

**IN THE UNITED STATES DISTRICT COURT  
FOR THE WESTERN DISTRICT OF TEXAS  
AUSTIN DIVISION**

INNOVATION SCIENCES, LLC,

Plaintiff,

v.

XIAOMI CORPORATION; XIAOMI, INC.,

Defendants.

Case No. 1:25-cv-00394

**Jury Trial Demanded**

**COMPLAINT FOR PATENT INFRINGEMENT**

Plaintiff Innovations Sciences, LLC (hereinafter “Innovation Sciences” or “Plaintiff”) files this Complaint against Defendants Xiaomi Corporation and Xiaomi, Inc. (hereinafter collectively referred to as “Xiaomi” or “Defendants”) for infringement of United States Patent Nos. 10,136,179, 10,368,125, and 10,469,898. (the “Patents-in-Suit”), and alleges as follows:

**NATURE OF THE ACTION**

1. This is an action for patent infringement arising under the patent laws of the United States, 35 U.S.C. §§ 1 *et seq.*

**THE PARTIES**

2. Plaintiff Innovation Sciences is a limited liability company organized under the laws of Texas and has a principal of business at 5800 Legacy Circle, Suite 311, Plano, Texas 75024.

3. On information and belief, Defendant Xiaomi Corporation is a corporation organized and existing under the laws of the Cayman Islands with a principal place of business at the offices of Maples Corporate Services Limited, P.O. Box 309, Ugland House, Grand Cayman, KY1-1104, Cayman Islands. On information and belief, Defendant Xiaomi Corporation may be served with process pursuant to the provisions of the Hague Convention. Xiaomi Corporation may also be served

with process by serving the Texas Secretary of State at 1019 Brazos Street, Austin, Texas 78701 as its agent for service because it engages in business in Texas but has not designated or maintained a resident agent for service of process in Texas as required by statute.

4. On information and belief, Defendant Xiaomi Inc. is a corporation organized and existing under the laws of the People's Republic of China with a principal place of business at Xiaomi Office Building, 68 Qinghe Middle Street, Haidian District, Beijing, China 100085.

5. Defendant Xiaomi Inc. is a wholly-owned subsidiary of Defendant Xiaomi Corporation. Xiaomi Inc. may be served with process pursuant to the provisions of the Hague Convention. Xiaomi Inc. may also be served with process by serving the Texas Secretary of State at 1019 Brazos Street, Austin, Texas 78701 as its agent for service because it engages in business in Texas but has not designated or maintained a resident agent for service of process in Texas as required by statute.

6. On information and belief, Xiaomi is a leading manufacturer and seller of consumer electronics devices, including smart devices in the United States, including doing business in the State of Texas and within the Western District of Texas.

7. On information and belief, Xiaomi sells and offers to sell products and services throughout the State of Texas, including in this judicial district, as well as throughout the United States, and introduces products and services that perform infringing processes into the stream of commerce knowing that they would be used, offered for sale, or sold in this judicial district and elsewhere in the United States.

8. On information and belief, Xiaomi made, used, offered to sell, offered to sell access to, sold, and/or sold access to products and services, or makes, uses, offers to sell, offers to sell access to, and/or sells access to products and services, including, but not limited to, the following specifically accused products and services: (1) Xiaomi TV Products (*e.g.*, Xiaomi TV Box S (2nd) Gen, Mi Box S, Xiaomi TV Stick 4K, Mi TV Stick (collectively and individually, "Xiaomi TV Box"), Xiaomi TV monitors (*e.g.*, Xiaomi TV Max, Xiaomi TV S Mini LED, Xiaomi TV A, Xiaomi TV A Pro, Xiaomi

TV Q1E, Xiaomi TV P1E, and Xiaomi TV F2 (collectively and individually, “Xiaomi TV”)); (2) Xiaomi Home Security Products (*e.g.*, Xiaomi Smart Camera C500 Dual, Xiaomi Smart Camera C700, Xiaomi Outdoor Camera CW500, Xiaomi Outdoor Camera CW700S, Xiaomi Smart Camera C300, Xiaomi Smart Camera C301, Xiaomi Outdoor Camera BW300, Xiaomi Solar Outdoor Camera BW 400 Pro, Xiaomi Smart Camera C500 Pro, Xiaomi Outdoor Camera AW300, Xiaomi Smart Camera C200, Mi 360 Camera 1080p, Mi 360 Home Security Camera 2K, Mi Wireless Outdoor Security Camera 1080p, and Mi 360 Home Security Camera 2K Pro (collectively and individually, “Xiaomi Smart Camera”)); (3) Xiaomi Air Purifiers (*e.g.*, Xiaomi Smart Air Purifier 4 Compact (collectively and individually, “Xiaomi Smart Air Purifiers”)); (4) Xiaomi Robot Vacuum Cleaners (*e.g.*, Xiaomi Robot Vacuum X20 Max, Xiaomi Robot Vacuum E5, Xiaomi Robot Vacuum X10, Xiaomi Robot Vacuum X20 Pro, Xiaomi Robot Vacuum E10C, Xiaomi Robot Vacuum S10, Xiaomi Robot Vacuum T12, and Xiaomi Robot Vacuum G20 Max (collectively and individually, “Xiaomi Robot Vacuum Cleaners”)); (5) Xiaomi Smart Appliances; (6) Xiaomi mobile phones and tablets; (7) Xiaomi Smart Home or IOT systems (*e.g.*, Xiaomi servers or clouds); (8) Xiaomi Applications and/or modules (*e.g.*, Mi Home/Xiaomi Home App); (9) Xiaomi Smart Home Devices (*e.g.*, sensors, lights); (10) current or legacy products or services, which use, or have used one or more of the foregoing products and services as a component product or component service; (11) combinations of products and/or services comprising, in whole or in part, two or more of the foregoing products and services; and, (12) all other current or legacy products and services imported, made, used, sold, or offered for sale by Xiaomi that operate, or have operated in a substantially similar manner as the above-listed products and services. (One or more of the foregoing products and services are individually and collectively referred to as the accused “Xiaomi Products and Services”). On information and belief, the Xiaomi Products and Services infringe at least one claim of each of the Patents-in-Suit.

