5. The Court has personal jurisdiction over Defendant because Defendant has minimum contacts within the State of California, and the Central District of California; Defendant has purposefully availed itself of the privileges of conducting business in the State of California and in the Central District of California; Defendant has sought protection and benefit from the laws of the State of California; Defendant regularly conducts business within the State of California and within the Central District of California; and, Plaintiff’s cause of action arises directly from Defendant’s business contacts and other activities in the State of California and in the Central District of California.

6. More specifically, Defendant, directly and/or through intermediaries, ships, distributes, offers for sale, sells, and/or advertises its products and services in the United States, the State of California, and the Central District of California.

12 **COUNT I – PATENT INFRINGEMENT**

13 8. United States Patent No. 5,961,332, entitled "Apparatus for Processing
14 Psychological Data and Method of Use Thereof," was duly and legally issued by the
15 United States Patent and Trademark Office on October 5, 1999 after full and fair
16 examination. Plaintiff is the assignee of all rights, title, and interest in and to the
17 '332 patent and possesses all rights of recovery under the '332 patent including the
18 right to sue for infringement and recover past damages.

19 9. Upon information and belief, EMS has infringed and continues to
20 infringe one or more claims of the '332 patent by making, using, providing,
21 offering to sell, and selling (directly or through intermediaries), in this district and
22 elsewhere in the United States, systems for remotely utilizing the My Electronic
23 MD server for processing psychological data.

24 10. Upon information and belief EMS has induced and continues to induce
25 infringement of one or more claims of the '332 patent in this district and elsewhere
26 in the United States, by, among other things, actively and successfully encouraging,
27 instructing, enabling and otherwise causing end users and/or customers to use its
28

1 My Electronic MD server via the My Electronic MD website in a manner which
2 infringers the '332 patent. EMS has had knowledge of the '332 patent since
3 commencement of this action at least and, upon information and belief, continues to
4 encourage, instruct, enable and otherwise cause end users and/or customers to use
5 its products in a manner which infringers the '332 patent. Upon information and
6 belief, EMS has specifically intended that its end users and/or customers use the
7 accused products in such a way that infringes the '332 patent by, at minimum,
8 proving instructions to end users and/or customers on how to use the accused
9 products in such a way that infringes the '332 patent and knew, or have known, that
10 its actions, including but not limited to providing such instructions, would induce,
11 have induced, and will continue to induce infringement by end users and/or
12 customers.

13 11. Upon information and belief, EMS has contributed to and continues to
14 contribute to the infringement of one or more claims of the '332 patent by offering
15 to sell, and selling directly or through intermediaries, to end users and/or customers,
16 in this district and elsewhere in the United States, its products or services covered
17 by the '332 patent that constitutes a material part of the invention, and that end
18 users and/or customers have utilized said products in a manner that infringes one or
19 more claims of the '332 patent. Upon information and belief, EMS has been aware,
20 since at least the service of this action, that use of its My Electronic MD server via
21 the My Electronic MD website in a manner which infringers the '332 patent, are
22 especially made and/or adapted for user(s) that infringe one or more claims of the
23 '332 patent and, are, therefore not staple articles or commodities of commerce
24 suitable for substantial non-infringing use.

25 12. Defendant's aforesaid activities have been without authority and/or
26 license from Plaintiff.

13. Plaintiff is entitled to recover from Defendant the damages sustained by Plaintiff as a result of Defendant’s wrongful acts in an amount subject to proof at trial, which, by law, cannot be less than a reasonable royalty, together with interest and costs as fixed by this Court under 3 U.S.C. § 284.

14. Defendant’s infringement of Plaintiff’s exclusive rights under the ‘332 patent will continue to damage Plaintiff, causing irreparable harm for which there is no adequate remedy at law, unless enjoined by this Court.

JURY DEMAND

15. Plaintiff hereby requests a trial by jury pursuant to Rule 38 of the Federal Rules of Civil Procedure.

PRAYER FOR RELIEF

16. Plaintiff respectfully requests that the Court find in its favor and against Defendant, and that the Court grant Plaintiff the following relief:
