FIRST CLAIM FOR RELIEF PATENT INFRINGEMENT OF U.S. PATENT NO. 5,719,922 (35 U.S.C. § 271)

8. The allegations set forth in the foregoing paragraphs 1 through 7 are incorporated into this First Claim for Relief.

9. On February 17, 1998, the '922 Patent, entitled "Simultaneous Voice/Data Answering Machine." was duly and legally issued by the United States Patent and Trademark Office to inventors Gordon Bremer and Richard Kent Smith (collectively "the '922 Inventors"), and has been duly and legally assigned to Brandywine. All of the '922 Inventors reside in this judicial district. A copy of the '922 patent is attached as Exhibit A.

10. Apple has had actual knowledge of the '922 patent and its alleged infringement of that patent since at least October 3, 2011, when Apple was served with Plaintiff's Original Complaint in *Brandywine Communications Technologies, LLC v. Apple Inc., et al.*, Case 6:11-cv-01512-MSS-DAB (M.D. Fla. filed Sept. 13, 2011). Apple has also had knowledge since at least December 13, 2011, the date Brandywine sent Apple a letter that provided additional notice of Apple's infringement of the '922 patent.

11. Upon information and belief, Defendant Apple has directly and indirectly infringed and continues to directly and indirectly infringe one or more claims of the '922 patent in this judicial district and elsewhere by making, using, selling and offering for sale, services and products that infringe and/or perform processes that infringe one or more claims of the '922 patent ("Apple Accused Services and Products for the '922 patent").

12. Apple Accused Services and Products for the '922 patent include, but are not limited to, iPhone 4, iPhone 3, iPhone 2, iPhone 1, iPad 2 and iPad 1.

13. Furthermore, and/or in the alternative, upon information and belief, Apple has committed joint infringement of the '922 patent. Apple and its service providers, including, but not limited to, AT&T Mobility, LLC, have, acting jointly, infringed and continue to infringe at least claim 7 of the '922 patent by making, using, selling and offering for sale, services and products that infringe and/or perform processes that infringe at least claim 7 of the '922 patent. Moreover, Apple has exercised and continues to exercise control and direction over the jointly infringing activities of its service providers, including, but not limited to, AT&T Mobility, LLC.

14. Upon information and belief, Apple's continued infringement despite its knowledge of the '922 patent and Brandywine's accusations of infringement has been objectively reckless and willful.

15. Upon information and belief, since at least October 3, 2011, Apple has committed and continues to commit acts of contributory infringement of at least claim 1 of the '922 patent under 35 U.S.C. § 271(c) in that Apple has made, used, sold, offered to sell, and/or imported, or continues to make, use, sell, offer to sell services and products including Apple Accused Services and Products for the '922 patent. These products have no substantial non-infringing uses and are especially adapted to work in a system or carry out a method claimed in the '922 patent, for example, by claim 1. Apple provides such products to its customers, whose use of such products constitutes direct infringement of at least claim 1 of the '922 patent.

16. Upon information and belief, since at least October 3, 2011, Apple has committed and continues to commit acts of contributory infringement of at least claim 7 of the '922 patent under 35 U.S.C. § 271(c) in that Apple has made, used, sold, offered to sell, and/or imported, or continues to make, use, sell, offer to sell services and products including Apple Accused Services and Products for the '922 patent. Apple provides such products to its service providers, including, but not limited to AT&T Mobility, LLC, whose use of such products constitutes direct infringement of at least claim 7 of the '922 patent, and where its service providers' customers' use of such products and services constitutes direct infringement of at least claim 7 of the '922 patent.

17. Upon information and belief, since at least October 3, 2011, Apple has induced and continues to induce others to infringe at least claim 1 of the '922 patent under 35 U.S.C. § 271(b) by, among other things, actively and knowingly aiding and abetting others to infringe, including, but not limited to consumers whose use of such services and products constitutes

direct infringement of at least claim 1 of the '922 patent. Apple's aiding and abetting includes, for example, advertising, instructing, and/or supporting the consumers' directly infringing use.

18. Upon information and belief, since at least October 3, 2011, Apple has induced and continues to induce others to infringe at least claim 7 of the '922 patent under 35 U.S.C. § 271(b) by, among other things, actively and knowingly aiding and abetting others to infringe, including, but not limited to, its service providers, such as AT&T Mobility, LLC, whose use and sale of such services and products constitutes direct infringement of at least claim 7 of the '922 patent, and where its service providers' customers' use of such products and services constitutes direct infringement of at least claim 7 of the '922 patent. Apple's aiding and abetting includes, for example, marketing and promoting the sale of Apple Accused Services and Products by others, such as AT&T Mobility, LLC.

19. Because of Apple's infringement, inducement of infringement, and contributory infringement of the '922 patent, Brandywine has suffered damages and will continue to suffer damages in the future.