**JURISDICTION AND VENUE**

9. This civil action arises under the Patent Laws of the United States, 35 U.S.C. § 1 *et seq.* Accordingly, this Court has subject matter jurisdiction under at least 28 U.S.C. §§ 1331 and 1338(a).

10. This Court has general and specific personal jurisdiction over Defendants collectively (*i.e.*, Xiaomi) because Xiaomi regularly conducts and solicits business, or otherwise engages in other persistent courses of conduct in this judicial district, and/or derives substantial revenue from the use, sale, and distribution of goods and services, including but not limited to the accused Xiaomi Products and Services provided to individuals and businesses in this district.

11. Xiaomi has committed and continues to commit acts of infringement within this district and, thereby, giving rise to this action and establishing minimum contacts with this forum such that the exercise of jurisdiction over Xiaomi would not offend traditional notion of fair play and substantial justice. In addition, this Court has personal jurisdiction over Xiaomi at least for the following reasons:

(1) Xiaomi has purposefully availed itself of the privileges of conducting business in the State of Texas; (2) Xiaomi has sought privileges, protections and benefit from the laws of the State of Texas; (3) Xiaomi regularly conducts business within the State of Texas and within this district, and Plaintiff's cause of action arises directly from Defendants' business contacts and other activities in the State of Texas and in this district, including deriving substantial revenue from the infringing Xiaomi Products and Services in the State of Texas and this district.

12. On information and belief, Xiaomi, on its own and/or via its subsidiaries, divisions, partners, affiliates, and parent maintain a commercial presence in the United States, including in State of Texas and in this judicial district, via at least (1) consumers residing in the Western District of Texas who purchase or utilize the Xiaomi accused Products and Services. Xiaomi actively opens, solicits, invites, advertises, and/or promotes the accused Xiaomi Products and Services to residents, citizens, and customers of the United States and this judicial district; or has opened, solicited, invited, advertised, and/or promoted the accused Xiaomi Products and Services and to residents, citizens, and

customers of the United States and this judicial district.

13. This Court has personal jurisdiction over Xiaomi, at least, because it committed acts of infringement in this judicial district in violation of 35 U.S.C. §§ 271(a). Specifically, on information and belief, Xiaomi has made, used, offered to sell access to, and/or sold access to the accused Xiaomi Products and Services in this judicial district.

14. On information and belief, Xiaomi is subject to the Court's jurisdiction pursuant to due process and/or the Texas Long Arm Statute due at least because it regularly conducts and solicits business, or otherwise engages in other persistent courses of conduct in this judicial district, and/or derives substantial revenue from the use, sale, and services, including but not limited to the accused Xiaomi Products and Services provided to individuals and businesses in this judicial district.

15. On information and belief, Xiaomi has supported, marketed, made, distributed, offered to sell, and/or sold; or, supports, markets, makes, distributes, offers to sell, and/or sells, the accused Xiaomi Products and Services to consumers throughout the United States, the State of Texas, and residents of the Western District of Texas through various means.

16. On information and belief, Xiaomi derives substantial revenue within the state from the offer of infringing products and services.

17. On information and belief, Xiaomi, on its own and/or via its subsidiaries, divisions, partners, affiliates, and parent, infringe (either directly and/or indirectly) one or more of the claims of the Patents-in-Suit.

18. Venue is proper pursuant to 28 U.S.C. §§ 1391(b), (c), (d) and/or 1400(b). Venue is proper at least because Xiaomi is not resident in the United States. 28 U.S.C. § 1391(c)(3) states that "a defendant not resident in the United States may be sued in any judicial district."

**THE ASSERTED PATENTS**

**United States Patent No. 10,136,179**

19. On November 20, 2018, the United States Patent and Trademark Office (“USPTO”) duly and legally issued United States Patent No. 10,136,179 (“the ’179 patent”) entitled “Method and System for Efficient Communication” to inventors Tiejun Wang and Tiehong Wang.

20. The ’179 patent is presumed valid under 35 U.S.C. § 282. A true and correct copy of the ’179 patent is attached hereto as Exhibit 1.

21. Innovation Sciences owns all rights, title, and interest in the ’179 patent.

22. Innovation Sciences has not granted Defendants an approval, an authorization, or a license to rights under the ’179 patent.

23. The ’179 patent relates to, among other things, systems and corresponding devices that, *inter alia*, allow multimedia communications with different user terminals, and deliver multimedia information to multiple user terminals concurrently, dynamically, and efficiently.

