusivities;

d) That this is an exceptional case under 35 U.S.C. § 285 and that Plaintiffs be awarded the attorneys' fees, costs, and expenses that they incur prosecuting this action; and

e) That Plaintiffs be awarded such other and further relief as this Court deems just and proper.
