The listed patents are the '149, '976, '463 and '258 patents (collectively, “the Listed Patents”). The FDA has published these patents in the Approved Drug Products with Therapeutic Equivalence Evaluations, commonly referred to as the “Orange Book.”

18. The '258 patent was listed in the Orange Book after Allergan filed its original complaint against Alcon.

26. The April 1, 2010 letter alleged that the claims of the '258 patent were invalid, unenforceable and/or would not be infringed by the commercial manufacture, use or sale of Alcon's proposed Brimonidine Tartrate and Timolol Maleate Ophthalmic Solution, 0.2%/0.5%.

27. Attached to the April 1, 2010 letter was a document describing the factual and legal bases for Alcon's opinion that the '258 patent is invalid, unenforceable and/or would not be infringed by the Alcon product described in ANDA No. 91-574.

28. In filing its ANDA, Alcon has requested the FDA's approval to market a generic version of Allergan's Combigan® product throughout the United States, including in Texas.

29. On information and belief, following FDA approval of its ANDA, Alcon will sell the approved generic version of Allergan's Combigan® product throughout the United States, including in Texas.