24. The claimed invention(s) of the ’179 patent sought to solve technical problems in multimedia communications with different user terminals by delivering multimedia information to multiple user terminals concurrently, dynamically, and efficiently.

25. The claimed invention(s) of the ’179 patent have numerous applications including but not limited to: efficiently directing communications on a network; directing a television display from a mobile terminal; conversion and routing of content to devices that employ differing communication protocols is provided; bidirectional conversion and routing of content to differing devices; remotely receiving and accommodating completion of multimedia content requests from a plurality of content sources; and methods for optimizing the delivery of content that is commonly requested by a plurality of users in a particular location is provided.

26. The inventions of the ’179 patent can be implemented in various forms including, but not limited to: business processes, computer implemented methods, computer program products,

computer systems and networks, user interfaces, application programming interfaces as well as other similar areas.

**United States Patent No. 10,368,125**

27. On July 30, 2019, the USPTO duly and legally issued United States Patent No. 10,368,125 (“the ’125 patent”) entitled “Method and System for Efficient Communication” to inventors Tiejun Wang and Tiehong Wang.

28. The ’125 patent is presumed valid under 35 U.S.C. § 282. A true and correct copy of the ’125 patent is attached hereto as Exhibit 2.

29. Innovation Sciences owns all rights, title, and interest in the ’125 patent.

30. Innovation Sciences has not granted Defendants an approval, an authorization, or a license to rights under the ’125 patent.

31. The ’125 patent contains related application data to the ’179 patent. The ’125 patent specification is nearly identical to the specification of the ’179 patent and solves the problems described in the ’179 patent.

**United States Patent No. 10,469,898**

32. On November 5, 2019, the United States Patent and Trademark Office (“USPTO”) duly and legally issued United States Patent No. 10,469,898 (“the ’898 patent”) entitled “Method and System for Efficient Communication” to inventors Tiejun Wang and Tiehong Wang.

33. The ’898 patent is presumed valid under 35 U.S.C. § 282. A true and correct copy of the ’898 patent is attached hereto as Exhibit 3.

34. Innovation Sciences owns all rights, title, and interest in the ’898 patent.

35. Innovation Sciences has not granted Defendants an approval, an authorization, or a license to rights under the ’898 patent.

36. The '898 patent contains related application data to the '179 patent. The '898 patent specification is nearly identical to the specification of the '179 patent and solves the problems described in the '179 patent.

**CLAIMS FOR RELIEF**

**Count I – Infringement of United States Patent No. 10,136,179**

37. Innovation Sciences repeats, realleges, and incorporates by reference, as if fully set forth here, the allegations of the preceding paragraphs above.

38. On information and belief, Xiaomi violated 35 U.S. C. § 271(a) with respect to one or more claims of the '179 patent.

39. On information and belief, Xiaomi (or those acting on its behalf) (i) makes, uses, sells, sells access to, imports, offers to sell and/or offers to sell access to the Xiaomi Products and Services in the United States that infringe (literally and/or under the doctrine of equivalents) at least claim 1 of '179 patent.

40. On information and belief, one or more components of the Xiaomi Products and Services provides a wireless device (*e.g.*, Xiaomi Smart Camera C200) associated with a unique identifier (*e.g.*, Serial number, Unique Identifier (“UID”) defined by the manufacturer, name given by the user, etc.). On information and belief and as shown below, Xiaomi Products and Services such as the Xiaomi Smart Camera C200 provides a wireless device that communicates via Wi-Fi. Further, Xiaomi Smart Camera has a unique identifier (*e.g.*, Serial number, UID defined by the manufacturer, name given by the user, etc.), which is used for identification of the camera during communication.

# Xiaomi Smart Camera C200

360° full viewing coverage for your home security

1080p high resolution | 360° rotation | Infrared night vision | Human tracking

works with Google Home    works with alexa

A white, spherical smart camera mounted on a white cylindrical base. The camera lens is visible in the center of the sphere. The base has the 'xiaomi' logo on it.

## Specifications

---

Name: Xiaomi Smart Camera C200	Resolution: 1080p
Model: MJSXJ14CM	Net Weight: Approx. 256 g
Input: 5 V $\equiv$ 2 A	Video Codec: H.265
Aperture: F2.1	
Item Dimensions: 109 × 75 × 75 mm	
Operating Temperature: -10°C to 40°C	
Wireless Connectivity: Wi-Fi IEEE 802.11 b/g/n 2.4 GHz	
Storage: MicroSD card (up to 256 GB)	

See [Xiaomi Smart Camera C200 User Manual](#).

See [First Setup & Connecting With App On XIAOMI Smart Camera C200 - YouTube](#).

41. On information and belief, one or more components of the Xiaomi Products and Services provides a wireless device associated with a unique identifier comprising a sensor configured

to detect a change of a condition (e.g., movement or changes in light/sound/temperature detected in the monitoring area).

### Automatic Surveillance

- When the home surveillance assistant is enabled, the camera will record videos if it detects human movement and changes in real-time within its monitored area. Then you will receive notifications on the app.
- You can enable or disable the function of home surveillance assistant in the camera's plugin in the Mi Home/Xiaomi Home app.
- You can set surveillance of all-day, daytime, nighttime, or any other time meeting your demands. Alert sensitivity and alert time intervals can also be customized in the app.

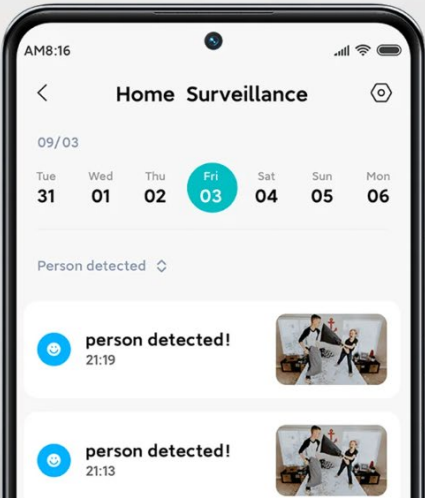

The diagram shows a white, spherical Xiaomi Smart Camera C200 on a base with the 'XIAOMI' logo. The camera has two curved arrows indicating its pan and tilt range. To the right is a line drawing of a bedroom with a bed, a nightstand, a lamp, and a window.

See [Xiaomi Smart Camera C200 User Manual](#).

### AI human detection for automatic tracking and recording

The all-new AI human-detection algorithm provides faster contour detection and automatic tracking and recording, while effectively filtering false alarms for improved accuracy.

\*Human tracking function is disabled by default and can be enabled via the Mi Home/Xiaomi Home App.

The screenshot shows the 'Home Surveillance' app interface on a smartphone. At the top, it displays the time 'AM8:16' and the date '09/03'. Below the date is a calendar view for the month of September, with the 3rd (Friday) highlighted in a blue circle. Underneath, there is a section titled 'Person detected' with a dropdown arrow. Two notifications are listed: 'person detected!' at 21:19 and 'person detected!' at 21:13. Each notification includes a small thumbnail image showing a person walking in a hallway.

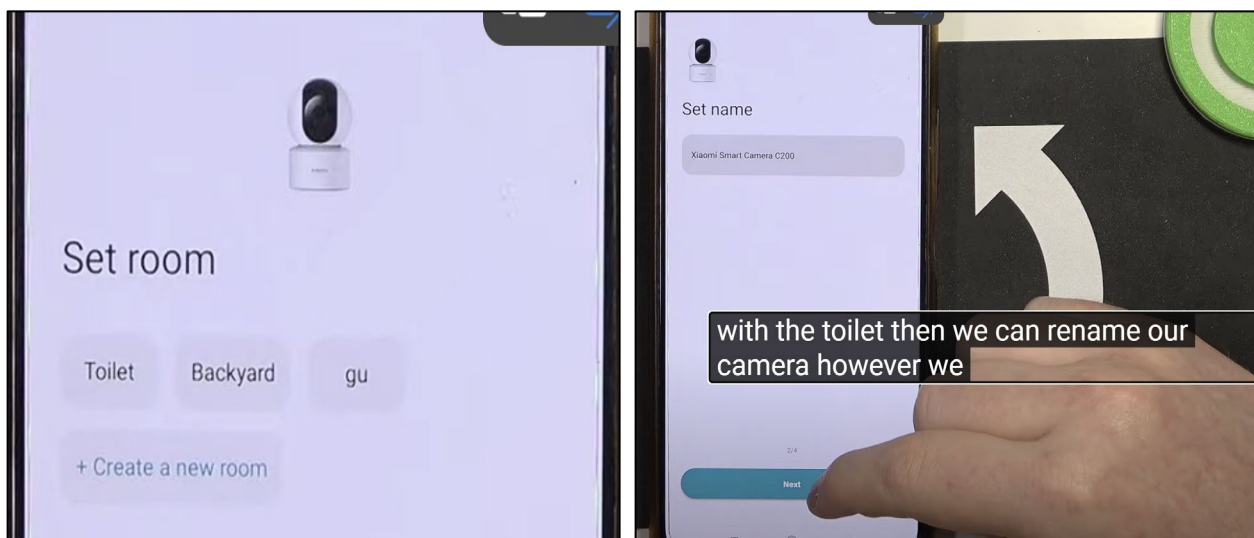

See [Xiaomi Smart Camera C200](#).

42. On information and belief, one or more components of the Xiaomi Products and Services provides a wireless device associated with a unique identifier comprising a transmitter (e.g., Wi-Fi transmitter) configured to send a wireless signal via, e.g., a WiFi network (e.g., Wi-Fi IEEE

802.11), in response to detection of the change by the sensor (e.g., movement or changes in light/sound/temperature detected in the monitoring area), the wireless signal comprising information corresponding to the unique identifier (e.g., Serial number, UID defined by the manufacturer, name given by the user, etc.) associated with the wireless device.

43. On information and belief, one or more components of the Xiaomi Products and Services provides a wireless device associated with a unique identifier comprising wherein the wireless device is configured to notify a user of a status update (e.g., event detected) based on the detection of the change of the condition (e.g., movement or changes in light/sound/temperature detected in the monitoring area) according to a configuration setting (e.g., enabling or disabling automatic

surveillance, surveillance timings, alert sensitivity, alert time intervals, etc.), the configuration setting comprising information regarding a setting for notifying the user of the status update.

See [Xiaomi Smart Camera C200](#).

## Automatic Surveillance

How To Check IP Address & MAC Address Of Xiaomi Smart Camera C500 Pro:

How To Check IP Address Of Xiaomi Smart Camera C500 Pro:

How To Check MAC Address Of Xiaomi Smart Camera C500 Pro:

Step 1: Launch the Mi Home App. Ensure that your Xiaomi Smart Camera C500 Pro is connected to the Mi Home app on your smartphone or tablet.

Step 2: Select the camera you want to check these details for. Tap on the three dots in the top-right corner and select the "Additional Settings" option.

Step 3: Within the additional settings menu, locate the "Network Info" option. This is where you'll find information related to the camera's network configuration. Here, you should see the camera's IP address and MAC address listed.

See [Xiaomi Smart Camera C500 Pro: How To Check IP Address & MAC Address.](#)

See [How to Connect Xiaomi Mi 360 Home Security Camera with Mi Home Application - Complete Guide](#).

See [First Setup & Connecting With App On XIAOMI Smart Camera C200](#).

47. On information and belief, one or more components of the Xiaomi Products and Services provides a wireless device associated with a unique identifier comprising wherein a configured data package comprises information for the network address for the WiFi network, the configured data package (*e.g.*, used to configure the initiation of network communication for the Xiaomi Smart Camera) being from a cellular phone in initiating communications that are directed to the wireless device (*e.g.*, on the Mi Home/Xiaomi Home application).

### Connecting with the Mi Home/Xiaomi Home App

This product works with the Mi Home/Xiaomi Home app\*. Control your device with Mi Home/Xiaomi Home app. Scan the QR code to download and install the app. You will be directed to the connection setup page if the app is installed already. Or search for "Mi Home/Xiaomi Home" in the app store to download and install it. Open the Mi Home/Xiaomi Home app, tap "+" on the upper right, and then follow the instructions to add your device.

\* The app is referred to as Xiaomi Home app in Europe (except for Russia). The name of the app displayed on your device should be taken as the default.

## Specifications

Name: **xiaomi** Smart Air Purifier 4 Compact  
Model: AC-M18-SC  
Item Dimensions:  $\Phi 220 \times H355$  mm  
Net Weight: Approx. 2.2 kg  
Effective Coverage: 16–27 m<sup>2</sup>\*  
Rated Voltage: 24 V $\equiv$   
Power Adapter Rated Input:  
100–240 V~, 50/60 Hz  
Rated Power: 27 W  
Noise Level:  $\leq 60$  dB(A)

\*Calculated according to standard GB/T 18801–2015

Particle's Clean Air Delivery Rate (CADR Particle): 230 m<sup>3</sup>/h  
Particle Purification Efficiency: High  
Network Standby Power Consumption: < 2.00 W  
Wireless Connectivity: Wi-Fi IEEE 802.11 b/g/n 2.4 GHz  
Storage Temperature: -10°C to 40 °C  
Storage Humidity: 5%–90% RH  
Production Date: See packaging  
For details of the importer, please refer to the box.

RF Specification:  
Operation Frequency: 2400–2483.5 MHz  
Maximum Output Power: < 20 dBm  
Under normal use of condition, this equipment should be kept a separation distance of at least 20 cm between the antenna and the body of the user.

**What should I do if Mi Air Purifier can't connect to WiFi?**

**Solutions:**

If Mi Air Purifier series products are unable to connect WiFi or the device is offline, it is recommended that:

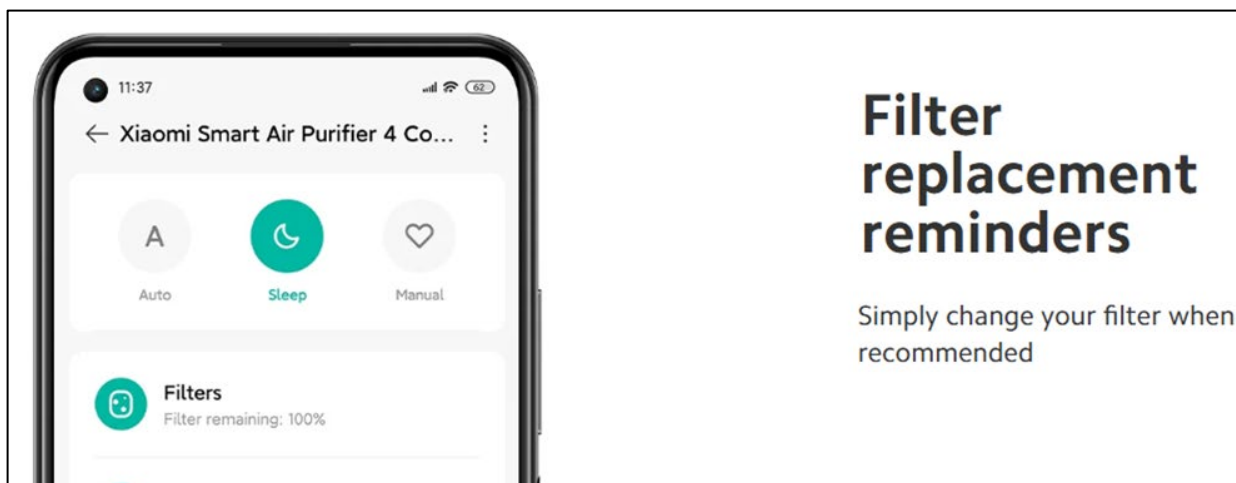

1. Check whether the router at home has enabled MAC address filtering, blacklist and other networking restrictions.
2. Check whether the WiFi name and password are correct.
3. Reset the purifier WiFi and connect again.

See <https://www.mi.com/global/support/faq/details/KA-06713/>; [What should I do if Mi Air Purifier can't connect to WiFi?](#)

54. On information and belief, one or more components of the Xiaomi Products and Services provides a wireless device associated with a unique identifier comprising a sensor (e.g., PM2.5, Humidity sensor, temperature sensor, and PM10) configured to detect a change of a condition (e.g., condition of a filter).

The Xiaomi smart air purifier 4 also comes equipped with a range of smart features which can be accessed through the Mi Home app. These features include real-time air quality monitoring and control, automatic filter replacement reminders, and scheduling functions, making it easy to maintain optimal air quality in any indoor environment.

See <https://www.manual.nz/xiaomi/smart-air-purifier-4/manual>; [Xiaomi Smart Air Purifier 4 manual](#).

**17. Q: How is the lifespan of Xiaomi Smart Air Purifier 4 Filter calculated?**  
A: Xiaomi Smart Air Purifier 4 will automatically and comprehensively calculate the service life of the Filter according to the air quality of the use environment, the purifier operating mode, operating speed and time. If the air quality of the purifier is poor, the filter life will be shorter; if the air quality is better, the filter life will be longer. Overall, the filter life is about 6 to 9 months.

**18. Q: How often does Xiaomi Smart Air Purifier 4 usually replace the Filter?**  
A: If the purifier is in poor air quality, the filter life will be shorter; if the air quality is better, the filter life will be longer. Overall, the filter life is about 3 to 6 months. If the filter life recorded by the purifier is less than or equal to 10%, the user will be reminded to recommend replacement from the display screen and APP, and one-click purchase on the mobile phone is supported.

See <https://www.mi.com/global/support/faq/details/KA-11380/>; [Xiaomi Smart Air Purifier 4 FAQ](#).

57. On information and belief, one or more components of the Xiaomi Products and Services provides a wireless device associated with a unique identifier comprising wherein information regarding the status update (e.g., the filter replacement reminder) is communicated to a user's mobile phone (e.g., on the Mi Home/Xiaomi Home application) through the WiFi network, the WiFi network connected to a cellular network.

### Connecting with Mi Home/Xiaomi Home app

This product works with Mi Home/Xiaomi Home app\*. Control your device with Mi Home/Xiaomi Home app.

Scan the QR code to download and install the app. You will be directed to the connection setup page if the app is installed already. Or search "Mi Home/Xiaomi Home" in the app store to download and install it.

Open Mi Home/Xiaomi Home app, tap "+" on the upper right, and then follow prompts to add your device.

\*The app is referred to as Xiaomi Home app in Europe (except for Russia). The name of the app displayed on your device should be taken as the default.

61. On information and belief, Xiaomi directly infringes at least claim 1 of the '179 patent in violation of 35 U.S.C. § 271(a) by making, using, selling, selling access to, importing, offering for sale, and/or offering to sell access to the Xiaomi Products and Services.

62. Innovation Sciences has been damaged by Defendants' infringement and has caused / continues to cause it to suffer irreparable harm and damages as a result of the infringement

**Count III – Infringement of United States Patent No. 10,368,125**

63. Innovation Sciences repeats, realleges, and incorporates by reference, as if fully set forth here, the allegations of the preceding paragraphs above.

64. On information and belief, Xiaomi violated 35 U.S. C. § 271(a) with respect to one or more claims of the '125 patent.

65. On information and belief, Xiaomi (or those acting on its behalf) (i) makes, uses, sells, sells access to, imports, offers to sell and/or offers to sell access to the Xiaomi Products and Services in the United States that infringe (literally and/or under the doctrine of equivalents) at least claim 47 of '125 patent.

66. On information and belief, one or more components of the Xiaomi Products and Services (*e.g.*, Xiaomi TV Box) provides an intelligent wireless HUB system with a device identifier (*e.g.*, Serial number, Device ID, name given by the user, etc. of the Xiaomi TV box) for communications of various information.

**1) Smart Device Connections**

In order to provide you with Xiaomi/Mi Home services and to enable you to securely connect to and manage your smart devices, we will collect your Wi-Fi information, location information, account login information, information related to your mobile phone and smart device, and information associated with your Mi Account and smart device.

This information will be used to provide you with various functionalities, including pairing with and connecting to smart devices, discovering nearby devices, and device management. Specific examples involving the above information are set out below:

- Account Login Information: Mi Account (the account ID may be the Xiaomi ID, phone number or email address), nickname, and profile picture information, as well as cookies (including Mi Account, serviceToken, country code, app store channel, and time zone) to log in to your account.
- Mobile Phone related Information: Hardware-based identifiers (MAC address, Android ID), phone model, OS version, OS language, country or region, app store version, screen size and resolution, CPU, and display device related information. Based on the type of smart device you wish to connect to, we will collect the following information:

- Smart devices connected via Wi-Fi: Wi-Fi Information (SSID, BSSID, MAC address of Wi-Fi, Wi-Fi password), MAC address of the device, and device ID.
- After establishing a local connection via Bluetooth, smart devices connected via Wi-Fi: Wi-Fi information (SSID, BSSID, MAC address of Wi-Fi, Wi-Fi password), MAC address of the device, and MAC address of Bluetooth on the device.
- Smart devices connected via Bluetooth: MAC address of Bluetooth on the device, and device ID.
- Smart devices connected via Zigbee: MAC address of the device, and device ID.

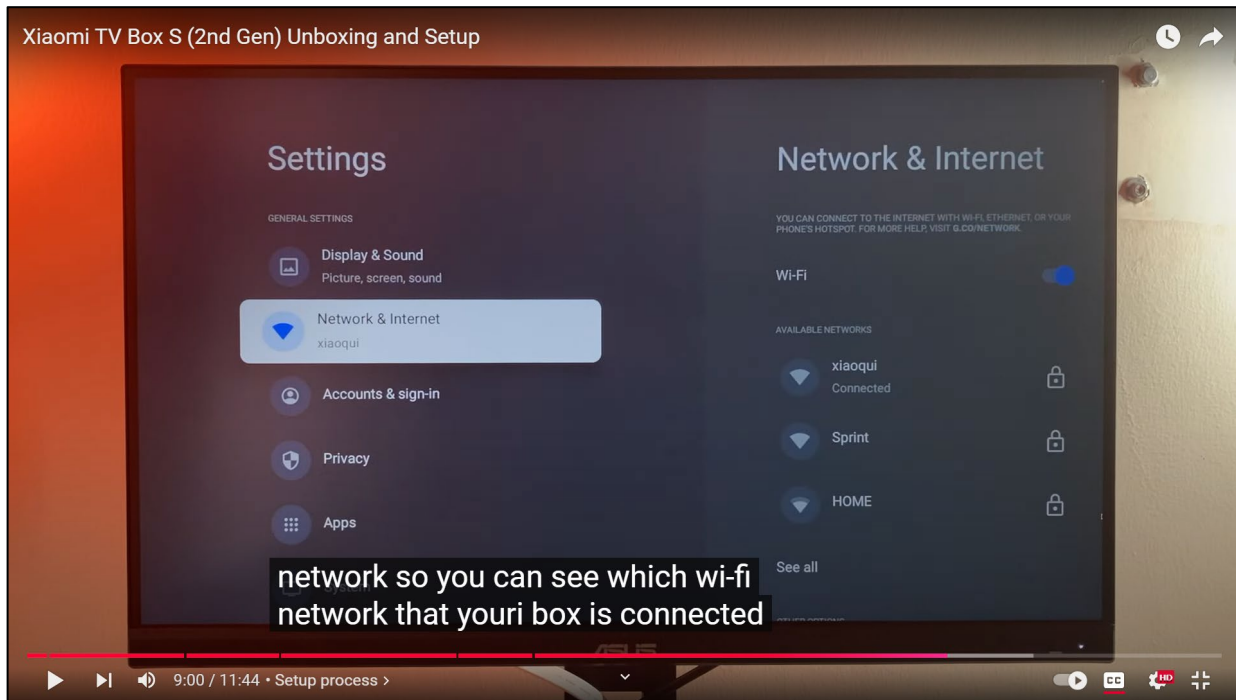

See <https://trust.mi.com/docs/iot-privacy-white-paper-global/3/6>.

74. On information and belief, one or more components of the Xiaomi Products and Services provides an intelligent wireless HUB system with a device identifier for communications of various information comprising wherein the network communication channel (e.g., Wi-Fi) is separate from short range wireless channel for the short range wireless communication (e.g., Bluetooth).

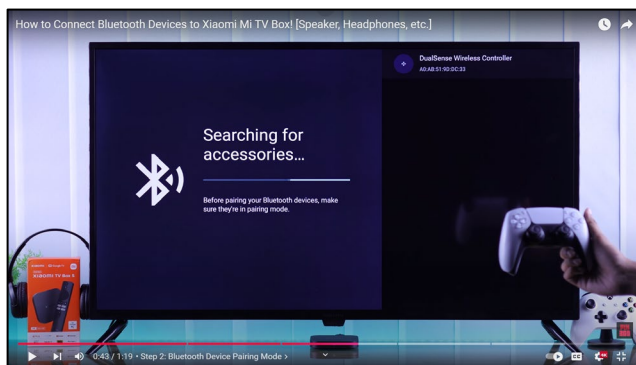

Xiaomi TV Box S 2nd Gen		Overview

84. On information and belief, one or more components of the Xiaomi Products and Services provides a method for communicating information by a centralized HUB system with a device identifier comprising communicating configured data (*e.g.*, IP address, Bluetooth address, Device ID, etc.) in initiating communications that are directed to the centralized HUB system (*e.g.*, Xiaomi TV Box), the configured data comprising information corresponding to a network address (*e.g.*, IP address) associated with a wireless local area network and information corresponding to the device identifier (*e.g.*, Serial number, Device ID, name given by the user, etc. of the Xiaomi TV box).

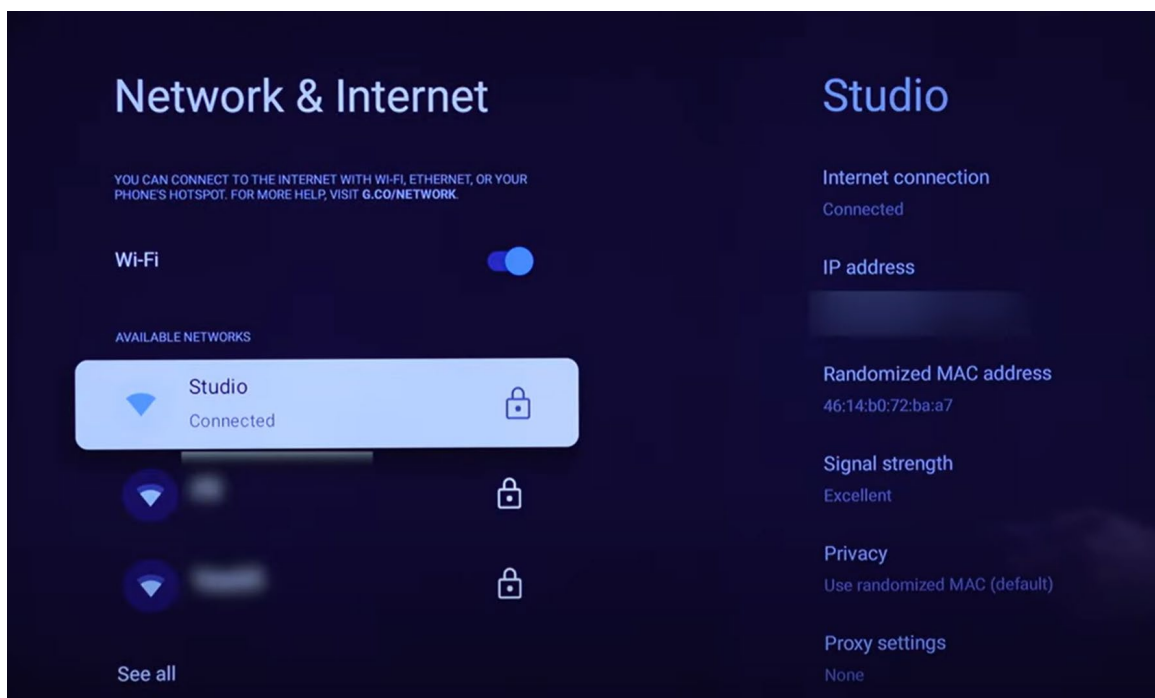

11.Q: How does Mi box connect network?

A: Through wireless and wired modes: wired mode can be directly plugged into the network cable (the cable must be directly connected to the router), wireless mode only needs to enter the mi Box system setting interface, search for wireless signals, select Wi-Fi hotspots, and set according to the prompts.

See [How to install Mi Home app on Mi Box S](https://www.youtube.com/watch?v=UPeJSixSS-Q&t=5s); <https://www.youtube.com/watch?v=UPeJSixSS-Q&t=5s>.

The screenshot shows the top navigation bar of the Mi website with links for Mobile, Wearables, Smart Home, Lifestyle, POCO, Discover, Support, and Contact. Below the navigation bar is a breadcrumb trail: Home / Support / How to bind Mi Home APP?. The main heading is 'How to bind Mi Home APP?'. Underneath, there is a 'Solution:' section with two methods: Method 1 involves logging into a Mi account on the Mi TV and box settings, and Method 2 involves logging into the Mi Home APP on a mobile phone connected to the same LAN. A 'Notes:' section follows, stating that after successful binding, the Mi Home APP can be used to remotely control the Mi TV and box, and the phone must remain on the same LAN.

94. On information and belief, Xiaomi directly infringes at least claim 10 of the '898 patent in violation of 35 U.S.C. § 271(a) by making, using, selling, selling access to, importing, offering for sale, and/or offering to sell access to the Xiaomi Products and Services.

95. Innovation Sciences has been damaged by Defendants' infringement and has caused / continues to cause it to suffer irreparable harm and damages as a result of the infringement.

**JURY DEMANDED**

96. Pursuant to Federal Rule of Civil Procedure 38(b), Innovation Sciences hereby requests a trial by jury on all issues so triable.

**PRAYER FOR RELIEF**

Innovation Sciences respectfully requests this Court to enter judgment in its favor and against Defendants as follows:

- a. finding that Xiaomi has infringed one or more claims of the '179 patent under 35 U.S.C. §§ 271(a);

- b. finding that Xiaomi has infringed one or more claims of the '125 patent under 35 U.S.C. §§ 271(a);
- c. finding that Xiaomi has infringed one or more claims of the '898 patent under 35 U.S.C. §§ 271(a);
- d. awarding Innovation Sciences damages under 35 U.S.C. § 284, or otherwise permitted by law, including supplemental damages for any continued post-verdict infringement;
- e. awarding Innovation Sciences pre-judgment and post-judgment interest on the damages award and costs;
- f. declaring that Xiaomi has willfully infringed one or more claims of the Patents-in-Suit;
- g. awarding cost of this action (including all disbursements) and attorney fees pursuant to 35 U.S.C. § 285, or as otherwise permitted by the law; and,
- h. awarding such other costs and further relief that the Court determines to be just and equitable.
